Contents

Set up your smart light bulb

1. Download latest Alexa app and log in.
2. Screw light bulb into socket and turn on the power. The bulb will flash twice softly, indicating it is ready for setup.
3. Open Alexa app and tap the More icon to add a device. Scan the barcode on back of this quick start guide when prompted by app.

*Refer to user manual for alternate setup methods.
*DO NOT scan the barcode on the packaging box.

Scan the barcode for device setup.
Refer to the FAQ in user manual for questions.

Keep this barcode for future setup.
