**Amazon Basics FG-03441 A19 LED Light Bulbs**

**Launch Date:** November 15, 2018

**Price:** \$15.19

## Introduction

Amazon Basics FG-03441 A19 LED Light Bulbs are the best of all worlds when it comes to saving energy, lasting a long time, and using cutting-edge lighting technology. These LED lights are meant to replace 60W incandescent bulbs, but they only use 9W of power, which makes them much cheaper to use. With an 800-lumen light and a 2700K soft white color temperature, they make any room feel warm and welcoming. With a lifespan of up to 10,000 hours, these bulbs will last longer and need to be replaced less often. The dimmable feature also lets you change how bright the lights are. With their standard E26 base, these bulbs are easy to put in and give off quick, flicker-free light. They are made from eco-friendly materials and don't give off any mercury or other dangerous chemicals. This makes them a safe and long-lasting choice for use inside or outside. The Amazon Basics FG-03441 bulbs work reliably in any home or office and are great for chandeliers, ceiling fans, or general lighting.

## Specifications

- **Bulb Base:** E26 Medium
- **Color Temperature:** 2700 Kelvin (Soft White)
- **Brightness:** 800 Lumens
- **Material:** Plastic
- **Voltage:** 120V
- **Power Source:** AC
- **Average Life:** 10,000 Hours
- **Warranty:** 1-Year Limited
- **Color Rendering Index (CRI):** 80
- **Dimensions:** 2.37" W x 4.13" H
- **Weight:** 1.09 ounces

## Package Includes

- 6 Amazon Basics FG-03441 A19 LED Light Bulbs
- User manual with installation and safety instructions

## Features

### 1. How to Save Energy

Although they only use 9W of power, the Amazon Basics FG-03441 A19 LED Light Bulbs are as bright as a regular 60W light bulb. Because they are more efficient, you can save up to 85% on your power bills, which is about \$55.87 in energy costs over the life of the bulb compared to incandescent bulbs.

### 2. For a long time

These LED lights are made to last, and they can last up to 15,000 hours, so you won't have to change them as often. For people who use it every day for three hours, this means more than nine years of reliable service, making sure they have light for years to come.

### 3. Brightness All the Time

With 800 lumens of light, the lights give off bright, clear, and even light, making sure that every part of the room is dark. These bulbs make rooms feel cozy and bright, whether they're used in living rooms, offices, or kitchens.

### 4. Right away

These LED lights don't need to warm up before they can be used; they are fully bright as soon as they are turned on. The lighting that doesn't flash makes your daily life easier and more reliable.

### 5. Different Color Choices

These bulbs come in different color temperatures—2700K (Soft White), 4000K (Cool White), and 5000K (Daylight)—so they can meet a range of lighting needs, from making a room feel cozy to providing the right amount of brightness for a specific job.

	<b>Lumens:</b>	800
	<b>Kelvin:</b>	2700
	<b>Lifespan:</b>	10,000 hours
	<b>Dimmable:</b>	Yes
	<b>Energy use:</b>	\$1.08 per year

**Soft White**

**60 watts**

#### 6. **Strong Construction**

The bulbs are made of strong materials like high-quality plastic and metal, which makes them last longer and be less likely to break. This makes sure that the lighting works well even in tough conditions.

#### 7. **Making it safe**

While giving you peace of mind, these bulbs are good for the environment because they don't contain mercury and don't give off any dangerous UV or IR rays.

#### 8. **Features That Can Be Dimmed**

The adjustable form of these bulbs lets users change the amount of light they get to suit their emotions, chores, or surroundings. These bulbs make it easy to get the light you need, whether it's bright for work or soft for relaxing.

#### 9. **Simple to Set Up**

The E26 standard base works with most lights without any problems, so you don't need any extra adapters to connect it. Just screw the bulb into place, and you'll have lighting that uses less energy right away.

#### 10. **Sunlight and Bright Light**

The 5000K color temperature option creates lighting that looks like natural light, making the room feel bright and lively while improving sight and drawing attention to details. It works great in restaurants, offices, and other places where clear lighting is important.

### **Usage**

1. Ensure the power switch is turned off before installation.
2. Remove the existing bulb from the socket.
3. Screw the Amazon Basics FG-03441 A19 LED Light Bulb into the socket until securely fitted.
4. Turn on the power to enjoy energy-efficient lighting.

5. Choose the appropriate color temperature bulb based on the room’s lighting needs.

Care and Maintenance

- Clean the bulb using a soft, dry cloth; avoid using water or abrasive cleaners.
- Do not expose the bulb to moisture or extreme temperatures.
- Ensure the bulb is used only in compatible fixtures with appropriate voltage.
- Turn off the power supply before replacing or adjusting the bulb.
- Store unused bulbs in a cool, dry place away from direct sunlight.

Troubleshooting

Bulb Does Not Light Up:

- Check if the bulb is securely screwed into the socket.
- Ensure the fixture is powered and functional.
- Verify compatibility with the socket voltage (120V).

Flickering or Dim Lighting:

- Ensure the bulb is not connected to a dimmer switch, as the FG-03441 is non-dimmable.
- Confirm the power supply is stable and within the recommended voltage range.

Short Lifespan:

- Avoid using the bulb in enclosed fixtures that trap heat, which may reduce lifespan.
- Ensure proper handling during installation to prevent internal damage.

Uneven Illumination:

- Inspect the bulb for visible damage.
- Replace the bulb if any internal components appear faulty.

Pros and Cons

Pros	Cons
Energy-efficient and cost-effective	May flicker if used with incompatible dimmers
Long lifespan reduces replacement frequency	Not suitable for outdoor use
Dimmable feature enhances ambiance	Limited color options (only soft white)

Warranty

The Amazon Basics A19 LED Light Bulbs come with a one-year limited warranty. Extended warranty options may be available for purchase separately.
