Garvee HDPE-ROCKING-010

Garvee HDPE Rocking Chair Outdoor Set with Side Table

Model: HDPE-ROCKING-010

Introduction

Thank you for choosing the Garvee HDPE Rocking Chair Outdoor Set. This manual provides essential information for the safe assembly, operation, and maintenance of your new patio furniture. Crafted from durable High-Density Polyethylene (HDPE), this set is designed for all-weather resistance and low maintenance, ensuring lasting comfort and enjoyment in any outdoor setting.

Safety Information

- **Maximum Weight Capacity:** Each rocking chair supports up to 350 pounds. Do not exceed this limit.
- **Assembly:** Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten fasteners as needed.
- **Placement:** Place the furniture on a flat, stable surface to prevent tipping.
- **Children:** Supervise children when they are using the furniture.

Package Contents

Please verify that all components listed below are present before beginning assembly. The package includes components for two rocking chairs and one side table.

Component	Quantity (per chair/table)
Chair Backrest	1 pc
Chair Seat	1 pc
Chair Armrests	2 pcs
Chair Rocker Legs	2 pcs
Side Table Top	1 pc
Side Table Legs	4 pcs
Side Table Shelf	1 pc
Hardware Pack (Screws, Hex Key)	1 pack

Setup and Assembly

Setup and Assembly

Assembly is required for the Garvee HDPE Rocking Chair Outdoor Set. It is recommended to use an electric screwdriver with appropriate bits for faster and easier assembly. A hex key is included for manual tightening.

General Assembly Tips:

- Lay out all components and hardware on a soft, clean surface to prevent scratches.
- Identify each part using the labels (A, B, C, etc.) and the provided diagrams.
- Do not fully tighten screws until all components are loosely assembled. This allows for minor adjustments.
- Use the correct screw size for each step as indicated in the instructions.

Assembly Steps:

1. **Assemble Side Frames:** Attach the horizontal support bars to the vertical leg pieces using the specified screws. Ensure the curved rocker legs are oriented correctly.
2. **Assemble Backrest:** Connect the backrest slats to the vertical backrest supports.
3. **Assemble Seat:** Attach the seat slats to the seat frame.
4. **Attach Seat and Backrest to Side Frames:** Secure the assembled seat and backrest to the side frames.
5. **Assemble Side Table:** Connect the side table legs to the table top and lower shelf using the appropriate screws.

Operating Instructions

The Garvee HDPE Rocking Chairs are designed for a smooth and comfortable rocking experience. Simply sit back, place your feet on the ground, and gently push off to initiate the rocking motion. The high backrest and ergonomic design provide excellent support for extended relaxation.

Maintenance

One of the key benefits of HDPE material is its low maintenance. The Garvee rocking chair set is resistant to moisture, UV rays, and fading, and will not splinter or peel. To keep your furniture looking its best:

- **Cleaning:** Simply clean with mild soap and water. A damp cloth is sufficient for everyday messes.
- **No Painting or Staining:** The material does not require painting, staining, or waterproofing.
- **Storage:** While all-weather resistant, storing the furniture during extreme weather conditions can prolong its lifespan.

Figure 4: Simple wipe-down with a damp cloth for hassle-free care and everyday messes.

Troubleshooting

- **Difficulty Tightening Screws:** If you encounter difficulty tightening screws, ensure you are using the correct hex key and applying steady pressure. Avoid over-tightening to prevent damage to the material or stripping the screw heads.
- **Stripped Hex Key:** The provided hex keys may wear out with extensive use. If a hex key becomes stripped, it is recommended to use a higher quality hex key or an electric screwdriver with a compatible bit for easier assembly.
- **Misaligned Parts:** If parts do not align correctly, loosen all screws in the affected section, adjust the components, and then re-tighten. Do not force parts together.
