Slimline Touchpad

Quick Start Guide

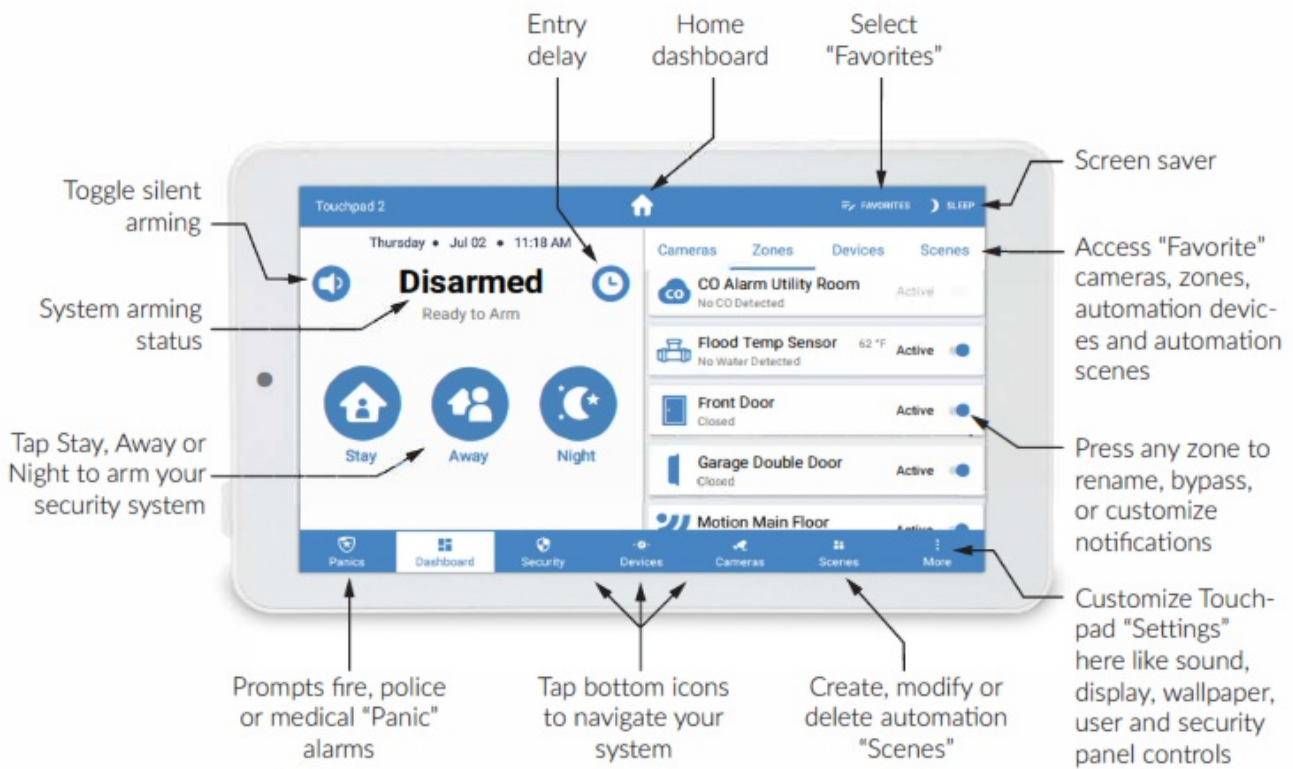

Congratulations on the purchase of your Slimline Touchpad Control. The vivid 7" touch-screen is easy to operate, with full and alarm reporting. It uses an encrypted Wi-Fi™ connection to control your cutting-edge security system, providing a live video feed of security cameras around your property.

Slimline Touchpad Arming Functions

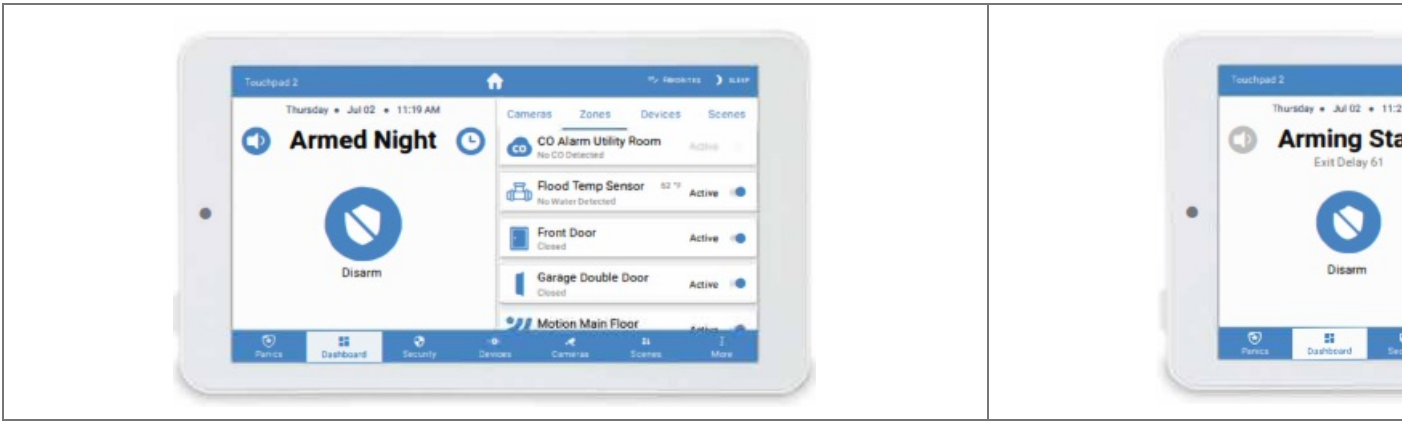

Stay

Select the STAY icon to arm your system while you are still on the premises. Motion detectors will be disabled.

Away

Set your security system to arm your premises. This setting will enable motion detectors.

 <p>Night</p>	<p>Armed NIGHT is for when you are on-premises overnight. Your security will arm immediately without an exit delay, motion detectors can be turned off so you can move about freely, or activities to enhance intrusion security.</p>	 <p>Disarm</p>
