### IMPORTANT SAFETY INSTRUCTIONS

Read these instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions must be included.

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons including the following:

**WARNING:** Risk of injury! Avoid contacting moving parts. Wait until all components have completely stopped before touching them.

**CAUTION:** Reduce the risk of fire or electric shock, do not use this fan with any solid-state speed control device.

- Before connecting the product to the power supply, check that the power supply voltage and current rating corresponds with the power supply details shown on the product's rating label.
- Do not insert fingers or foreign objects in any opening of the product and do not obstruct the air vents.
- Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.
- Do not run under carpeting. Do not cover cord with throw rugs, runners, or similar coverings. Do not route cord

under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.

- Never use the product without the safety guard or with a damaged safety guard.
- Do not place any clothes or curtains on the product as they could be sucked into the fan during operation and damage the product.
- During use, keep hands, hair, clothing and utensils away from the safety guard to avoid injuries and damage of the product.
- Unplug or disconnect the appliance from the power supply before servicing.
- This product employs overload protection (fuse). A blown fuse indicates an overload or short-circuit situation. If the fuse blows, unplug the product from the outlet. Replace the fuse according to the instructions in this manual (follow product marking for proper fuse rating) and check the product. If the replacement fuse blows, a short-circuit may be present and the product should be discarded or returned to an authorized service facility for examination and/or repair.

### **Polarized Plug**

- This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

## **SAVE THESE INSTRUCTIONS**

### **Intended Use**

- This product is intended for household use only. It is not intended for commercial use.
- This product is intended to be used in dry indoor areas only.
- No liability will be accepted for damages resulting from improper use or non-compliance with these instructions.
