Garvee King Size Bed Frame Instruction Manual

Model: FLZHGV2512180066i | Brand: Garvee

1. Introduction

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your Garvee King Size Bed Frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

2. Safety Information

- Ensure all components are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Assembly requires two adults. Attempting to assemble alone may result in injury or damage to the product.
- Place the bed frame on a flat, stable surface during assembly.
- Tighten all bolts and screws securely, but do not overtighten. Periodically check and retighten fasteners.
- Do not allow children to climb on or play with the bed frame during or after assembly.
- The maximum weight capacity for this bed frame is 1000 lbs (including mattress and occupants). Do not exceed this limit.

3. Package Contents

Verify that all the following components are included in your package:

- 1 x King Size Bed Frame (Headboard, Footboard, Side Rails)
- 1 x Set of Wood Slats
- 1 x Accessories Kit (Hardware, Tools)
- 1 x Step-by-Step Instruction Manual

4. Assembly Instructions

Estimated assembly time: 30 minutes with two adults.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface (e.g., a rug or blanket) to prevent scratches. Identify all parts against the parts list in your included instruction manual.
2. **Attach Side Rails to Headboard:** Connect the left and right side rails to the headboard using the provided bolts and tools. Ensure connections are secure.
3. **Attach Side Rails to Footboard:** Connect the opposite ends of the side rails to the footboard. Ensure all four corners are firmly attached.
4. **Install Center Support Legs:** Attach any required center support legs to the main frame or center support beam as indicated in your specific manual.
5. **Place Wood Slats:** Lay the wood slats across the bed frame, ensuring they are evenly spaced and secured according to the instructions. Some slats may require screwing into the frame.
6. **Final Check:** Confirm all bolts and screws are tightened. The frame should be stable and free of wobbling.

5. Operating Instructions

Mattress Placement

This bed frame is designed to accommodate mattresses between 8 inches and 15 inches thick. No box spring is required due to the robust wood slat support system. Place your mattress directly onto the installed slats.

Weight Capacity

The Garvee King Size Bed Frame has a maximum weight capacity of 1000 lbs. This includes the weight of the mattress and all occupants. Do not exceed this limit to ensure structural integrity and safety.

Under-Bed Clearance

The bed frame features a 4.9-inch leg height, providing convenient space underneath for light storage or for robotic vacuums to operate.

6. Maintenance

Cleaning the Velvet Upholstery

- **Regular Dusting:** Use a soft brush attachment on your vacuum cleaner to gently remove dust and debris from the velvet fabric.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. For tougher stains, use a mild fabric cleaner specifically designed for velvet, testing on an inconspicuous area first. Do not rub vigorously, as this can damage the pile.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, bleach, or solvents, as these can discolor or damage the velvet.

Image 6.1: Velvet upholstery features, highlighting soft touch and ease of cleaning.

Structural Maintenance

- **Fastener Checks:** Periodically (e.g., every 3-6 months) inspect all bolts and screws. Retighten any loose fasteners to maintain stability and prevent noise.
- **Slats Inspection:** Check the wood slats for any signs of damage or cracking. Replace damaged slats immediately to ensure proper mattress support.

7. Troubleshooting

Bed Frame is Noisy/Squeaks

- **Check Fasteners:** The most common cause of noise is loose bolts or screws. Retighten all fasteners on the headboard, footboard, and side rails.
- **Inspect Slats:** Ensure all wood slats are properly seated and secured. If any slats are rubbing, a thin piece of felt or fabric can be placed between the slat and the frame.

- **Verify Center Support:** Ensure all center support legs are firmly on the floor and properly aligned.

Bed Frame Feels Unstable

- **Re-tighten All Connections:** Go through all assembly steps and ensure every connection point is securely fastened.
- **Level Surface:** Ensure the bed frame is placed on a level floor. If your floor is uneven, consider using furniture levelers under the legs.

8. Specifications

Feature	Detail
Model Number	FLZHGV2512180066i
Size	King
Color	Black
Material	Engineered Wood, Metal, Velvet Fabric
Product Dimensions (L x W x H)	84" x 79.1" x 51"
Headboard Height	51"
Recommended Mattress Height	8" - 15" (No Box Spring Needed)
Under-Bed Clearance	4.9"
Weight Capacity	1000 lbs
Item Weight	123.5 Pounds
Assembly Required	Yes
