Garvee PHO_10U7YOAB

Garvee 6000 BTU U-Shaped Window Air Conditioner User Manual

Model: PHO_10U7YOAB

1. Product Overview

The Garvee 6000 BTU U-Shaped Window Air Conditioner is designed to provide efficient and quiet cooling for rooms up to 269 sq. ft. Its innovative U-shaped design allows for an unobstructed view and improved noise reduction by placing the compressor section outside the window. This unit offers multiple operating modes and smart control features for personalized comfort.

5. Setup and Installation

The Garvee U-Shaped Window Air Conditioner is designed for easy DIY installation without drilling. It fits windows 24–

48 inches wide with a minimum 16-inch high window opening and sills up to 11 inches deep. A minimum 12-inch high clearance and 8-inch depth clearance are required.

Installation Steps:

1. **Measure Your Window:** Ensure your window meets the required dimensions for proper fit and sealing.
2. **Prepare the Unit:** Attach any necessary mounting blocks or brackets as per the included specification manual.
3. **Position the Unit:** Carefully place the U-shaped unit into the window opening. The compressor section should extend outside.
4. **Secure the Window:** Lower the window sash to rest on the top of the unit, securing it in place.
5. **Seal Gaps:** Use the provided foam sealers and weather stripping to fill any gaps around the unit and window frame, ensuring an airtight seal.
6. **Leveling:** Use the included spirit level to ensure the unit has a slight downward slope towards the outside to allow for proper water drainage.
7. **Final Checks:** Ensure the unit is stable and all seals are tight before plugging it in.

6. Operating Instructions

The air conditioner can be operated using the control panel on the unit or the included remote control.

Control Panel & Remote Functions:

- **Power Button:** Turns the unit On/Off.
- **Mode Button:** Cycles through Cool, Dehumidify, Fan, Energy Saver, Sleep, and Auto modes.
- **Temperature Adjustment:** Use the Up/Down arrows to set the desired temperature.
- **Fan Speed:** Adjusts fan speed (High, Medium, Low, Auto, Quiet).
- **Timer:** Set a delay timer for automatic turn On/Off.
- **Filter Reset:** Indicates when the filter needs cleaning and resets the indicator after cleaning.
- **Quiet Mode:** Optimizes operation for minimal noise.
- **Auto Restart:** The unit will automatically restart with previous settings after a power interruption.

7. Maintenance

Regular maintenance ensures optimal performance and longevity of your Garvee air conditioner.

Cleaning the Air Filter:

1. **Turn Off Unit:** Always unplug the air conditioner before performing any maintenance.
2. **Access Filter:** Open the front panel of the unit to access the reusable, washable air filter.
3. **Clean Filter:** Gently remove the filter. Wash it with warm, soapy water. Rinse thoroughly and allow it to air dry completely before reinserting.

4. **Reset Filter Indicator:** After cleaning and reinserting the filter, press the "Filter Reset" button on the control panel or remote if the indicator light is on.

The unit features a water self-evaporation design, minimizing the need for manual water drainage under normal operating conditions.

8. Troubleshooting

If you encounter issues with your Garvee air conditioner, refer to the following common troubleshooting steps:

- **Unit Not Turning On:**
  - Check if the power cord is securely plugged into a working outlet.
  - Verify that the circuit breaker has not tripped.
  - Ensure the unit's power button is pressed.
- **Insufficient Cooling:**
  - Check if the air filter is clean and not obstructed.
  - Ensure all windows and doors in the room are closed.
  - Verify that the temperature setting is lower than the room temperature.
  - Confirm that the unit is set to "Cool" mode.
- **Unusual Noise:**
  - Check for any obstructions in the fan or air vents.
  - Ensure the unit is properly installed and level. A slight slope outwards is normal for drainage.
- **Water Leakage:**
  - Ensure the unit is correctly sloped outwards for proper drainage.
  - Check that all window seals and weather stripping are intact and properly installed.

For further assistance, please contact Garvee customer support.

9. Warranty and Support

The Garvee 6000 BTU U-Shaped Window Air Conditioner comes with a**1-year warranty** from the date of purchase.

For warranty claims, technical support, or any questions regarding your product, please refer to the contact information provided in your specification manual or visit the official Garvee website.

Additional protection plans may be available for purchase to extend coverage beyond the standard warranty period.
