Hoggar by Okoru G01CR0013

Hoggar Resin Garden Shed 6.41m2 Oak O60 - Instruction Manual

Model: G01CR0013

For detailed guidance on your Hoggar garden shed.

Introduction

Thank you for choosing the Hoggar Resin Garden Shed 6.41m2 Oak O60. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new garden shed. Please read these instructions carefully before beginning assembly and keep them for future reference.

This shed is designed to offer a spacious and durable storage solution for your garden tools and equipment. It features a premium wood-look finish, a sturdy floor, a side window for natural light, wide double doors, UV protection, and waterproof construction.

Safety Information

- Always wear appropriate safety gear, including gloves and eye protection, during assembly.
- Ensure the assembly area is clear of obstructions and children.
- Do not attempt to assemble the shed in strong winds or adverse weather conditions.
- Follow all assembly steps in the order provided in the separate assembly guide.
- Secure the shed to the ground according to local building codes and recommendations to prevent wind damage.
- Keep all small parts out of reach of children.

Package Contents

Before starting assembly, verify that all parts listed in the separate assembly guide are present and undamaged. If any parts are missing or damaged, contact customer support immediately.

Setup and Assembly

Assembly of the Hoggar Resin Garden Shed requires careful attention to detail. Refer to the dedicated assembly manual included with your product for step-by-step instructions and diagrams. The following provides a general overview:

1. **Site Preparation:** Choose a level, stable surface for your shed. A concrete slab or a well-compacted gravel base is recommended. Ensure adequate drainage around the site.
2. **Base Assembly:** Assemble the shed's base frame and lay the included resistant floor. The floor provides stability and protects contents from moisture.
3. **Wall Panel Installation:** Attach the double-layer polypropylene wall panels. These panels are 16mm thick, waterproof, and UV-resistant. Ensure panels are securely interlocked or fastened as per the assembly guide.
4. **Door and Window Installation:** Install the wide double doors (120 x 170 cm) and the polycarbonate skylight window. Ensure doors operate smoothly and the latch mechanism is correctly installed.
5. **Roof Assembly:** Construct and attach the roof structure. Ensure all roof panels are properly sealed to prevent water ingress.
6. **Ventilation:** Confirm that the integrated vents are clear and functional to prevent condensation.

7. **Securing the Shed:** Anchor the shed to the prepared base using appropriate fasteners (not always included, check assembly guide).

Note: Assembly may require two people.

Image: Technical diagram showing the external dimensions of the Hoggar shed: 285 cm (depth), 225 cm (width), 244 cm (height). Door dimensions are 120 cm (width) x 172 cm (height). Window dimensions are 49.5 cm (height) x 34.5 cm (width).

Operating Instructions

- **Opening/Closing Doors:** The shed features wide double doors for easy access. Use the handles to open and close the doors. Ensure they are fully closed to protect contents from weather and pests.
- **Securing Contents:** The shed includes a bolt latch for security. For enhanced security, a padlock (not included) can be added to the latch.
- **Ventilation:** The integrated vents are designed to promote air circulation and reduce condensation. Ensure they are not blocked by stored items.
- **Storage Capacity:** Utilize the generous 6.41m2 interior space for organizing garden tools, machinery, and other outdoor items. The sturdy floor can support significant weight.

Maintenance

The Hoggar Resin Garden Shed is designed for low maintenance, thanks to its high-quality, durable materials. Follow these guidelines to ensure its longevity:

- **Cleaning:** Clean the shed periodically with mild soap and water. Avoid abrasive cleaners or harsh chemicals, which can damage the resin panels. Rinse thoroughly with clean water.
- **Ventilation:** Regularly check that the vents are clear of debris (leaves, dust, spiderwebs) to maintain proper airflow and prevent condensation buildup.
- **Door and Latch:** Lubricate door hinges and the latch mechanism annually with a silicone-based lubricant to ensure smooth operation.
- **Structural Integrity:** Periodically inspect all fasteners and connections to ensure they remain tight. Re-tighten if necessary. Check the base for any signs of shifting or damage.
- **UV Resistance:** The panels are UV-resistant, meaning the color will not fade easily. No special UV protection

treatments are required.

Troubleshooting

Problem	Possible Cause	Solution
Condensation inside the shed	Blocked vents, high humidity, insufficient airflow.	Ensure vents are clear. Avoid storing wet items. Consider adding a dehumidifier in very humid climates.
Doors are difficult to open/close	Misalignment during assembly, hinges need lubrication, obstruction.	Check for obstructions. Lubricate hinges. Verify the shed is level and square; adjust if necessary.

Problem	Possible Cause	Solution
Water leakage	Improper roof assembly, damaged panels, inadequate sealing.	Inspect roof and wall panels for damage or gaps. Ensure all seals are intact. Re-check assembly steps for roof and panel installation.
Shed feels unstable	Improper anchoring, uneven base.	Ensure the shed is securely anchored to a level and stable foundation. Re-check all connections.

Specifications

- **Model Number:** G01CR0013
- **Brand:** Hoggar by Okoru
- **Product Dimensions (External):** 285 cm (Depth) x 225 cm (Width) x 244 cm (Height)
- **Product Dimensions (Internal):** Approximately 266 cm (Depth) x 206 cm (Width) x 239 cm (Height)
- **Storage Area:** 6.41 m²
- **Weight:** 123 kg
- **Material:** Double-layer Polypropylene (PP), Resin
- **Color:** Wood Brown (Oak O60)
- **Door Dimensions:** 120 cm (Width) x 170 cm (Height) (double hinged doors)
- **Window:** Side polycarbonate skylight window (approx. 49.5 cm x 34.5 cm)
- **Features:** UV protection, Waterproof, Integrated floor, Ventilation grilles, Bolt latch closure.
