5. Operating Instructions

The MERACH Deep Squat Machine is designed to support various exercises and fitness levels. Adjust the machine to suit your body and workout needs.

5.1 Adjustments

The machine offers multiple adjustment points for a customized fit and workout intensity:

- **Resistance Levels:** 4 levels of resistance are available to increase or decrease workout intensity.
- **Height Settings:** 2 height settings (2.16"/Levels) allow for proper alignment.
- **Length Adjustments:** 3 length adjustments (0.92"/Levels) ensure a comfortable and effective range of motion.

Each adjustment is bolted in place for stability and safety. Correct height is achieved when the roller sits just behind your knees.
