## amazon basics A19 Smart Dimmable LED Light Bulb User Guide

 **FINAL V2**

# amazon basics

### Quick Setup Guide

Smart A19 Dimmable LED Light Bulb, Soft White, 2.4GHz WiFi, 9W (60W Equivalent), Works with Alexa

**B0D34VTD99, B0D34WN3JG**

### Set up your smart light bulb

1. Download the latest Alexa app and log in.
2. Screw the light bulb into a socket and turn on the power. The bulb will flash twice softly, indicating it is ready for setup. If your device automatically connects to Alexa with Frustration-Free technology, skip step 3.
3. Open the Alexa app and tap the More icon to add a device. Scan the 2D barcode on the back of this quick start guide when prompted by the app.

\*Refer to the user manual for alternate setup methods.

\*DO NOT scan the barcode on the packaging box.

### Alexa app cannot find or connect to your smart LED bulb

1. Make sure that you have the latest version of the Alexa app.
2. Make sure that your paired device and bulb are connected to the same 2.4GHz Wi-Fi network and are within 150 ft. (50 m) of each other.
3. Turn off power to the light, then turn it back on.
4. If the Alexa app still cannot find or connect, then factory reset your bulb. You can find the factory reset instructions along with more FAQs in the User Manual included in the box or visit [www.amazon.com/dp/B0D34VTD99](http://www.amazon.com/dp/B0D34VTD99) and find the Product Description to access the online User Manual for more FAQs and troubleshooting instructions.

### Scan the 2D barcode for device setup.

Refer to the FAQ in the user manual for questions. Keep this 2D barcode for future setup.
