PETNF PF143-HW

PETNF Chicken Coop Heater PF143-HW User Manual

Model: PF143-HW

1. Introduction

Thank you for choosing the PETNF Chicken Coop Heater. This radiant heater is designed to provide a safe, energy-efficient, and comfortable warming solution for your poultry and small animals during colder months. This manual provides essential information for the proper setup, operation, and maintenance of your heater to ensure optimal performance and safety.

2. Safety Information

- Read all instructions before using the heater.
- This appliance is for indoor use in coops, barns, or similar animal enclosures only. Do not use outdoors or in wet conditions where it is exposed to direct rain or heavy moisture.
- Ensure the power cord is not damaged and is routed safely to prevent tripping hazards or chewing by animals.
- Do not cover the heater. Maintain adequate clearance from flammable materials such as straw, bedding, or curtains.
- The heater features a built-in thermostat to maintain consistent surface temperature and overheat protection.
- The heater has an IP55 waterproof rating, indicating protection against dust and low-pressure water jets. It is not designed for submersion.
- Always unplug the heater before cleaning or performing any maintenance.
- Keep out of reach of children.

3. Product Overview and Components

The PETNF Chicken Coop Heater is a 180W foldable radiant heating panel, measuring 30 inches by 12 inches, designed for efficient warmth. It includes a remote control for convenient operation.

Package Contents:

- PETNF Foldable Chicken Coop Heater
- Remote Control
- Floor Mounting Bracket
- Power Cord (9.8 feet)
- Mounting Screws (for wall installation)

4. Setup and Installation

The PETNF Chicken Coop Heater offers versatile installation options to suit your coop's layout.

Installation Methods:

1. **Floor Standing (180° Upright):** Attach the provided bracket feet to the card slot on the heating plate. Position the heater upright at a 180-degree angle on a flat, stable surface on the floor.
2. **Wall Mounting:** Securely mount the heater to a wall using the provided screws. Ensure the wall material can support the heater's weight and that there is adequate space around the heater for proper heat distribution.
3. **Corner Placement (45°-180° Fold):** The panel can be folded between 45° and 180°, allowing it to be positioned neatly in a corner to save space and maximize warmth. Use the bracket feet for stability or wall mount as needed for this configuration.

5. Operating Instructions

Your PETNF Chicken Coop Heater can be controlled via the included infrared remote or the integrated control panel.

Control Panel and Remote Functions:

- **Power On/Off:** Press the power button on the remote or control panel to turn the heater on or off.
- **Temperature Adjustment:** The heater offers 3 temperature levels. Use the temperature adjustment buttons on the remote or control panel to cycle through the settings. The current level will be displayed on the LED screen.
  - Level 1: 122–140°F (50–60°C)
  - Level 2: 140–158°F (60–70°C)
  - Level 3: 158–176°F (70–80°C)
- **Timer Setting:** Use the timer button to set the operating duration from 1 to 24 hours. The heater will automatically

shut off after the set time.

- **Memory Function:** The heater retains your last temperature and timer settings when powered off and on again.

6. Maintenance

Regular maintenance ensures the longevity and efficient operation of your PETNF Chicken Coop Heater.

Cleaning:

- Always unplug the heater from the power outlet before cleaning.
- Wipe the surface of the heating panel with a soft, damp cloth. Do not use abrasive cleaners, solvents, or harsh chemicals.
- Ensure the heater is completely dry before plugging it back in.

Storage:

- When not in use, store the heater in a cool, dry place, away from direct sunlight and extreme temperatures.
- Ensure the power cord is neatly coiled and not kinked or damaged during storage.

7. Troubleshooting

If you encounter issues with your heater, refer to the following common problems and solutions:

- **Heater does not turn on:**
  - Check if the power cord is securely plugged into a working electrical outlet.
  - Ensure the remote control batteries are not depleted if using the remote.
  - Verify that the power button on the control panel or remote has been pressed.
- **Heater is on but not producing sufficient heat:**
  - Confirm the temperature setting is at the desired level (Level 1, 2, or 3).
  - Ensure the heater is placed appropriately for the size of the enclosure and that animals are within the radiant heating range (up to 76cm).
  - Check for any obstructions blocking the heat emission.
- **Remote control is not working:**
  - Replace the batteries in the remote control.
  - Ensure there is a clear line of sight between the remote and the heater's receiver.

If the problem persists after attempting these solutions, please contact customer support.

8. Specifications

Feature	Detail
Brand	PETNF
Model Number	PF143-HW
Power	180W
Dimensions (LxWxH)	13 x 2 x 9 inches (folded); 30 x 12 inches (heating surface)
Item Weight	5.02 pounds
Max Temperature Setting	176°F (80°C)
Number of Heat Levels	3
