LED Indicator
Mute Key
Mini-USB Port
Stem
Tripod
USB Cable

Safety and Compliance

Please read these instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions manual must be included.

- The product is not a toy. Keep it out of the reach of children and pets.
- For indoor use only.
- Do not attempt to repair the appliance yourself. In case of malfunction, repairs are to be conducted by qualified personnel only.
- Lay out the cable in such a way that no unintentional pulling or tripping over it is possible.
- The product is suitable for moderate climates only.
- Naked flame sources, such as candles, must not be placed near the product.
- Unplug the product while it is not in use.
- Make sure not to squeeze, bend or in any way damage the cable.
- The maximum ambient temperature during use of the product must not exceed 95°F (35°C).

WARNING During cleaning or operation do not immerse the electrical parts of the product in water or other liquids. Never hold the product under running water.

Before First Use

- Carefully remove all packaging materials and retain for future use.
- Check for transport damages.

WARNING Risk of suffocation! Keep any packaging materials away from children – these materials are a potential source of danger, e.g. suffocation.

Setup

- Rotate the stem of the microphone clockwise onto the tripod.

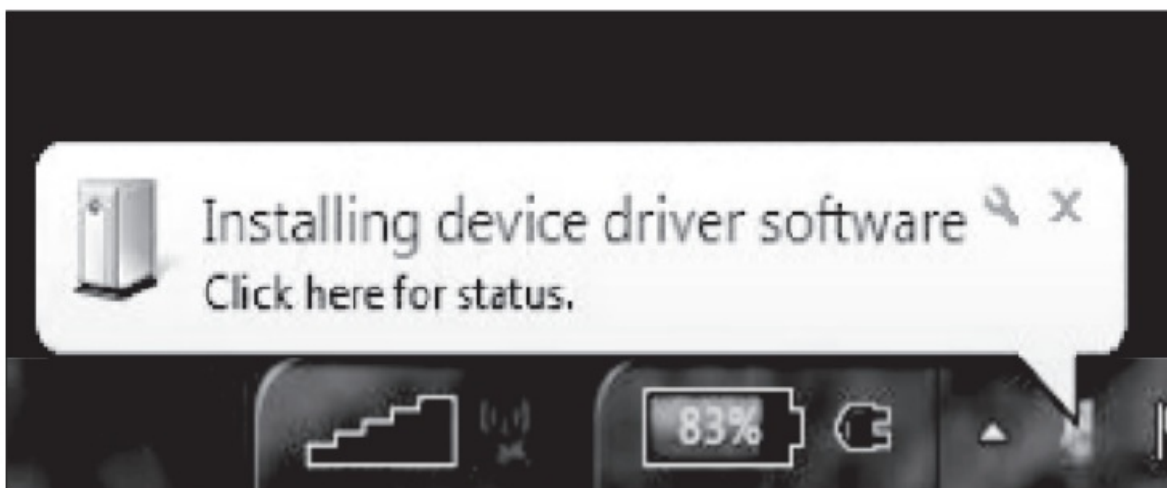

- Connect the Mini-USB plug of the cable to the microphone and the USB-A plug to your computer.

Configuration on Windows®

NOTICE This product is a Plug-and-Play device and does not require any driver installation.

- A pop-up notification will appear to signal that your computer is installing the drivers for the microphone.

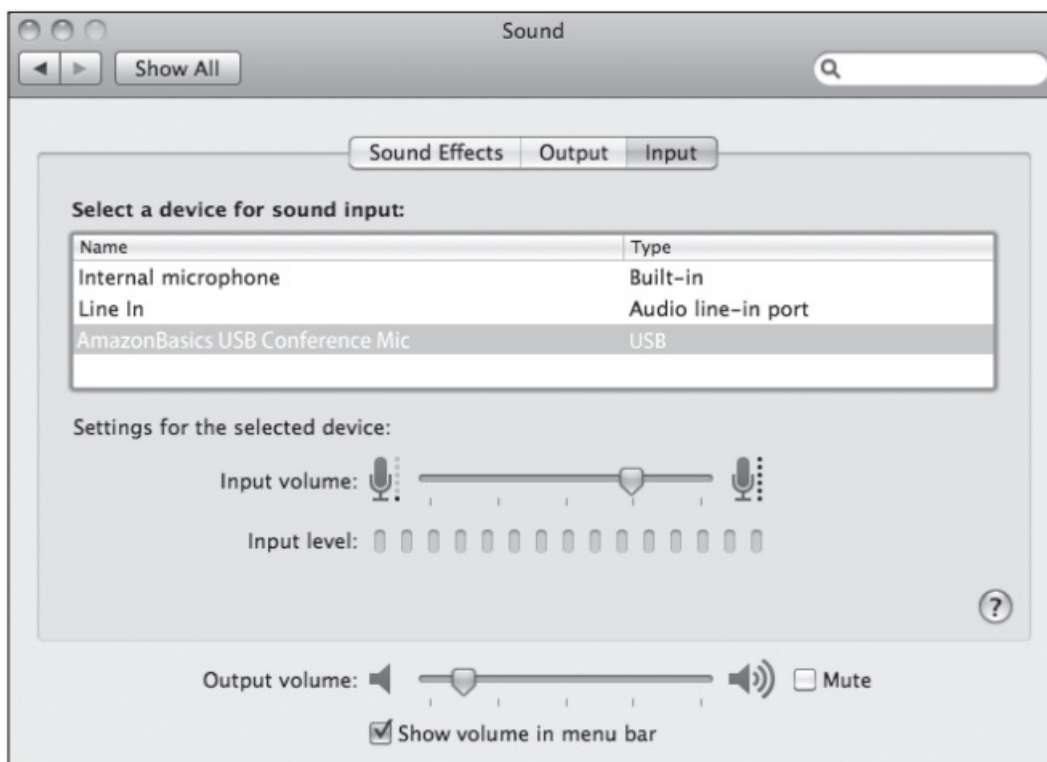

- Go to Control Panel > Hardware and sound > Sound > Recording and verify whether a green tick appears Amazon Basics Desktop Mini Mic.
- Should the green tick not appear, select Microphone, and then click Apply.

Configuration on Mac OS®

NOTICE This product is a Plug-and-Play device and does not require any driver installation.

- Go to System Preferences > Sound > Input and select Amazon Basics Desktop Mini Mic.

Angle Adjustment

- The head of the microphone can be tilted approximately 90° in both directions (forward/ backward).

Operation

Mute Key  and LED indicator

- Press the  key to stop audio recording.
- The Mute LED Indicator lights up red when the microphone is muted and blue when it is active.

Tips

- Place the microphone as close as practical to the desired sound source.
- Work close to the microphone for extra bass response.
- Place microphones as far as possible from reflective surfaces.
- Do not cover any part of the microphone grille with your hand, as this will adversely affect microphone performance.

Cleaning and Maintenance

- Disconnect the product from power source before cleaning.
- During cleaning do not immerse the product in water or other liquids. Never hold the product under running water.
- Clean the product with a dry lint-free cloth. Do not allow any water or other liquids enter the product's interior.
- Do not use abrasives, harsh cleaning solutions or hard brushes for cleaning.

Storage

- Store in a cool and dry conditions away from children and pets, ideally in original packaging.
- Avoid any vibrations and shocks.

Specifications

FCC Compliance Statement

1. This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
 - (1) this device may not cause harmful interference, and
 - (2) this device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio / TV technician for help.

Canada IC Notice

- This Class B digital apparatus complies with Canadian CAN ICES-3(8) / NMB-3(8) standard.

Disposal :

■ The Waste Electrical and Electronic Equipment (WEEE) Directive aims to minimise the impact of electrical and electronic goods on the environment, by increasing re-use and recycling and by reducing the amount of WEEE going to landfill. The symbol on this product or its packaging signifies that this product must be disposed separately from ordinary household wastes at its end of life. Be aware that this is your responsibility to dispose of electronic equipment at recycling centers in order to conserve natural resources. Each country should have its collection centers for electrical and electronic equipment recycling. For information about your recycling drop off area, please contact your related electrical and electronic equipment waste management authority, your local city office, or your household waste disposal service.
