GarveeTech T3-WZF-PPG

GarveeTech Chicken Perch for Coop with Ladder Instruction Manual

Model: T3-WZF-PPG

1. Introduction

This manual provides instructions for the assembly, operation, and maintenance of your GarveeTech Chicken Perch for Coop with Ladder. This product is designed to offer a multi-functional activity center for poultry, promoting natural behaviors and physical well-being.

2. Safety Instructions

- **Secure Fastening:** Ensure all parts are securely fastened during assembly to prevent instability and potential injury to poultry.
- **Appropriate Height:** Install the perch at an appropriate height inside the coop for safe and comfortable use by your chickens. Avoid heights that could lead to injury from falls.
- **Regular Inspection:** Periodically inspect the perch for any loose parts, damage, or wear. Tighten fasteners and replace damaged components as necessary.
- **Supervision:** Monitor your poultry during initial use to ensure they adapt safely to the new perch.

3. Product Overview

The GarveeTech Chicken Perch is constructed from galvanized metal and wood, featuring a tiered design that includes roosting bars and a ladder. It is intended to provide enrichment and exercise for chickens, ducks, geese, pigeons, and other small birds within a coop or run environment.

Image 3.1: The GarveeTech Chicken Perch provides a multi-functional activity center for various poultry, suitable for different environments.

Key features include:

- **Roosting & Playing:** Combines essential roosts with enrichment elements.
- **Promotes Wellbeing:** Encourages exercise, improves coordination and balance, and reduces boredom.
- **Sturdy Construction:** Made from galvanized metal and wood for durability.
- **Smooth Surface:** Wooden surfaces are sanded to prevent splinters and are gentle on chicken feet.

4. Setup and Assembly

The GarveeTech Chicken Perch is designed for simple assembly. Follow these general steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the instruction manual (not provided here, but typically included with the product) are present.
2. **Identify Parts:** The perch consists of galvanized metal frames and wooden roosting bars. Identify the main

structural pieces and the connecting hardware.

3. **Assemble Frame:** Connect the metal frame components according to the provided diagrams. Ensure all connections are firm.
4. **Attach Roosting Bars:** Insert the wooden roosting bars into the designated slots or attachment points on the metal frame. Ensure they are level and securely seated.
5. **Secure Connections:** Use the provided fasteners (screws, bolts, etc.) to secure all joints. Double-check that all parts are tightly fastened to ensure stability. The product is equipped with anti-slip parts for added stability.

5. Operating Instructions

Once assembled, place the GarveeTech Chicken Perch inside your chicken coop or run. Consider the following for optimal use:

- **Placement:** Position the perch in an area that is easily accessible to your poultry but does not obstruct their movement or other coop features. Ensure it is stable on the ground.

- **Encouragement:** Initially, you may need to encourage your chickens to use the perch. Placing treats on the lower bars can help them discover and become comfortable with it.
- **Observation:** Observe your flock to ensure they are using the perch safely and comfortably. Adjust its position if necessary.

Image 5.2: The perch provides ample space for multiple chickens to roost and interact.

6. Maintenance

Regular cleaning and maintenance will extend the life of your GarveeTech Chicken Perch and ensure a hygienic environment for your poultry.

- **Cleaning:** The smooth wooden surfaces are easy to clean. Use a damp cloth or a mild, pet-safe cleaning solution to wipe down the roosting bars and frame. Rinse thoroughly if using cleaning agents.
- **Inspection:** Periodically check the galvanized metal frame for any signs of rust or damage. Inspect the wooden bars for splinters or excessive wear.
- **Tighten Fasteners:** Over time, fasteners may loosen. Regularly check and tighten all screws and bolts to maintain the perch's stability.

7. Troubleshooting

If you encounter issues with your chicken perch, consider the following:

- **Chickens Not Using Perch:** Ensure the perch is placed in a quiet, secure area of the coop. Try placing treats on the lower bars to encourage use. Verify the perch height is appropriate for your flock's size and breed.
- **Perch Instability:** Re-check all connections and fasteners to ensure they are tight. Ensure the perch is on a level surface.
- **Roosting Bar Diameter:** The wooden poles have a diameter of approximately 1.1 inches. While designed for adult chickens, some users may find this diameter thinner than expected for very large breeds. Observe your chickens' comfort and foot health. If discomfort is noted, consider adding a wider, flat roosting surface or consulting with a poultry expert.
