Amazon Echo Glow

Get to know your Echo Glow
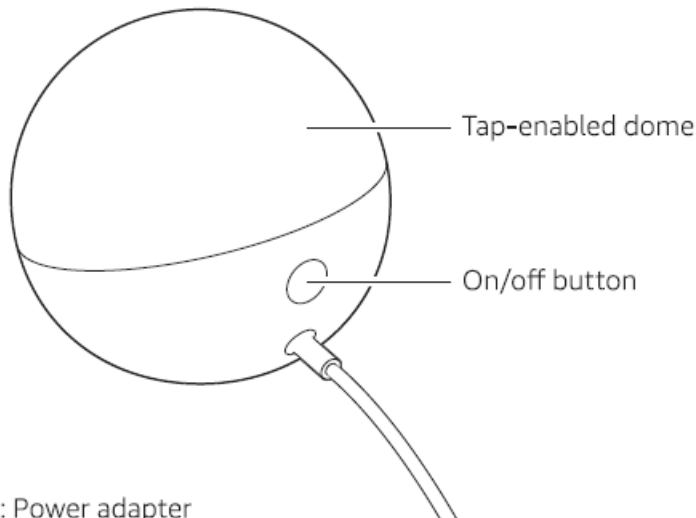

Set up your Echo Glow

1. Plug the power adapter into Echo Glow and then into a power outlet.
2. Download the latest version of the Alexa app from the app store.
3. Tap the More icon to add your device. Choose "Light" as the device type, then choose "Amazon Echo" and follow the on-screen instructions to add a device. If prompted by the app to scan a barcode, you can scan the 2D barcode on the back page.

Please note that your Echo Glow requires a 2.4 GHz Wi-Fi network.
