amazon basics ABIM11 Mini Ultralight Wired Gaming Mouse

## PRODUCT INFORMATION

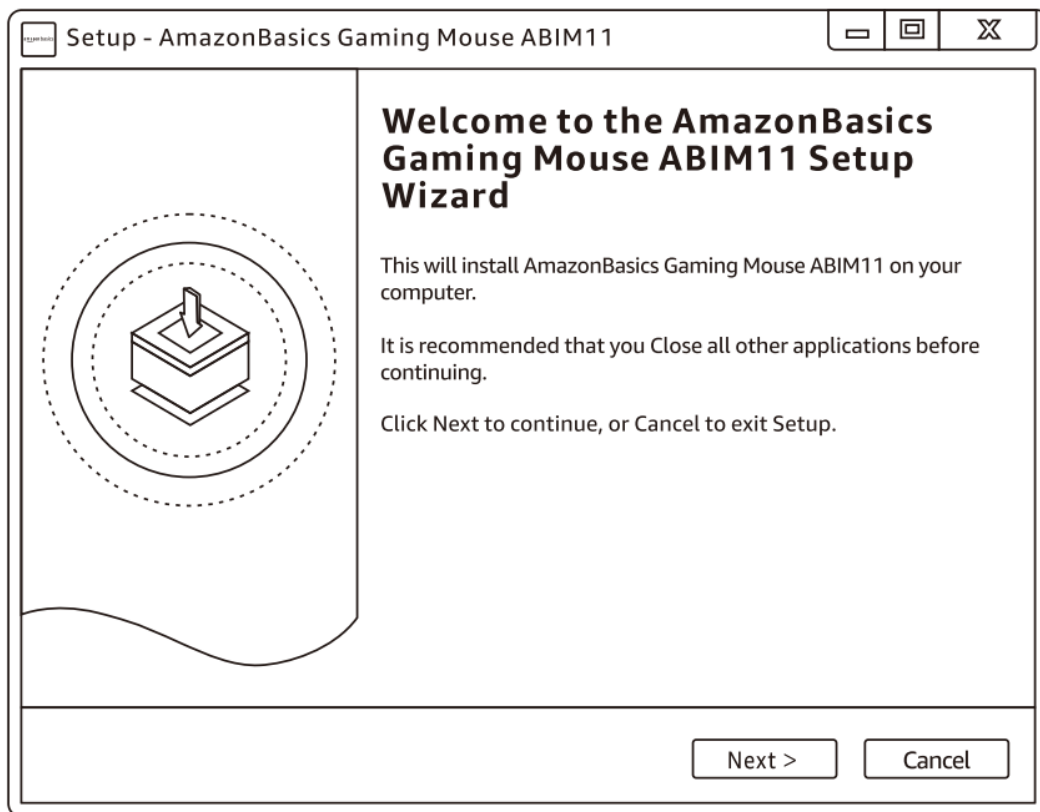

- **MODEL NO.:** ABIM11
- **MODEL NAME:** Amazon Basics ABIM11

Thank you for purchasing the Amazon Basics ABIM11 Wired Mouse. In order for you to use this product safely & correctly, please read this installation guideline carefully.

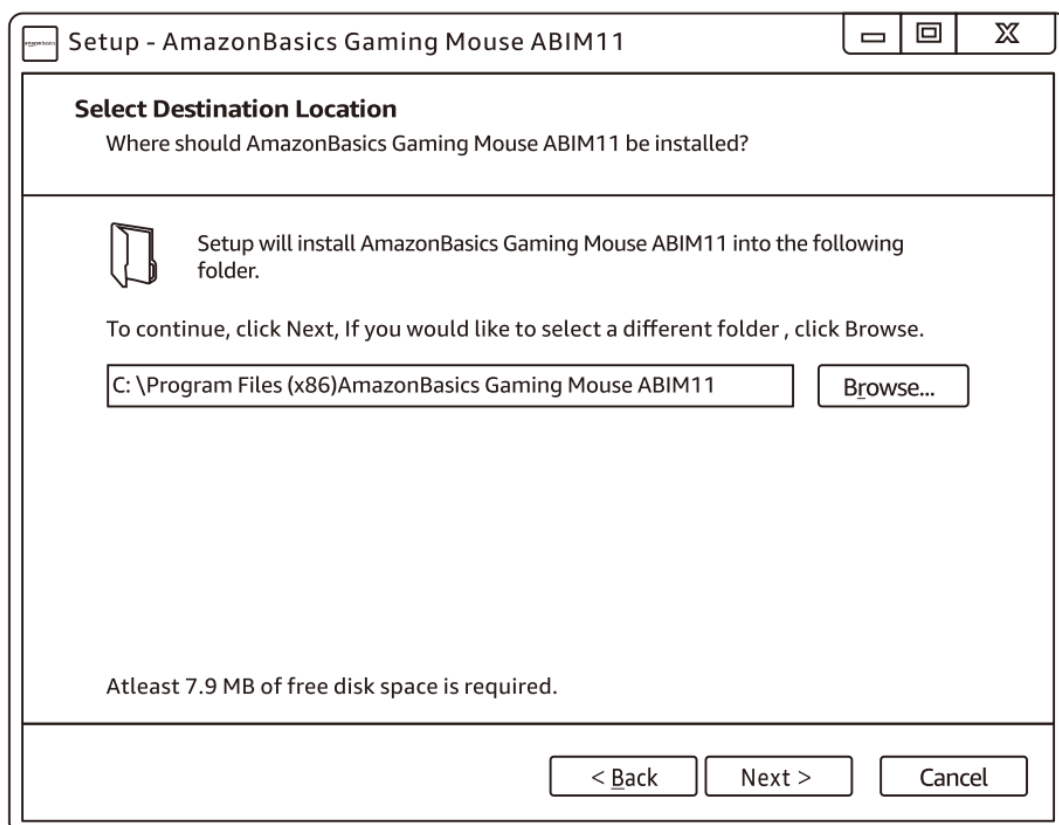

## Installation Instruction

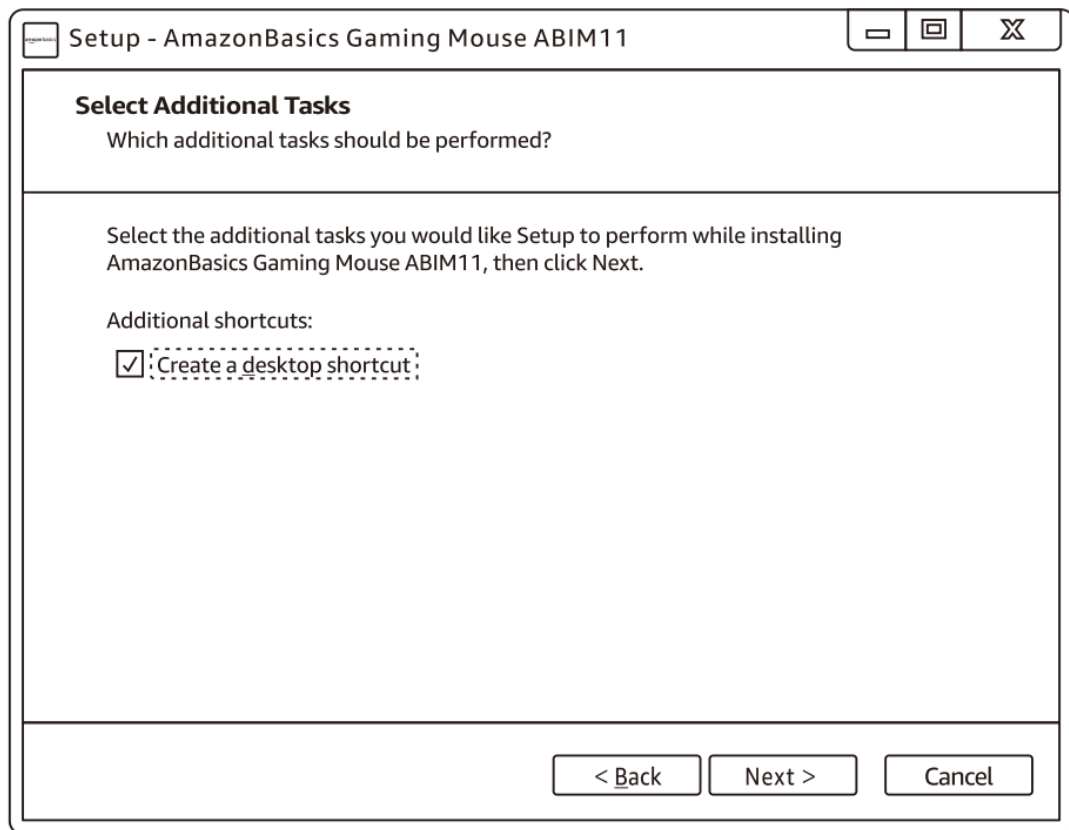

1. Plug the mouse on your computer.
2. Double-click the software or download it, and it will pop up this interface. Just click the "Next" button.

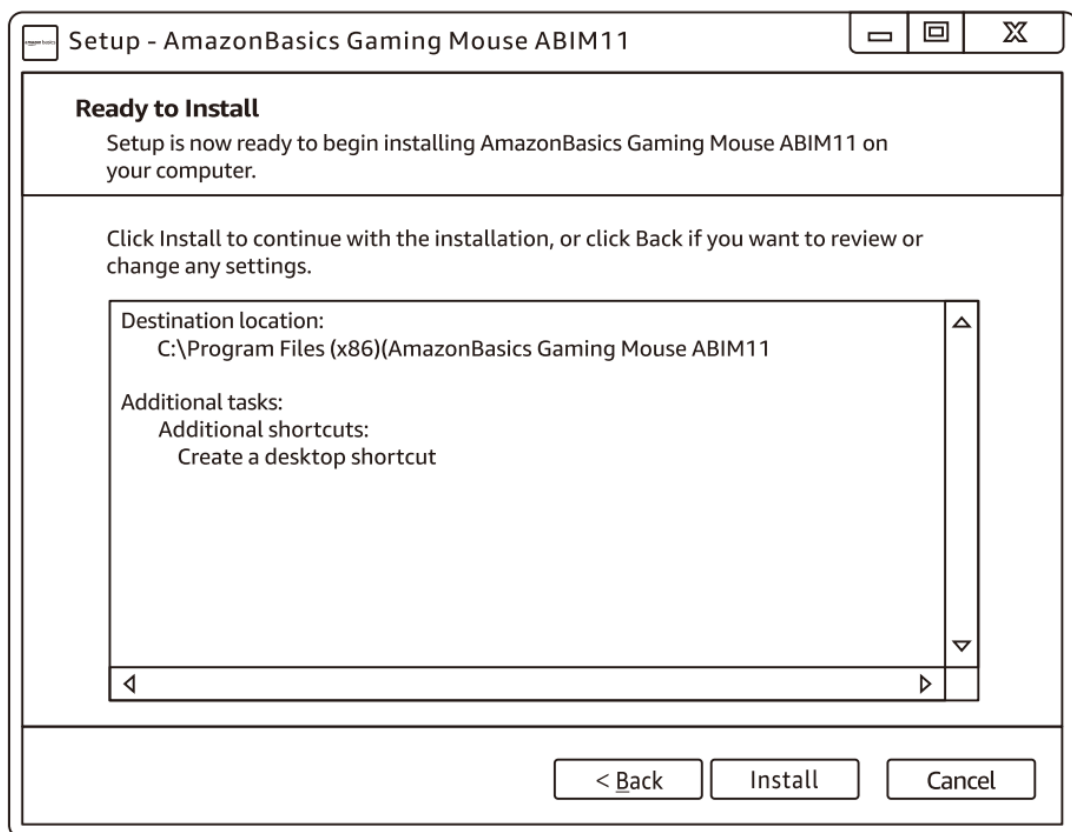

3. Select destination location, default on "C:\Program Files (x86)\AmazonBasics Gaming Mouse ABIM11". If you would like to select a different folder, please click Browse. And then click the "Next" button.

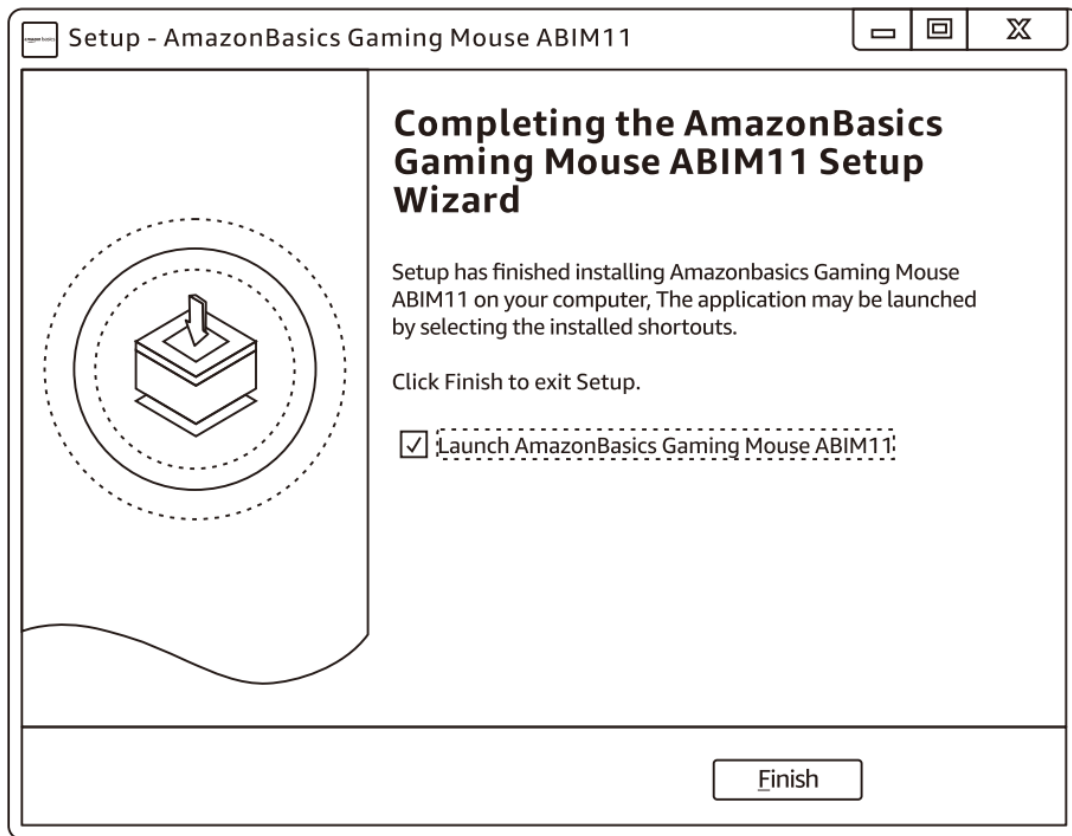

4. Select additional tasks, you can choose to create a desktop shortcut. And then click the "Next" button.

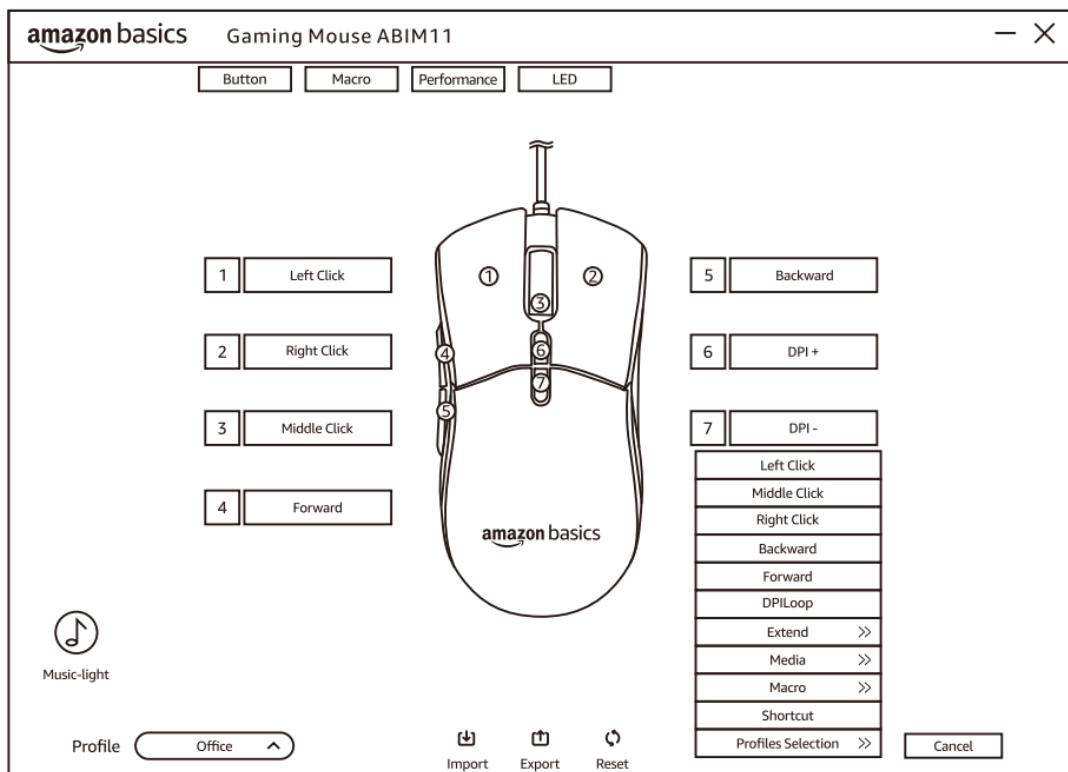

5. Click the "Install" button to finish the software setup.

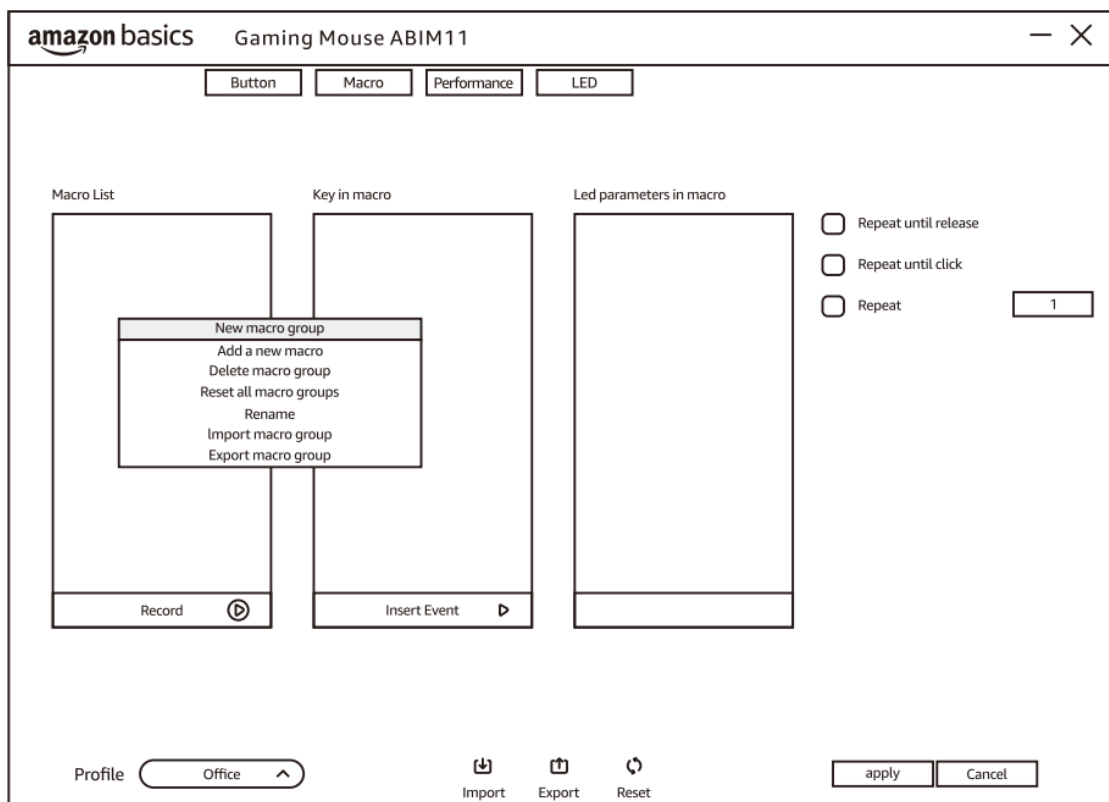

## PRODUCT USAGE INSTRUCTIONS

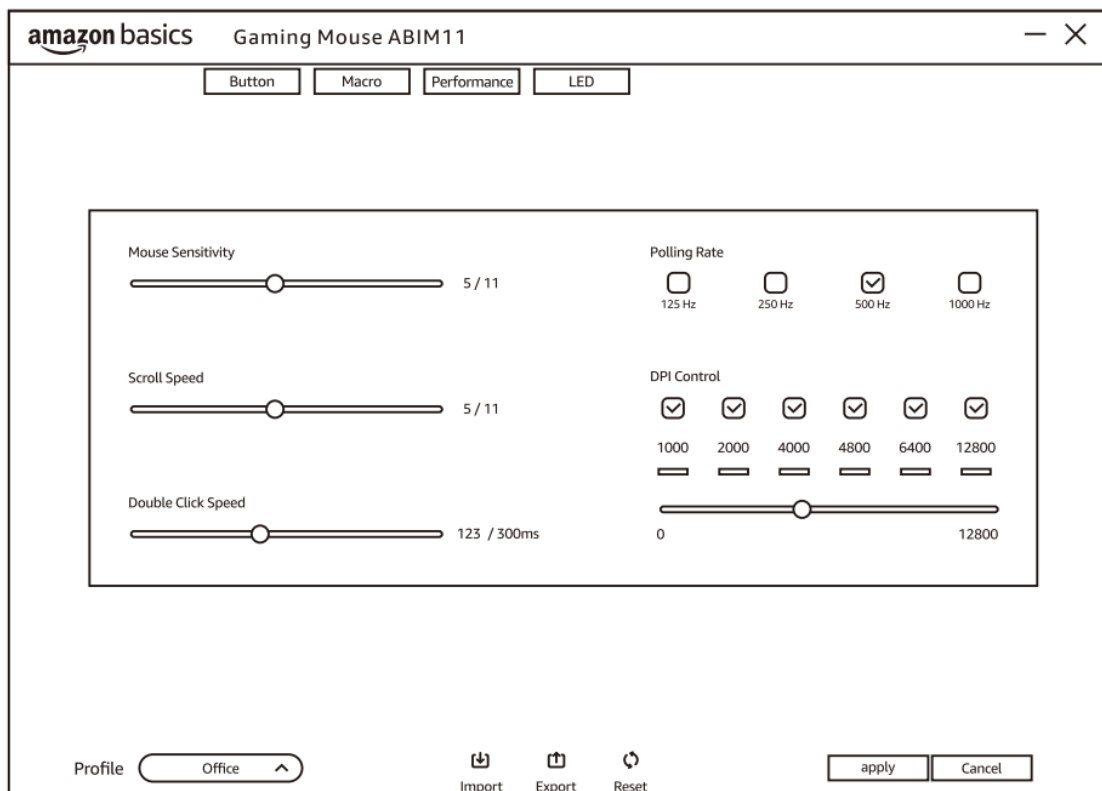

### Software Details

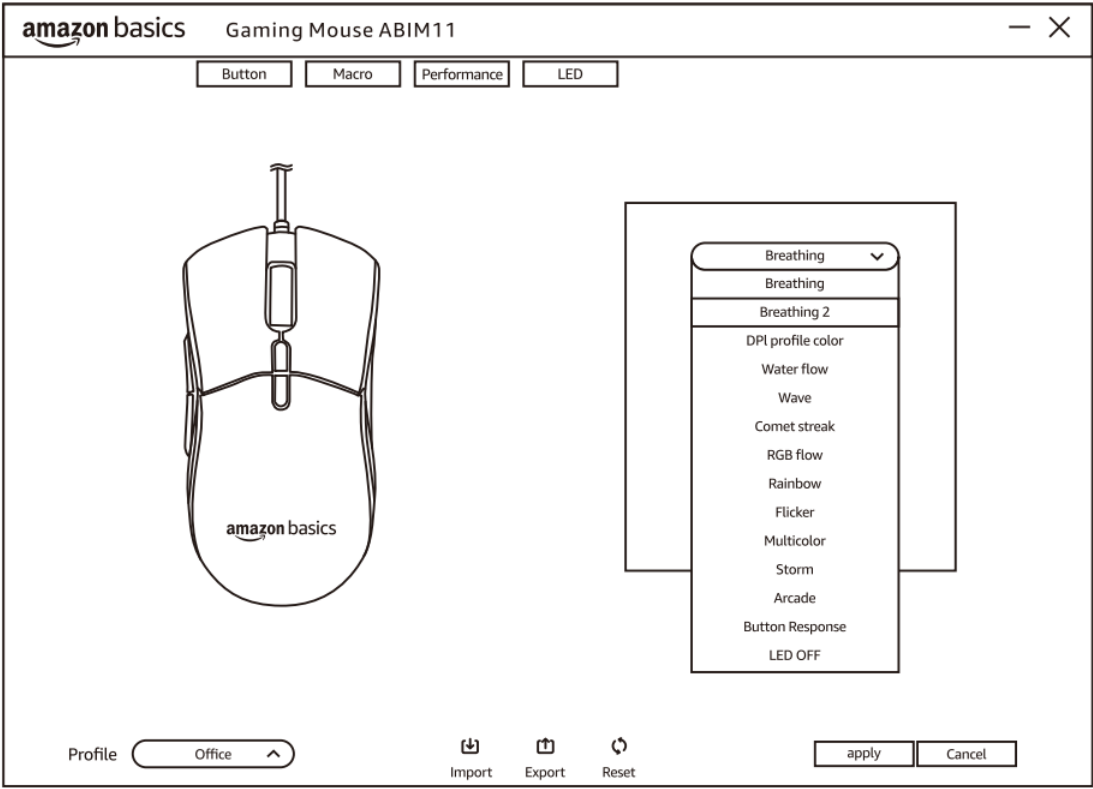

- In the “Button” page, use the left key to set all function keys as per your need, but please ensure at least one place is reserved for the left click function.

- In the “Macro” page, click the “right” key to edit the macro list. But please add “New macro group” and then could put the “New macro”. Click the “Record” keys to edit all keys that you want to set or click the ” Insert Event” keys to select the option to fill the key list. After creating the macro, left click on it to set repeat times and other operations.

- In the “Performance” page, left-click to set “Mouse Sensitivity”, “Scroll Speed”, and “Double Click Speed” as per your need.

- In the “LED” page, left-click to select LED effects as per your favorite. Some lighting effects can be customized colors among the options provided.

**Warm Reminder**

When you set or reset any function, please remember to click the “Apply” key to begin the new function.
