Garvee 150

Garvee Folding Platform Cart (Model 150) User Manual

For safe and efficient operation

1. Introduction

Thank you for choosing the Garvee Folding Platform Cart. This manual provides essential information for the proper assembly, operation, and maintenance of your cart. Please read it thoroughly before use and retain it for future reference.

2. Safety Information

- Do not exceed the maximum load capacity of 150 kg (330 lbs).
- Ensure all casters are securely attached before use.
- Distribute the load evenly on the platform to maintain stability.
- Do not use the cart on uneven or excessively sloped surfaces.
- Keep hands and feet clear of moving parts, especially during folding and unfolding.
- Always push the cart; do not pull it, as this can impair control and stability.
- Store the cart in a dry, safe place when not in use.

3. Package Contents

Verify that all components are present upon unpacking:

- 1 x Garvee Folding Platform Cart (main body)
- 4 x Casters (2 swivel, 2 fixed)
- Instruction Manual

4. Setup and Assembly

The casters require self-assembly. Follow these steps to attach the casters:

1. Carefully turn the platform cart upside down.
2. Identify the mounting holes for each caster. The cart typically comes with designated spots for swivel and fixed casters.

3. Align each caster with its corresponding mounting holes.
4. Securely fasten each caster using the provided screws. Ensure they are tightened firmly to prevent wobbling during use. No nuts are required; the casters screw directly into the platform.

Figure 4.2: Caster Attachment Detail.

5. Operating Instructions

5.1 Unfolding the Cart

To prepare the cart for use, simply pull the handle upwards until it locks into its upright position. Ensure the handle is fully extended and stable before loading items.

5.2 Folding the Cart for Storage

The Garvee platform cart features an easy 3-step folding mechanism for compact storage:

1. Step on the bar located at the base of the handle.
2. Push the handle forward horizontally.
3. Fold the handle down completely and secure it firmly against the platform.

Figure 5.1: Folding Steps for Compact Storage.

5.3 Loading and Transporting Items

- Place items centrally on the non-slip platform to prevent shifting during transport.
- Ensure the load does not obstruct your view or interfere with the handle's movement.
- Push the cart with steady, controlled movements. The silent casters allow for smooth operation in various environments.
- The two fixed casters provide stability, while the two swivel casters allow for easy maneuverability in tight spaces.

6. Maintenance

- **Cleaning:** Wipe the cart with a damp cloth to remove dust and dirt. Avoid abrasive cleaners.
- **Caster Inspection:** Regularly check the casters for wear and tear. Ensure they rotate freely and are securely attached. Replace worn casters promptly.
- **Lubrication:** Periodically apply a small amount of lubricant to the caster axles to maintain smooth operation.
- **Storage:** Store the cart in its folded, compact state in a dry environment to prevent rust and damage.

7. Troubleshooting

- **Cart is difficult to push or steer:** Check if casters are clean and free of debris. Lubricate caster axles if necessary. Ensure the load is evenly distributed and not exceeding capacity.
- **Noisy casters:** This can occur over time. Clean the casters and apply lubricant. If noise persists, consider replacing the casters.
- **Handle does not lock into place:** Ensure the handle is fully extended or folded until you hear a click, indicating it is secured. Check for any obstructions in the locking mechanism.

8. Specifications

Feature	Specification
Brand	Garvee
Model Number	150
Load Capacity	150 kg (330 lbs)
Material	Steel, Rubber (casters)
Wheel Type	Caster (2 swivel, 2 fixed)
Wheel Diameter	10 cm
Unfolded Dimensions (approx.)	48.3 cm (W) × 73.7 cm (L) × 82 cm (H)
Folded Dimensions (approx.)	48.3 cm (W) × 24 cm (D) × 73.7 cm (H)
Weight (approx.)	7.9 kg (17.4 lbs)
