OUKITEL OUKITEL WP60

OUKITEL WP60 5G Rugged Smartphone User Manual

Your comprehensive guide to setting up, operating, maintaining, and troubleshooting your OUKITEL WP60 5G Rugged Smartphone.

Product Overview

The OUKITEL WP60 is a robust 5G rugged smartphone designed for durability and high performance. It features a large 7.2-inch 120Hz display, a powerful MediaTek Dimensity 7025 octa-core processor, and an impressive 36GB RAM with 512GB ROM, expandable up to 2TB. Equipped with a 10000mAh battery and 33W fast charging, it ensures extended usage. Its advanced camera system includes a 108MP main camera, 32MP front camera, 8MP night vision, and 2MP macro lens. Built to withstand harsh environments, it boasts IP68/IP69K and MIL-STD-810H certifications for water, dust, and shock resistance. The device also integrates a multi-function toolkit with GPS, NFC, and fingerprint recognition for enhanced utility.

What's in the Box

Upon unboxing your OUKITEL WP60, you will find the following items:

- 1X OUKITEL WP60 Rugged Smartphone
- 1X 33W Charger
- 1X Data Cable
- 1X Manual

Initial Setup

SIM Card & Storage Installation

1. Locate the SIM card tray on the side of your OUKITEL WP60.
2. Use the provided SIM ejector tool to open the tray.
3. Carefully place your Nano-SIM card(s) and/or TF card into the designated slots. Ensure proper orientation.
4. Gently push the tray back into the phone until it is flush with the device.

Powering On & Initial Configuration

1. Press and hold the Power button (usually on the right side) until the OUKITEL logo appears.
2. Follow the on-screen prompts to select your language, connect to Wi-Fi, and set up your Google account.
3. Configure security features such as facial recognition and side-mounted fingerprint recognition for quick and secure unlocking.

Operating Your OUKITEL WP60

Display and Navigation

The OUKITEL WP60 features a large 7.2-inch HD+ display with a 120Hz refresh rate, providing a smooth and immersive visual experience. Navigate through apps and content using intuitive touch gestures.

Camera Features

Capture every moment with the versatile camera system:

- **108MP Main Camera:** For sharp, detailed photos in various scenarios.
- **32MP Front Camera:** Ideal for high-quality selfies and video calls.
- **8MP Night Vision Camera:** Ensures clear images in complete darkness.
- **2MP Macro Lens:** For capturing intricate details of small objects.

Multi-Function Toolkit

The OUKITEL WP60 includes a range of useful tools:

- **GPS+GLONASS+BeiDou+Galileo:** For precise navigation.
- **NFC:** For contactless payments.
- **Side-mounted Fingerprint Recognition & Facial Recognition:** For secure unlocking.
- **Built-in Digital Toolkit:** Includes compass, gyroscope, FM radio, and battery gauge.

Care and Maintenance

Ruggedness and Protection

The OUKITEL WP60 is built to endure. It is certified with IP68/IP69K for dust and water resistance, and meets MIL-STD-810H military-grade shockproof standards. This means it can withstand immersion in water, dust ingress, and drops from certain heights. Always ensure all port covers are securely closed to maintain water and dust resistance.

General Cleaning

To clean your device, use a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the phone's exterior or protective coatings. For stubborn dirt, a mild soap solution can be used, followed by rinsing with clean water and thorough drying.

Battery Longevity

To maximize battery life, avoid extreme temperatures, use the original charger, and periodically discharge the battery completely before recharging. Close unused apps running in the background to conserve power.

Troubleshooting Common Issues

- **Device not powering on:** Ensure the battery is charged. Connect to the original charger and wait a few minutes before attempting to power on again. If unresponsive, try holding the power button for 10-15 seconds for a forced restart.
- **Network connectivity issues:** Check if your SIM card is correctly inserted. Verify that mobile data is enabled in settings. If issues persist, restart the phone or contact your carrier to confirm service status.
- **Slow performance:** Close unnecessary background applications. Clear cache from apps or perform a factory reset if the issue is severe (back up your data first).
- **Charging problems:** Use the original OUKITEL 33W charger and data cable. Check for debris in the charging port. Ensure the power outlet is functional.
- **Water/Dust ingress concerns:** If the device has been exposed to water or dust, ensure all port covers were securely closed. If you suspect ingress, power off the device immediately and seek professional service.

Technical Specifications

Feature	Specification
Model Name	OUKITEL WP60

Feature	Specification
Display	7.2 Inches, 1560 x 720 Resolution, 120Hz Refresh Rate
Operating System	Android 15
