Connect+ Security System

The easiest system to learn and install

For Professional Security Dealers looking for a simple and high-value smart security system, Alula's Connect+ is straightforward to learn, operate and manage.
Built for a wide range of residential and small business applications, its unique wireless design makes it effortless for alarm dealers to maximize their time and save money by leveraging the industry's quickest installation and 5G-ready,on-demand cellular technology.

Benefits of the using Connect+

Save Time

Offer the quickest-to-install system in the industry and increase technician productivity

Save Money

Save money by eliminating the inevitable LTE/4G sunset with a system that's 5G-ready.

Unleash RMR

Increase attachment rates with smartphone control, cameras, and automation.

Better Service

Remote programming, troubleshooting, and firmware updates.

Easy Programming

The easiest platform to learn, operate, and manage removes headaches associated with switching systems

Maximum Flexibility

No need to run wires with the ability to place touchscreens in the most convenient location for your customer.

Flexible kit offerings
