IMPORTANT SAFETY INSTRUCTIONS

Read these instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions must be included.

WARNING

When using electrical products, basic precautions should always be followed, including the following: Read all the instructions before using the product. Do not use this product near water – for example, near a bathtub, washbowl, kitchen sink, in a wet basement, or near a swimming pool, or the like. This product, either alone or in combination with an amplifier and headphones or speakers, may be capable of producing sound levels that could cause permanent hearing loss. Do not operate for a long period at a high volume level or an uncomfortable level. If you experience any hearing loss or ringing in the ears, you should consult an audiologist.

- Do not use any heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
- The product should be connected to a power supply (not provided) only for the type described in the operating instructions and as marked on the product (output voltage of 9V === 300 mA).
- Care should be taken so that objects do not fall and liquids are not spilled into the enclosure through openings.
- Radios and TVs placed nearby may experience reception interference. Operate this product at a suitable distance from radios and TVs.
- Only use attachments/accessories specified by the manufacturer.
- Refer all servicing to qualified service personnel. Servicing is required when the product has been damaged in any way, liquid has been spilled or objects have fallen into the product, the product has been exposed to rain or moisture, does not operate normally, or has been dropped.

Intended Use

- This product is intended for modifying the sound and volume of a guitar, electric, or bass.
- This product is intended for private use only. It is not intended for commercial use.
- This product is intended to be used in dry indoor areas only.

- No liability will be accepted for damages resulting from improper use or non-compliance with these instructions.

Product Description

Before First Use

- Check the product for transport damages.
- Remove all the packing materials.
- Check that the power supply voltage and current rating correspond with the power adapters (not provided).

DANGER

Risk of suffocation! Keep any packaging materials away from children – these materials are a potential source of danger, e.g. suffocation.

Connecting to the power supply

Adapter 9 V == (not provided)

1. Connect the adapter to the power socket.
2. Connect the adapter to a suitable outlet.

Switching on/off

1. Connect the product to the instrument and amplifier before switching it on.
2. Set the volume controls of the connected instrument/amplifier to the desired level.
3. Press the On/Off switch to switch the product on/off.
4. The indicator light switches on/off accordingly.
5. Set the knobs to the desired levels.

Adjusting sound

Knob	Adjustment by turning
SUSTAIN knob	Sets compression ratio to suppress loud notes.
ATTACK knob	Sets attack time of the compression effect.
LEVEL knob	Sets volume of the signal.

Cleaning and Storage

WARNING

Risk of electric shock! To prevent electric shock, unplug the product before cleaning.

WARNING

Risk of electric shock! During cleaning do not immerse the product in water or other liquids. Never hold the product under running water.

Cleaning

To clean the product, wipe with a soft, dry cloth. Never use corrosive detergents, wire brushes, abrasive scourers, metal, or sharp utensils to clean the product.

Storage

Store the product in its original packaging in a dry area. Keep away from children and pets.

Specifications

Power supply:	9 V  300 mA (power adapter, not provided)
Protection class:	Class III
Bypass:	True
