- **Item Model Number** JTG3-17cm

## Description

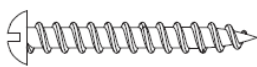

The JTG3-17cm Wall-Mounted Vanity Mirror by Amazon Basics is a chic and useful mirror made to improve your everyday grooming and beauty routines. This wall-mounted mirror brings a sense of elegance to any bathroom or dressing area with its sleek and modern design. A crisp and distortion-free reflection of your face and upper torso is given by the 17cm-diameter mirror. To ensure endurance and durability, high-quality materials were used in its construction. The frame is made of high-quality stainless steel, which provides a sleek and contemporary design while also being rust and corrosion-resistant. The adjustable design of the Amazon Basics JTG3-17cm Wall-Mounted Vanity Mirror is one of its most notable characteristics.

You can find the ideal angle and location for your grooming needs thanks to its 360-degree rotation and swivel. This mirror offers the best visibility and convenience whether you're shaving, doing your makeup, or styling your hair. With the provided mounting hardware, assembly is simple. The mirror is simply fastened to the wall, freeing up space on the countertop and preventing clutter. It is perfect for smaller bathrooms or walls with limited space due to its compact size and narrow contour. The design of the mirror also features an extensible arm that you can use to move the mirror in either direction as desired. By accommodating users of various heights and preferences, this feature guarantees flexibility and versatility.

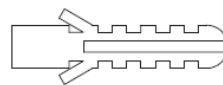

## What's In The Box

**A** x1

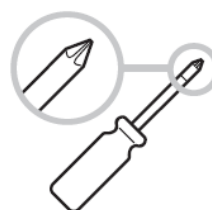

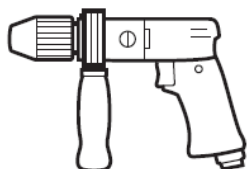

**B** x2

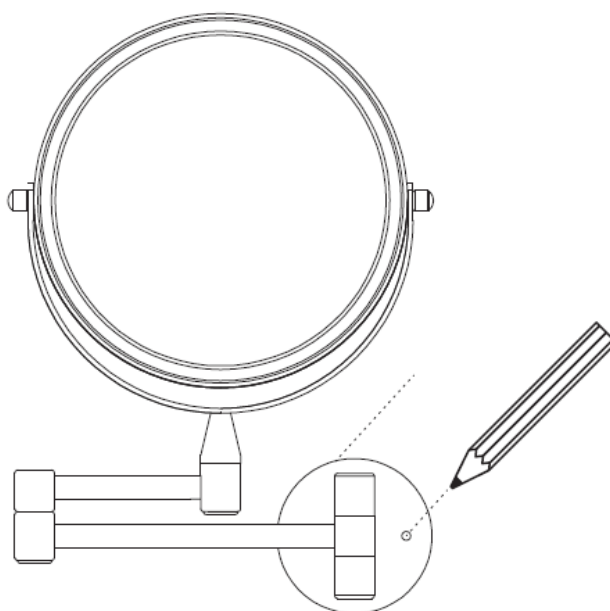

**C** x2

## You'll need

Ø 15/64"  
Ø 6 mm

## How To Install

- **Step 1:** First, take the measurement
- **Step 2:** Drill a hole in the wall with the help of a drill machine and fix the screw in the wall with the help of a plastic screw holder.
- **Step 3:** Now mount the mirror on the wall.

## Warning

- This product should be installed by a qualified professional.
- The product must be fixed to a wooden or masonry/concrete wall using fasteners that are appropriate for the mounting surface. Do not install on drywalls, wall boards or thin plywood. The mounting surface must be capable of supporting the weight of the product.
- Do not drill into any pipes or power lines beneath the surface during mounting hole preparation. Use voltage/metal detector.
- Do not hang anything on the product.

## Caution

Risk of injury! This product consists of glass. Handle with care.

## Precautions

1. Read and carefully go by the installation instructions provided with the mirror by the manufacturer. You can follow this to ensure the correct installation.
2. Make sure the wall surface on which you intend to attach the mirror is strong, steady, and capable of bearing the mirror's weight. Do not mount on flimsy or uneven surfaces.
3. Use the suggested tools and hardware that came with the mirror to install the mirror. This could involve brackets, screws, or anchors. An unsecured installation could be the result of using the wrong tools or hardware.
4. To improve stability and strength, mount the mirror to wall studs whenever possible. Use suitable wall anchors made to support the weight of the mirror if the chosen position does not have studs.
5. Before drilling or installing, be sure there are no plumbing or electrical pipes behind the wall. If necessary, use a stud finder or seek professional advice.
6. When installing the mirror, make sure it is straight and level by using a level. This will contribute to a polished and appealing appearance.
7. Ensure that all screws and fasteners are properly tightened when mounting the mirror to the wall or adjusting the mirror arm. By doing this, the mirror won't gradually become loose or unsteady.
8. After installation, check the mirror on a regular basis to make sure it is still installed firmly. If necessary, tighten any slack hardware or screws.
9. When altering the mirror's angle or extending the arm, take care not to use too much force or pressure, as this could harm the mirror or jeopardize its stability.
10. To keep the mirror and frame in top shape, regularly clean them in accordance with the manufacturer's instructions. Avoid using harsh chemicals or abrasive cleansers that could scratch the mirror's surface.
