Setup

The DICTAC Twin Loft Bed is designed for straightforward assembly. Follow the steps below and refer to the separate detailed installation manual included with your product.

1. **Unpack Components:** Carefully unpack all parts and verify against the parts list in your installation manual. Ensure no parts are missing or damaged.
2. **Prepare Workspace:** Clear a spacious area for assembly. It is recommended to assemble the bed with at least two adults.
3. **Follow Manual:** Adhere strictly to the step-by-step instructions provided in the dedicated installation manual. Pay close attention to diagrams and part numbers.
4. **Tighten Fasteners:** Securely tighten all screws and bolts. Do not overtighten, but ensure a firm connection.
5. **Install Anti-Tipping Device:** Attach the anti-tipping device to the wall as instructed to prevent accidental tipping.
6. **Final Check:** Before first use, inspect the entire structure to confirm all connections are secure and the

bed is stable.

All necessary assembly tools are included with your purchase.

Operating Instructions

LED Lights

The integrated RGB LED lights offer customizable illumination for your space.

- **Control Methods:** The LED lights can be controlled via a dedicated APP or the included line controller.
- **Customization:** Adjust brightness, select dynamic modes, activate music sync mode, utilize mic mode, and set timing modes through the APP to create various ambient lighting effects.

Maintenance

Regular maintenance will prolong the life and appearance of your loft bed.

- **Cleaning:** Wipe metal surfaces with a soft, damp cloth. For MDF surfaces, use a mild cleaner if necessary, then wipe dry immediately. Avoid abrasive cleaners.
- **Fastener Check:** Periodically check all screws, bolts, and connections to ensure they remain tight. Retighten as needed.
- **LED Lights:** Keep the LED strip clean and free from dust. Avoid direct contact with water.
- **Fabric Drawers:** Clean fabric drawers according to their specific care instructions, typically spot cleaning with a damp cloth and mild detergent.

Troubleshooting

Refer to this section for solutions to common issues.

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose fasteners; Anti-tipping device not installed or improperly secured.	Ensure all screws and bolts are tightened. Install or re-secure the anti-tipping device to the wall.
LED lights not working.	Power connection issue; Controller malfunction.	Check if the power cord for the LED lights is securely plugged in. Verify the line controller or APP connection.
Charging station not providing power.	Power cord not plugged in; Device not compatible.	Ensure the charging station's power cord is fully plugged into a functional wall outlet. Test with a different device.
