2. Safety Information

Your child's safety is paramount. This product meets ASTM and CPSIA certifications. Always ensure adult supervision during operation.

2.1 General Safety Guidelines

- Always wear a helmet and appropriate safety gear.
- Do not operate near stairs, hills, roads, or swimming pools.
- Ensure the child is within the recommended age range (3-6 years) and weight limit (up to 66 lbs).
- Only use on flat, dry surfaces.
- Regularly inspect the motorcycle for damage or loose parts.

3. Package Contents

Verify all components are present before assembly:

- Ride On Motorcycle body
- Front Wheel
- Handlebars
- Windshield
- Rear Spoiler
- Mirrors (2)
- Training Wheels (2)
- Charger
- Hardware pack (screws, washers, nuts)
- Instruction Manual

Image 2: All components included in the package.

4. Setup and Assembly

Follow these steps for proper assembly:

4.1 Battery Connection

1. Carefully turn the motorcycle upside down.
2. Locate the battery compartment cover, usually under the seat or footrest.
3. Remove the cover and connect the red battery terminal to the red wire, and the black battery terminal to the black wire.
4. Secure the battery compartment cover.

Image 3: Connecting the battery wires.

4.2 Training Wheels Installation

1. Attach the training wheel support bar to the designated slots at the rear of the motorcycle.
2. Secure with the provided screws.
3. Slide the training wheels onto the axles and secure them with washers and nuts.

Image 4: Training wheels provide stability.

4.3 Handlebar and Windshield Assembly

1. Insert the handlebars into the steering column until they click into place.
2. Connect the headlight wiring harness to the corresponding port on the motorcycle body.
3. Attach the windshield to the front of the handlebars using the provided screws.

Image 5: Handlebar controls and headlight.

4.4 Mirror and Rear Spoiler Installation

1. Insert the mirrors into the designated slots on the handlebars.
2. Attach the rear spoiler to the back of the seat using the provided screws.

6. Charging the Battery

The motorcycle is powered by a 6V 4.5AH rechargeable battery. A full charge provides approximately 30-40 minutes of continuous use.

1. Locate the charging port, typically near the rear wheel.
2. Plug the charger into the charging port, then into a standard wall outlet.
3. The charging indicator light on the charger will show charging status (refer to charger manual for specifics).
4. Charge for 8-12 hours for the first charge, and 8-10 hours for subsequent charges. Do not overcharge.

Image 8: Charging port location.

7. Maintenance

- Keep the motorcycle clean by wiping with a damp cloth.
- Store in a dry, cool place away from direct sunlight.
- Check all screws and fasteners regularly and tighten if necessary.
- Inspect the battery and wiring for any signs of damage.

8. Troubleshooting

Problem	Possible Cause	Solution
Motorcycle does not move.	Battery not connected or low charge.	Check battery connections; charge battery fully.
Motorcycle moves slowly.	Low battery charge; overloaded.	Recharge battery; ensure weight limit (66 lbs) is not exceeded.
Lights or music not working.	Loose wiring; battery issue.	Check all electrical connections; ensure battery is charged.

9. Specifications

- **Model:** PTG_337LXUK7
- **Battery:** 6V 4.5AH
- **Speed:** Up to 2 mph
- **Run Time:** 30-40 minutes (continuous)
- **Charge Time:** 8-12 hours (first charge), 8-10 hours (subsequent)
- **Dimensions (L x W x H):** 30.31" x 14.96" x 19.69"
- **Weight Capacity:** 66 lbs
