JTF P400-AMZ

JTF Sonic Electric Toothbrush P400-AMZ User Manual

Model: P400-AMZ

Introduction

Thank you for choosing the JTF Sonic Electric Toothbrush P400-AMZ. This advanced sonic electric toothbrush is designed to provide a thorough and gentle cleaning experience, featuring a UV sanitizing and drying base for optimal hygiene. Please read this manual carefully before use to ensure proper operation and maintenance.

Safety Information

- Read all instructions before use.
- For adult use only.
- Use the UV cleaning & drying base properly.
- Keep the UV & drying base away from water at all times.
- Do not handle the charger with wet hands.
- Discontinue use immediately if the charger or any part is damaged.

Package Contents

The JTF Sonic Electric Toothbrush P400-AMZ package includes:

- 1x JTF Electric Toothbrush Handle
- 6x Brush Heads
- 1x UV Cleaning, Drying & Wireless Charging Base
- 1x Rinse Cup
- 1x Type-C Cable
- 1x User Manual (this document)

Setup

1. Charging the Toothbrush

1. Connect the Type-C cable to the UV Cleaning, Drying & Wireless Charging Base and plug it into a power source.
2. Place the toothbrush handle onto the wireless charging post of the base. The battery indicator lights on the toothbrush will illuminate to show charging status.
3. A full charge takes approximately 5 hours and provides up to 60 days of use.

2. Attaching a Brush Head

1. Align the brush head with the metal shaft on the toothbrush handle.
2. Push the brush head down firmly until it clicks into place.

Operating Instructions

1. Brushing Your Teeth

1. Wet the brush head and apply a small amount of toothpaste.
2. Press the power button to turn on the toothbrush. It will start in the last used mode due to the memory function.
3. Gently guide the brush head to your teeth at a slight angle towards the gum line. Move the brush slowly across each section of your mouth.
4. The built-in 2-minute smart timer will pause briefly every 30 seconds to indicate when to move to a different quadrant of your mouth, ensuring a complete cleaning. The toothbrush will automatically turn off after 2 minutes.
5. To change brushing modes, press the power button repeatedly while the toothbrush is on.

2. Brushing Modes

The JTF Sonic Electric Toothbrush offers 5 customized cleaning modes:

- **White:** For stain removal and brightening.
- **Clean:** For daily deep cleaning.
- **Sensitive:** Recommended for sensitive teeth.
- **Refresh:** Deep cleaning to freshen breath.
- **Massage:** For gum health and comfort.

3. UV Sanitizing & Drying Base

1. After brushing, rinse your brush head and place it into the designated slot in the UV sanitizing & drying base.
2. The base will automatically activate a 10-minute UV cleaning cycle, followed by a gentle drying cycle to reduce moisture.
3. Both functions will automatically shut off after completion.

Maintenance

1. Cleaning the Toothbrush Handle

- After each use, rinse the toothbrush handle under running water.
- Wipe the handle with a soft cloth to dry it.
- The toothbrush handle is IPX7 waterproof and can be safely rinsed or used in the shower.

2. Cleaning the Brush Head

- Rinse the brush head thoroughly under running water after each use.
- For optimal hygiene, place the brush head in the UV sanitizing & drying base after rinsing.

3. Cleaning the UV Sanitizing & Drying Base

- **Important:** The UV sanitizing & wireless charging base is **not waterproof**. Do not immerse it in water or rinse it under running water.
- Unplug the base before cleaning.
- Wipe the base with a soft, dry cloth to remove any dust or residue.

4. Replacing Brush Heads

- It is recommended to replace brush heads every 3 months, or sooner if the bristles become frayed.
- To remove a brush head, pull it straight off the handle.
- To attach a new brush head, align it and push it down firmly until it clicks.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Toothbrush does not turn on.	Low battery or no charge.	Place the toothbrush on the charging base and ensure the base is plugged in. Allow it to charge for at least 30 minutes before attempting to turn it on.
Toothbrush does not charge.	Charging cable or adapter issue; improper placement on base.	Ensure the Type-C cable is securely connected to both the base and the power source. Verify the toothbrush is correctly seated on the wireless charging post. Try a different power outlet or adapter.
UV Sanitizing & Drying Base not working.	Not powered; brush head not placed correctly.	Ensure the base is plugged into a working power outlet. Make sure the brush head is fully inserted into the UV slot.
Reduced brushing performance.	Worn brush head; low battery.	Replace the brush head if bristles are frayed or discolored. Charge the toothbrush fully.
