Garvee Vintage Geometric Area Rug 10x13

Garvee Vintage Geometric Area Rug 10x13

Instruction Manual

Introduction

This manual provides essential information for the proper setup, usage, maintenance, and care of your Garvee Vintage Geometric Area Rug. Please read these instructions carefully to ensure the longevity and optimal performance of your product.

Product Overview

The Garvee Vintage Geometric Area Rug is designed to enhance your living space with its stylish vintage geometric pattern and practical features. It is suitable for various rooms including living rooms, bedrooms, dining rooms, and offices.

Key Features

- **Vintage Geometric Design:** Features a distressed texture and classic geometric patterns for a natural retro feel.
- **Non-Slip Backing:** Equipped with a Thermoplastic Rubber (TPR) backing to firmly grip the ground and prevent shifting.
- **Machine Washable:** Designed for easy cleaning and maintenance, including machine washing for stubborn stains.
- **Soft and Safe:** Offers an extremely soft touch, safe for babies and pets, providing cushioning against falls.
- **Thin & Foldable:** Lightweight (0.23" pile height) and foldable design for easy storage and relocation.

Setup and Initial Placement

Upon arrival, your rug may have temporary creases due to packaging. Follow these steps for proper setup:

1. **Unroll the Rug:** Carefully unroll the rug in your desired location.
2. **Address Creases:** If creases are present, roll the rug in the opposite direction and lay it flat on the floor. Apply gentle pressure to the carpet. Creases typically disappear completely within a few days.
3. **Measure Your Space:** Before final placement, ensure the rug size (10' x 13') is appropriate for your area and coordinates with surrounding furniture.

Operating (Usage)

The Garvee rug is designed for versatile use in various indoor environments. Its non-slip backing ensures stability.

- **Placement:** Place the rug on clean, dry flooring. The non-slip TPR backing is effective on wood, tile, and other hard surfaces.
- **Safety:** The non-slip backing helps prevent accidental slips and shifts, making it suitable for high-traffic areas and homes with children or pets.
- **Comfort:** The soft, low-pile surface provides a comfortable underfoot experience.

Maintenance and Cleaning

Regular maintenance will keep your Garvee rug looking its best. The rug is designed for easy cleaning.

Daily Maintenance

- **Vacuuming:** Regularly vacuum the rug to remove dust, dirt, and pet hair. Use a standard vacuum cleaner. Avoid high-powered vacuum settings that may damage the low pile.
- **Spot Cleaning:** For small spills or stains, spot clean immediately with a mild detergent and a clean cloth. Blot the area gently; do not rub vigorously.

Deep Cleaning (Machine Washable)

For thorough cleaning, the rug can be machine washed:

1. **Preparation:** Shake off loose dirt and debris before washing.
2. **Washing Machine:** Place the rug in a large capacity washing machine. Use cold water on a gentle cycle with a mild detergent.
3. **Drying:** Tumble dry on low heat or air dry. Ensure the rug is completely dry before placing it back on the floor to prevent mildew.

Troubleshooting

Here are solutions for common issues you might encounter:

- **Temporary Creases:** If creases persist after initial unrolling, try rolling the rug in the opposite direction and laying it flat, applying pressure. Walking on it or placing heavy, flat objects on the affected areas for a day or two can also help.

- **Shedding:** This rug is designed to be non-shedding. If you notice minimal shedding, it is likely residual fibers from manufacturing and should subside after a few vacuumings.
- **Rug Shifting:** Ensure the floor surface is clean and dry before placing the rug. The non-slip backing should prevent most shifting. If on a very smooth surface, ensure the rug is laid flat without any buckles.

Specifications

Feature	Detail
Brand	Garvee
Model Name	Area Rugs
Size	10' x 13' (Rectangular)
Color	Distressed Black
Material	Faux Wool (100% Polyester)
Back Material Type	Thermoplastic Rubber (TPR)
