Philips Beauty BRI984/03

Philips Lumea 9000 Series IPL Hair Removal Device User Manual

Brand: Philips Beauty | **Model:** BRI984/03

1. Introduction and Overview

The Philips Lumea IPL 9000 Series is an advanced Intense Pulsed Light (IPL) hair removal device designed for effective and long-lasting hair reduction in the comfort of your home. Utilizing SenseIQ technology, it adapts to your skin tone for a personalized and comfortable treatment experience. This manual provides essential information for safe and optimal use of your device.

The device works by emitting gentle pulses of light that are absorbed by the melanin in the hair follicle, causing the hair to go into a resting phase and shed naturally. With consistent use, hair regrowth is inhibited, leading to smooth skin. Clinical studies show visible results after just 2 sessions and over 90% hair removal in 3 treatments.

2. Key Features

- **SenseIQ Technology:** Features 3 sensors to read your skin tone and adjust temperature for a safe and comfortable treatment, even on sensitive areas. It also detects good skin contact for eye protection.
- **Fast Results:** Visible hair reduction in as few as 2 sessions, with over 90% hair removal in 3 treatments. Requires bi-weekly treatments initially, then monthly touch-ups.
- **Four Unique Attachments:** Specifically designed with unique shapes and filters for optimal treatment on different body areas: body, face, bikini, and underarms.
- **Philips Lumea IPL App:** A companion app to help optimize your treatment routine, provide smart reminders, and offer helpful tips and tricks.
- **Corded Operation:** Ensures uninterrupted treatments with full power.
- **Clinically Tested:** Philips Lumea is clinically tested to deliver gentle, fast, and effective results.

3. Getting Started: Setup

Before your first treatment, ensure you have all components and prepare your device.

3.1 Unboxing and Components

Carefully remove all items from the packaging. Your Philips Lumea 9000 Series (BRI984/03) includes:

- 1x Philips Lumea IPL Hair Removal 9000 Series device
- 1x Power adapter
- 1x Cleaning cloth

- 1x Luxury storage box
- 4x Attachments (for body, face, bikini, and underarms)

Figure 3.1: Philips Lumea 9000 Series device with its storage box and four attachments.

3.2 Attaching the Treatment Window

Select the appropriate attachment for the body area you intend to treat. Each attachment is designed to fit specific curves and has a unique filter for optimal results and safety.

Figure 3.2: The Philips Lumea device and its four specialized attachments in their storage case.

3.3 Power Connection

Connect the power adapter to the device and plug it into a wall outlet. The device is designed for corded use to ensure consistent power during treatments.

3.4 Philips Lumea IPL App

Download the Philips Lumea IPL app from your device's app store. The app provides a personalized treatment plan, reminders, and helpful tips to guide you through your hair removal journey.

4. Operating Instructions

Follow these steps for safe and effective IPL hair removal.

4.1 Skin Preparation

Before each treatment, ensure your skin is clean, dry, and free of any lotions, creams, or deodorants. Shave the area to be treated. Do not wax or epilate, as IPL targets the hair root.

4.2 SenseIQ Skin Tone Sensor

The SenseIQ technology automatically detects your skin tone and recommends the most comfortable light setting. Place the device on your skin, and the indicator lights will show the recommended setting. You can manually adjust the setting if desired, but always ensure it's comfortable and safe for your skin type.

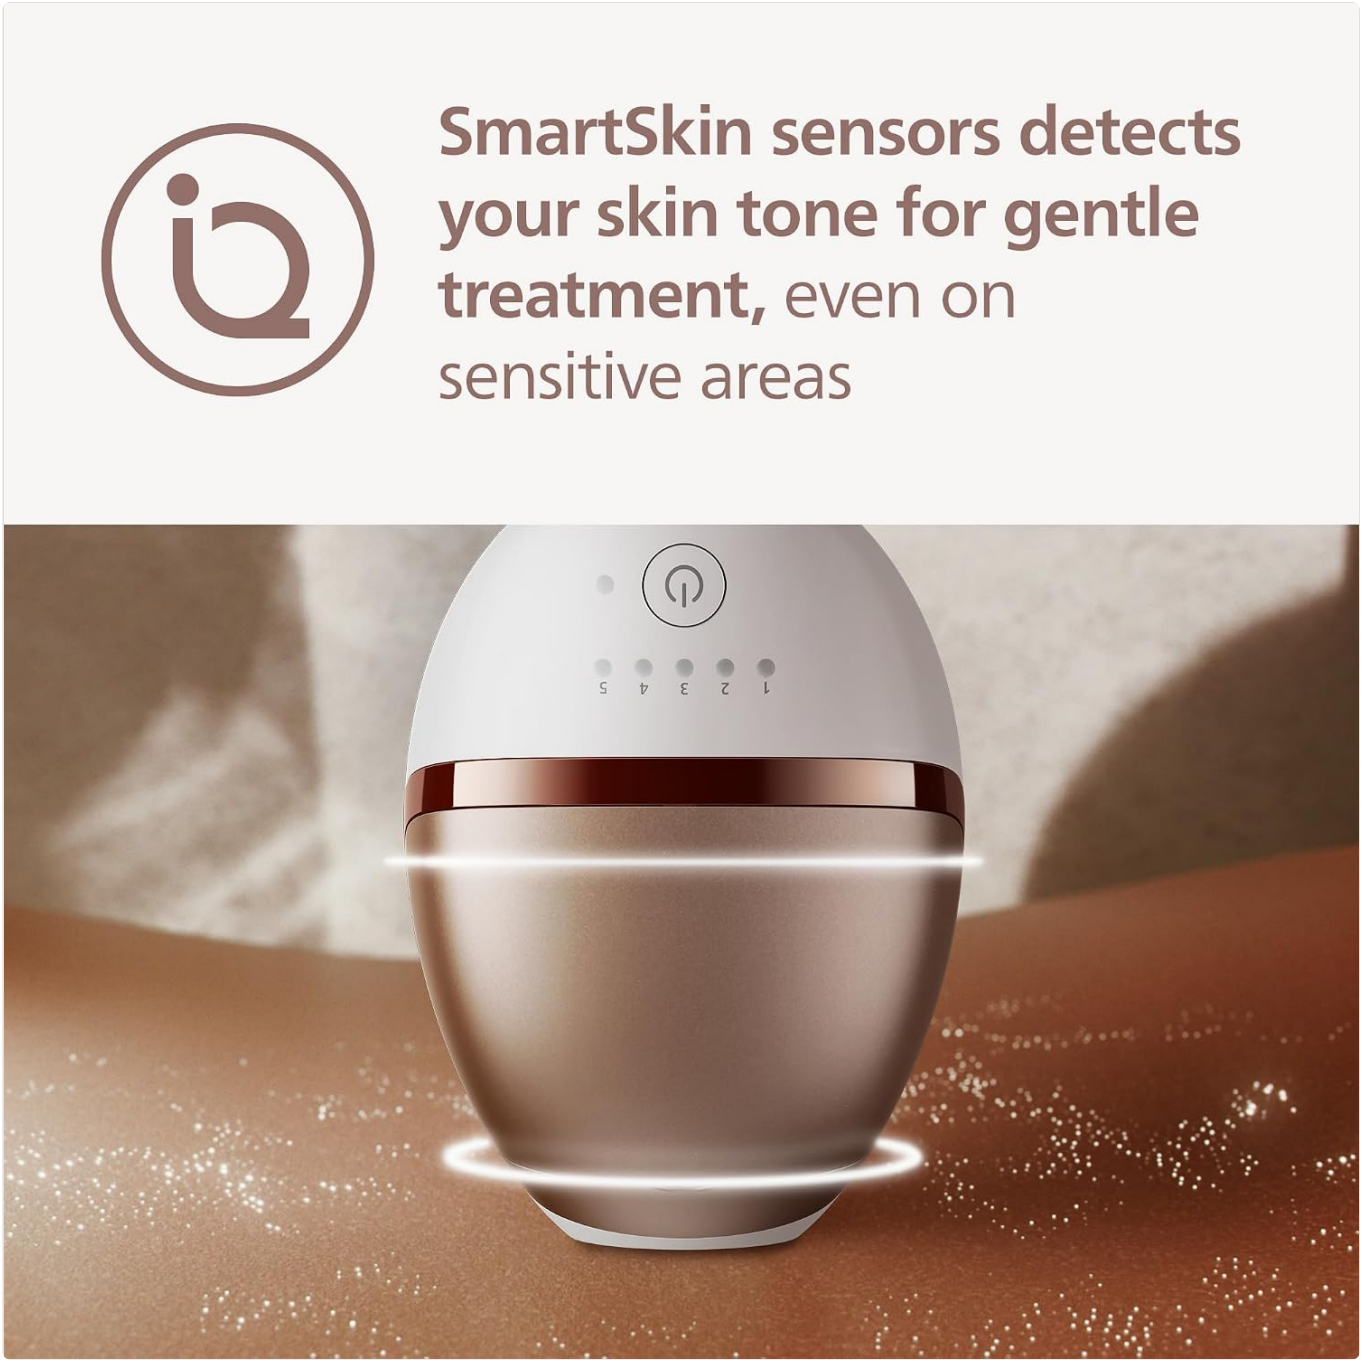

Figure 4.1: SmartSkin sensors detect your skin tone for gentle treatment.

4.3 Treatment Application

Press the device firmly against your skin to ensure full contact. The device will only flash when proper contact is made. For larger areas like legs, use the gliding motion. For smaller, curved areas, use the stamp and flash method.

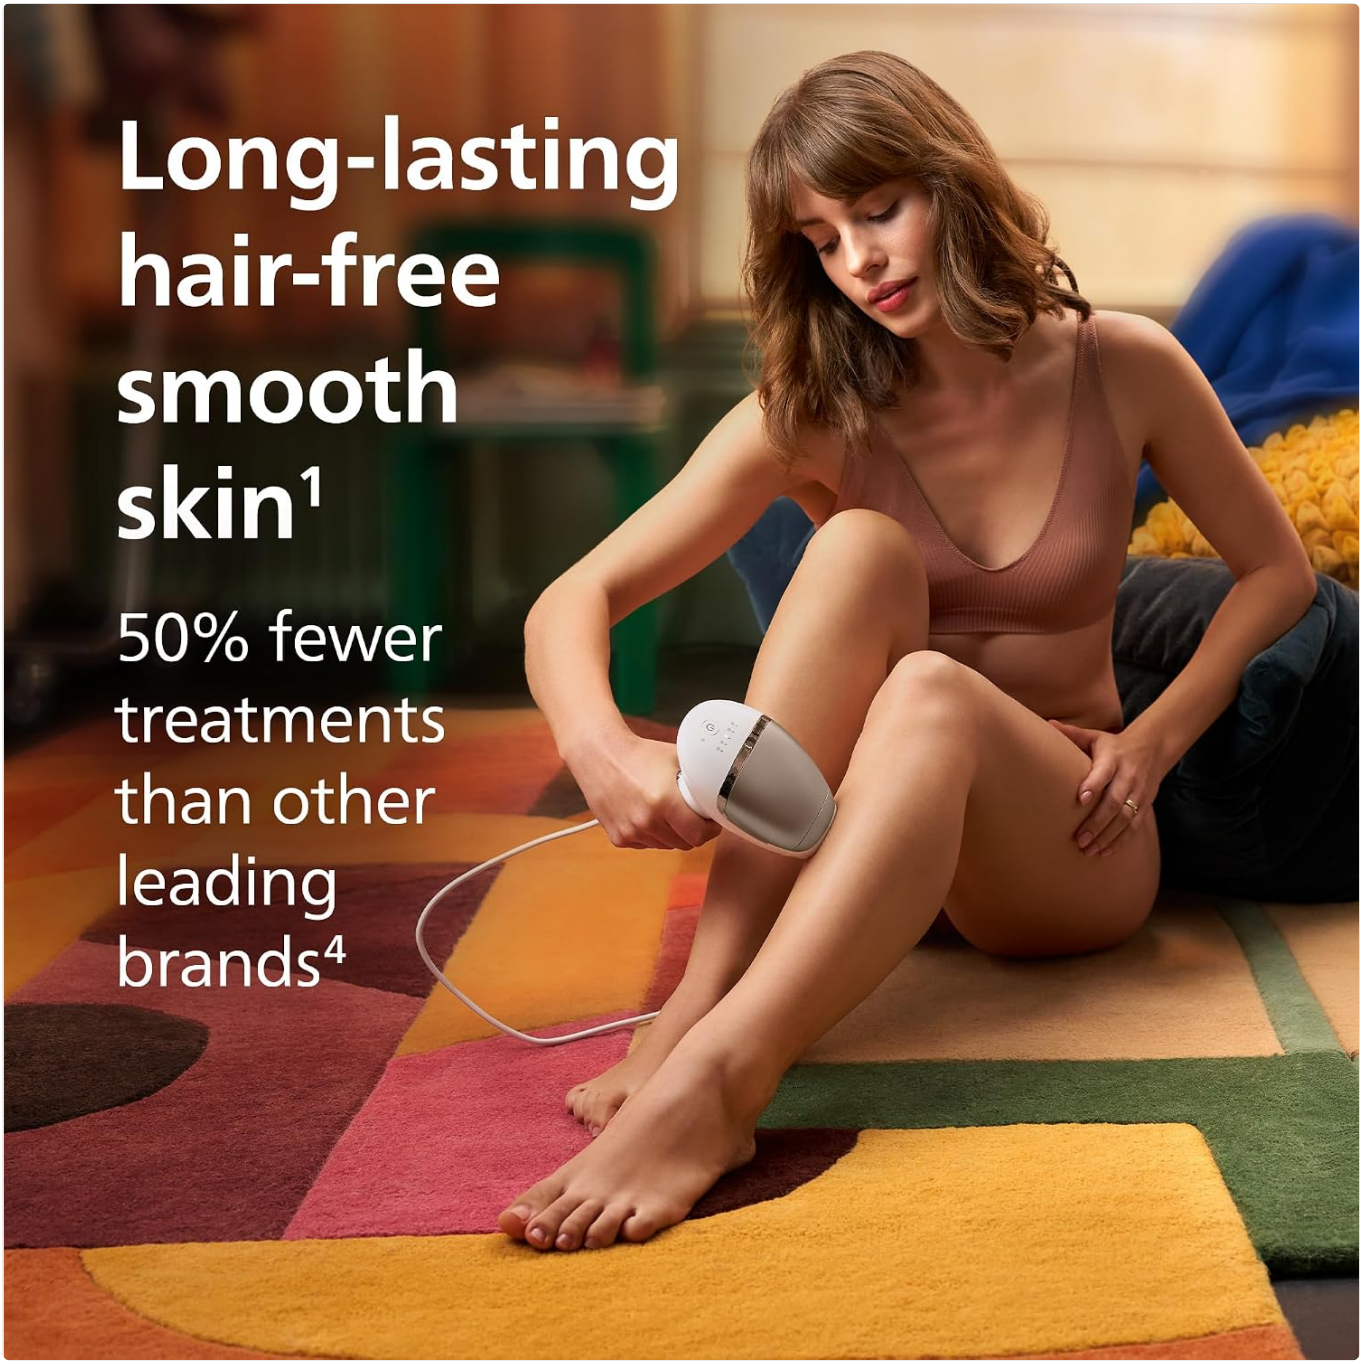

Figure 4.2: Applying the Philips Lumea device to the leg for hair removal.

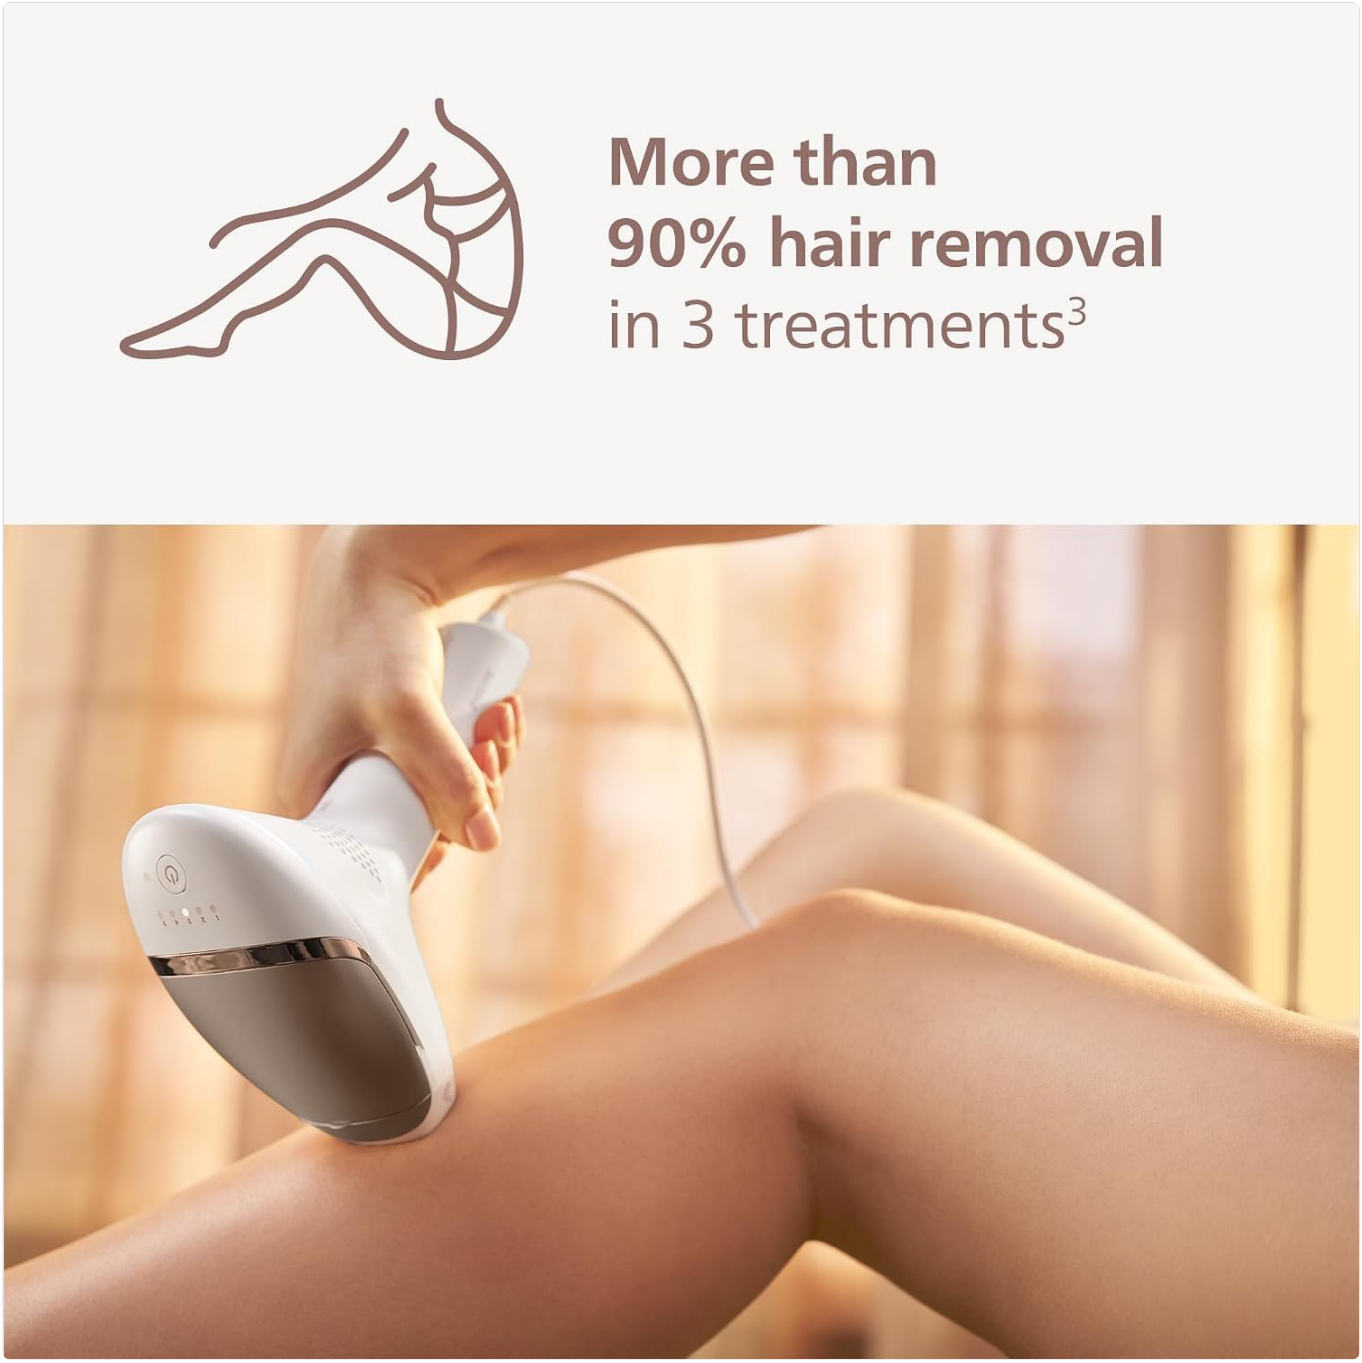

Figure 4.3: Detailed view of the device being used on the leg, demonstrating the treatment process.

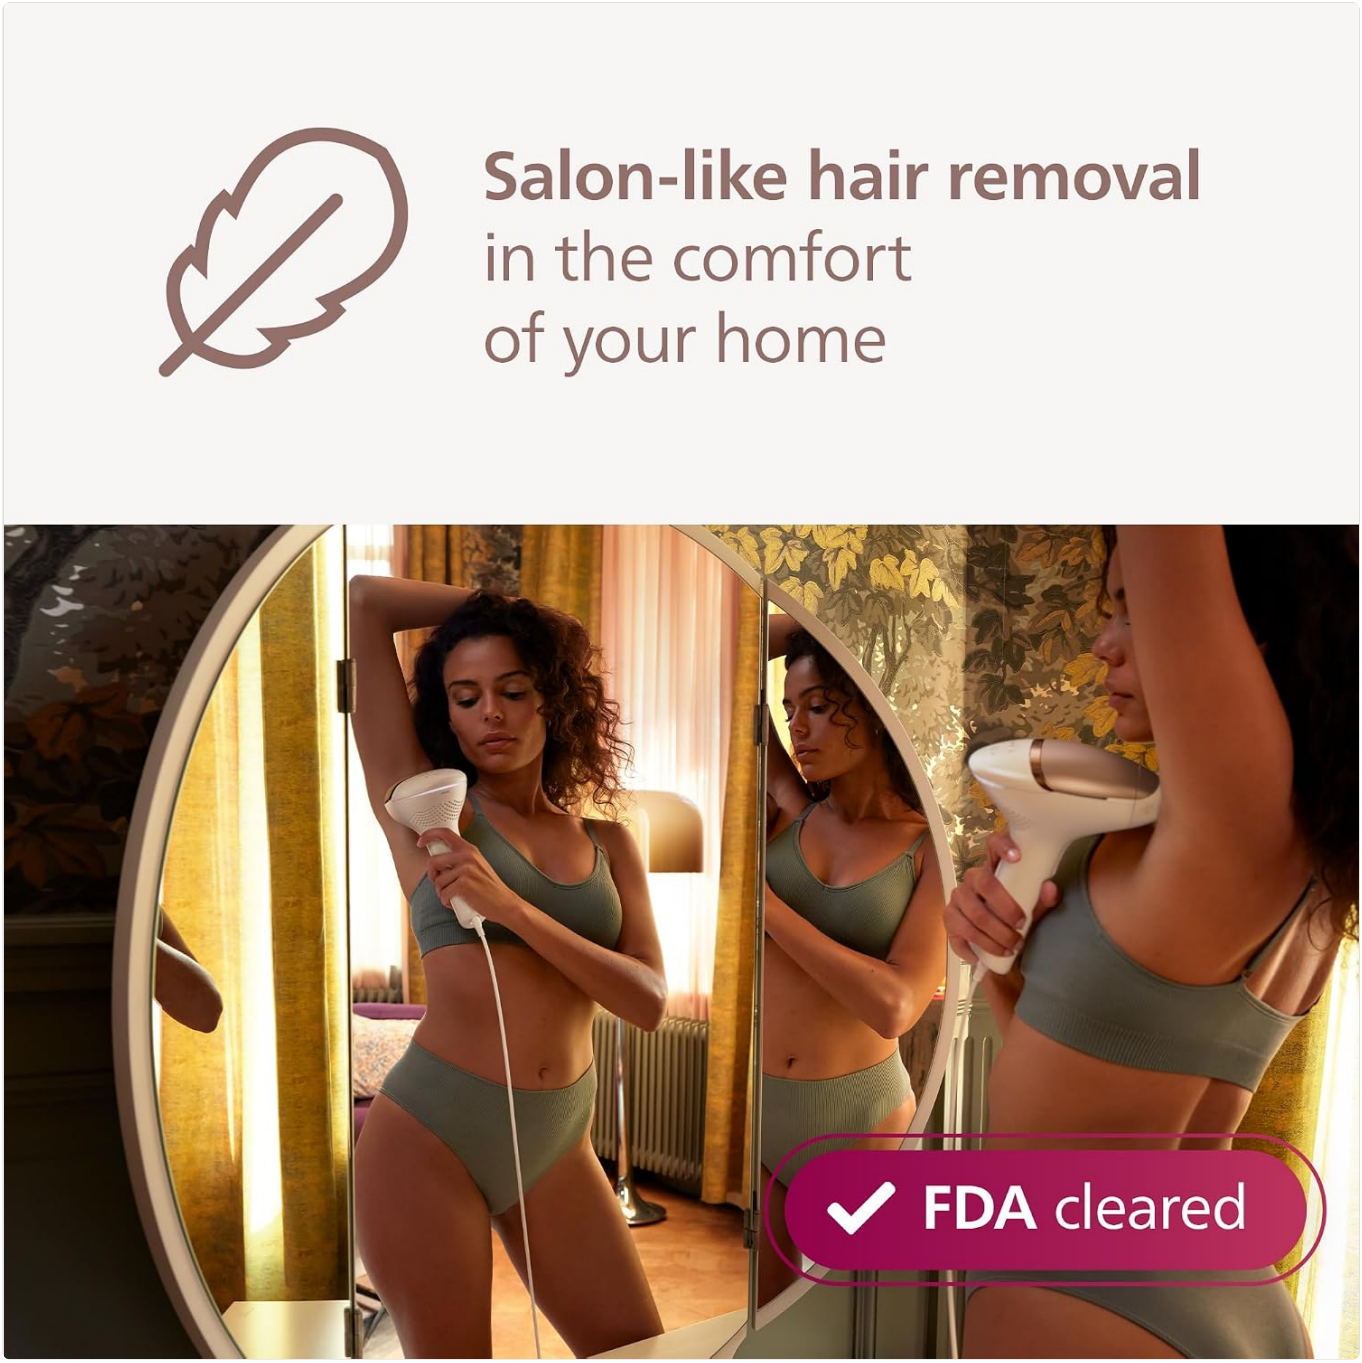

Figure 4.4: The device is suitable for underarm treatment, as shown by a woman using it in front of a mirror.

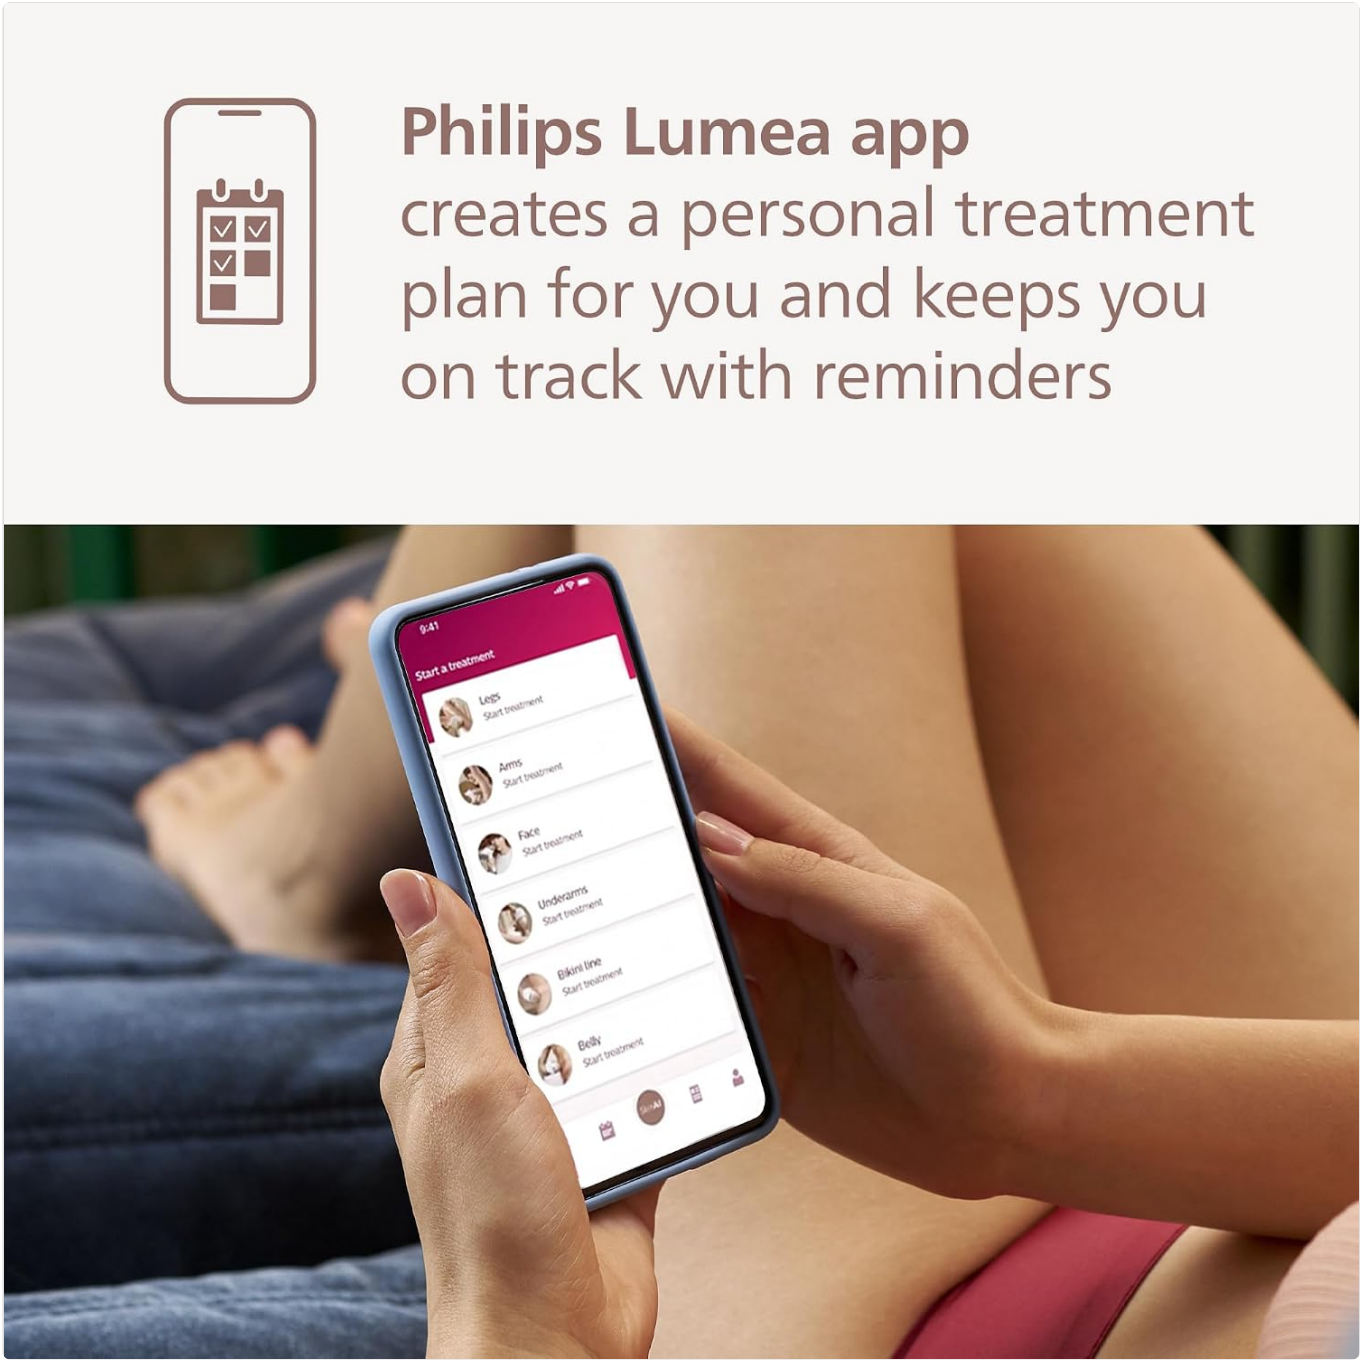

Figure 4.5: The device can be used on the face (females only, below the cheekbones) with the specialized face attachment.

4.4 Treatment Schedule

For initial results, treat the desired areas bi-weekly for the first 4 weeks. After this initial phase, touch-ups are typically needed only once a month to maintain smooth, hair-free skin. Consistency is key for optimal results.

5. Maintenance

Proper care ensures the longevity and performance of your Philips Lumea device.

5.1 Cleaning

After each use, unplug the device and allow it to cool down. Use the provided cleaning cloth to wipe the treatment window and the device body. Ensure no hair or debris remains on the window, as this can affect performance. Do not

use abrasive cleaners or harsh chemicals.

5.2 Storage

Store the device and its attachments in the luxury storage box in a cool, dry place, away from direct sunlight and moisture. Keep out of reach of children.

6. Troubleshooting

If you encounter issues with your Philips Lumea device, refer to the following common solutions. For detailed troubleshooting, consult the full user manual provided with your product.

Problem	Possible Cause	Solution
Device does not turn on.	Not properly connected to power; power outlet issue.	Ensure the power adapter is securely plugged into both the device and a working wall outlet.
Device does not flash.	Insufficient skin contact; incorrect skin tone for treatment; device malfunction.	Ensure the treatment window is fully pressed against the skin. Check if your skin tone is suitable for IPL treatment (refer to the skin tone chart in the full manual). If issues persist, contact customer support.
Skin irritation after treatment.	Incorrect intensity setting; sensitive skin reaction.	Ensure you are using the recommended intensity setting for your skin tone. If irritation occurs, reduce the intensity or discontinue use and consult a healthcare professional.

For further assistance, please refer to the comprehensive user manual included with your Philips Lumea device or visit the Philips support website.

7. Specifications

Feature	Detail
Model Name	BRI984/03
