Amazon Basic B09R4MDLMM Computing Cooling Fan

Important Safeguards

Read these Instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions must be Included.

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to a person including the following:

DANGER: Risk of suffocation! Keep any packaging materials away from children and pets – these materials are a potential source of danger, e.g. suffocation.

CAUTION: Risk of electric shock! When installing the product, make sure the computer is switched off and unplugged.

CAUTION: Risk of electric shock! When handling a motherboard, always wear an anti-static wrist band to ground your body and to prevent damage to the hardware or component.

- Keep the product away from children and pets.
- Do not apply excessive amounts of thermal compound to avoid it flowing over the edges of the processor and reach the socket.
- Do not ingest the thermal compound and avoid its contact with skin and eyes. If contact is made with skin, wash off with water. Seek medical attention if ingested or irritation persists.
- Do not apply excessive force on the product.
- Do not over-tighten the product to the motherboard.

- Avoid inserting objects or hands into the product while it is in operation.
- Take the product off the motherboard during transport.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference.
2. this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

Canada IC Notice

This Class B digital apparatus complies with Canadian CAN ICES-003(B) / NMB-003(B) standard.

Disposal

The Waste Electrical and Electronic Equipment (WEEE) Directive aims to minimise the impact of electrical and electronic goods on the environment, by increasing re-use and recycling and by reducing the amount of WEEE going to landfill. The symbol on this product or its packaging signifies that this product must be disposed separately from ordinary household wastes at its end of life. Be aware that this is your responsibility to dispose of electronic equipment at recycling centres in order to conserve natural resources. Each country should have its collection centres for electrical and electronic equipment recycling. For information about your recycling drop off area, please contact your related electrical and electronic equipment waste management authority, your local city office, or your household waste disposal service.

Specifications

- **Model number:** RR-H410-20PC-AS
- **CPU socket:** LGA 1700, LGA 1200, LGA 1151, LGA 1150,LGA 1155,LGA 1156, AM4, AM5
- **Heat sink material:** 4 heat pipes, aluminum fins
- **LED:** RGB

- **Fan speed:** 600-2000 RPM
- **Fan airflow:** 34.73 CFM
- **Fan noise level:** 30 dBA (max.)
- **Fan air pressure:** 1.86 mmH2O
- **Rated voltage:** 12 V === 0.19 A 2.28 W
 - 12 V === 0.4 A (max.) 4.8 W
- **Net weight:** approx. 0.9 lbs (0.41 kg)
- **Dimensions (W x H x D):** approx. 4.72 x 3.82 x 7.56" (12 x 9.7 x 19.2 cm)
