IMPORTANT SAFEGUARDS

Read these instructions carefully and retain them for future use. If this product is passed to a third party, then these instructions must be included.

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons including the following:

- Read these instructions.
- Keep these instructions.
- Heed all instructions.
- Do not use the product near water.
- Do not expose this product to rain or moisture.
- Clean only with dry cloth.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
- Only use attachments/accessories specified by the manufacturer.
- This product is only suitable for use in moderate climates. Do not use it in tropical or in particularly humid climates.
- To prevent possible hearing damage, do not listen at high volume levels for long periods.

Intended Use

- This product is intended for household use only. It is not intended for commercial use.
- This product is intended to be used in dry indoor areas only.
- No liability will be accepted for damages resulting from improper use or non-compliance with these instructions.

Before First Use

- Check the product for transport damages.
- Remove all the packing materials.

DANGER

Risk of suffocation! Keep any packaging materials away from children – these materials are a potential source of danger, e.g. suffocation.

Product Description

- A Display
- B Mode knob
- C Angle adjustment knob (UR)
- D  volume control knob
- E  volume control knob
- F 3.5 mm headphone socket
- G USB Micro B port
- H Stand
- I USB cable (Type-A to Micro-B)

Operation

- Connect the provided USB cable (I) to the USB Micro B port (G) and to a computer. The display (A) lights up.
- Open the sound settings of a computer.
- Set “AmazonBasics Professional Mic 2” as the sound input / output of a computer.

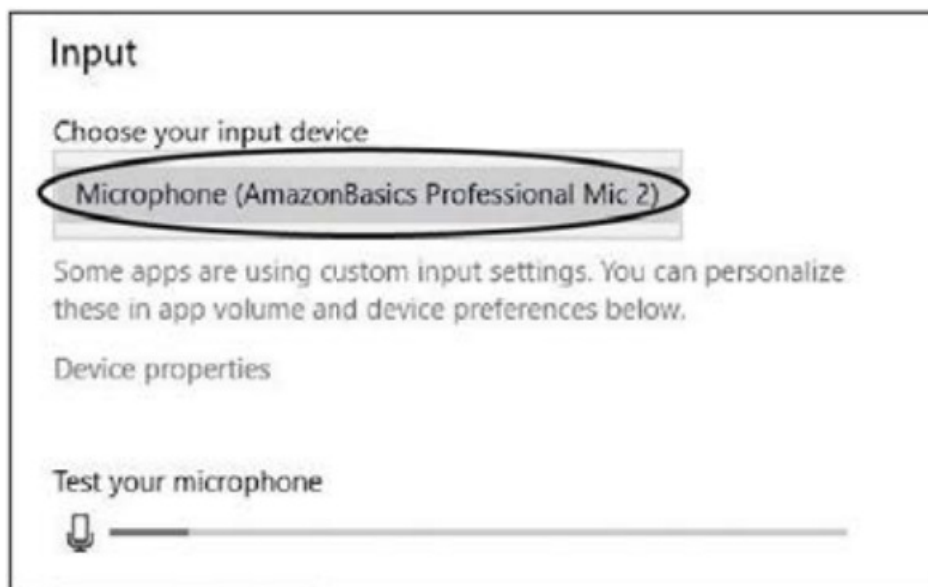

For macOS® go to: System Preferences > Sound > Input

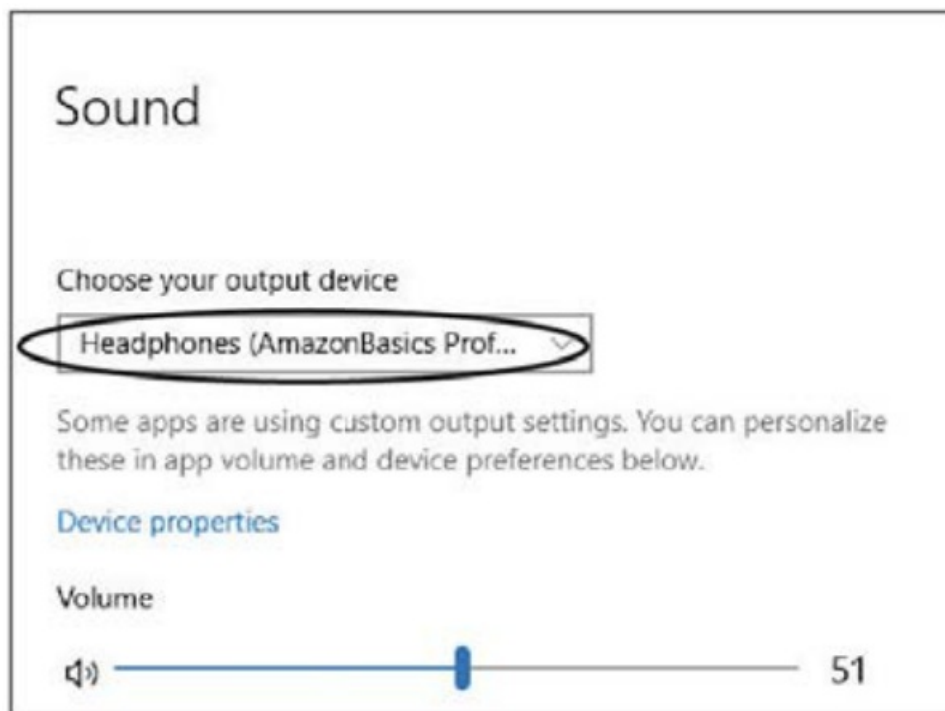

For macOS® go to: System Preferences > Sound > Output

For Windows® OS go to: Settings > System > Sound > Input > choose your input device

For Windows® OS go to: Settings > System > Sound > Choose your output device

NOTICE: The product is not guaranteed to operate with all computers and all operating systems.
 NOTICE: When connecting to Apple computer with Type-C connector, use an iOS approved USB hub.

System compatibility

Windows 7, Windows® 8, Windows 10 macOS 10.10 or later

Adjusting angle

To adjust the angle of the microphone, loosen the angle adjustment knobs (UR) (C) on the left and right side of the stand (H). Tighten the knobs afterwards.

Audio playback

Connect headphones to the 3.5 mm headphone socket (F).

Adjusting volume

To adjust the microphone or audio playback volume, use the corresponding control knob  (E) or  (D). The volume level is shown on the display (A).

Muting the microphone / headphones

To mute the microphone or headphones, press the corresponding control knob  (E) or  (D). The “Mute” is shown on the display (A).

Switching on/off the microphone monitor

NOTICE:

With the microphone monitor on, you can record your voice while listening to the background soundtrack. To switch on/off the microphone monitor, press and hold the control knob  (D) for 3 seconds. The “Monitor ON” or “Monitor OFF” is shown on the display (A).

Setting recording modes

Turn the mode knob (B) to toggle between recording modes (polar patterns). The selected mode is shown on the display (A).

Cardioid mode

- Cardioid mode records sound sources that are directly in front of the microphone and dismisses unwanted ambient sounds.
- Ideal for recording podcasts, talks, or game streaming.

Omnidirectional mode

- Omnidirectional mode picks up sound from all directions.
- Ideal for situations in which you want to capture the full unadulterated sound of a space, without aiming at any particular sound source.

Bidirectional mode

Bidirectional mode records from both the front and the rear of the microphone. It's ideal for capturing the nuance of a musical instrument, or recording an interview between two people.

Stereo mode

Stereo mode uses both the left and right channels, and is ideal for capturing a realistic, general sound image. Like a singer live recording.

Cleaning and Maintenance

NOTICE:

To prevent product damage, unplug the product before cleaning.

NOTICE:

During cleaning do not immerse the product in water or other liquids. Never hold the product under running water.

Cleaning

- Wipe the product with a soft, dry cloth.
- Never use corrosive detergents, wire brushes, abrasive scourers, metal or sharp utensils to clean the product.

Storage

Store the product in its original packaging in a dry area. Keep away from children and pets.

Disposal

The Waste Electrical and Electronic Equipment (WEEE) Directive aims to minimize the impact of electrical and electronic goods on the environment, by increasing reuse and recycling and by reducing the amount of WEEE going to landfill. The symbol on this product or its packaging signifies that this product must be disposed of separately from ordinary household wastes at its end of life.

Be aware that this is your responsibility to dispose of electronic equipment at recycling centers in order to conserve natural resources. Each country should have its collection centers for electrical and electronic equipment recycling.

For information about your recycling drop-off area, please contact your related electrical and electronic equipment waste management authority, your local city office, or your household waste disposal service.

FCC Compliance Statement

1. This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
 1. this device may not cause harmful interference, and
 2. this device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio / 1V technician for help.

Canada IC Notice

This Class 8 digital apparatus complies with Canadian CAN ICES-3(8) / NMB-3(8) standard.

Specifications

Power supply:	5 V  , 200 mA
Polar pattern:	Cardioid (unidirectional), Omnidirectional, Bidirectional, Stereo
Frequency response:	20 Hz – 20 kHz
Sensitivity:	-45 dB ± 3 dB
Microphone sample rate:	192 kHz at 24 Bit
Headphone sample rate:	192 kHz at 24 Bit
Headphone output:	45 mW (32 Ω)
Net weight:	approx. 1 kg
Dimensions (W x H x D):	approx. 70.5 x 175 x 70.5 mm
