Setup and Assembly Instructions

Assembly is required for this bunk bed. All parts, tools, and clear instructions are provided to facilitate a straightforward assembly process. It is recommended that two adults assemble the bed to ensure safety and efficiency.

1. **Unpack Components:** Carefully unpack all parts and lay them out on a clean, soft surface (like a carpet) to prevent scratches. Verify that all listed components are present.
2. **Review Instructions:** Read the entire instruction manual before beginning assembly. Familiarize yourself with each step and the corresponding hardware.
3. **Assemble Base Frames:** Begin by assembling the base frames for both the Queen (top) and King (bottom) sections according to the diagrams in the provided manual. Do not fully tighten screws until all parts are aligned.
4. **Attach Support Legs:** Securely attach all support legs, especially the reinforced thicker legs and extra support legs for the King-size lower bunk.
5. **Install Slats:** Place and secure the mattress slats onto both bed frames.
6. **Connect Bunk Sections:** Carefully lift and connect the top Queen bunk frame to the bottom King bunk frame, ensuring all connection points are aligned and secured.
7. **Attach Guardrails:** Install the full-length guardrails on the top bunk. Ensure they are firmly attached and meet safety standards.
8. **Install Ladders:** Attach the two side ladders to the designated positions. Ensure they are stable and provide secure access to the top bunk.
9. **Final Tightening:** Once all components are in place and aligned, fully tighten all screws and bolts. Do not overtighten.
10. **Attach Anti-Tip Kit:** Securely attach the anti-tip kit to the bunk bed and anchor it to a wall stud to prevent tipping.

Usage Instructions

- **Mattress Placement:** Place a Queen-size mattress on the top bunk and a King-size mattress on the bottom bunk. Ensure the top bunk mattress does not exceed 6 inches in height.
- **Ladder Access:** Use the integrated side ladders for safe and convenient access to the top bunk. The dual ladder system allows for flexible room arrangement.
- **Under-Bed Storage:** Utilize the space beneath the bottom bunk for storage. This area is suitable for storage bins or boxes to help organize the room.
- **Weight Distribution:** Distribute weight evenly on both bunks. Avoid concentrating weight in one area.

Maintenance

- **Cleaning:** Wipe the metal frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners that could damage the powder-coated finish.
- **Hardware Check:** Periodically (e.g., monthly) inspect all bolts, screws, and connections to ensure they are tight. Retighten as necessary to maintain stability and safety.
- **Structural Integrity:** Regularly check the bed frame for any signs of damage, bending, or wear. Discontinue use if any structural damage is observed and contact customer support.

Troubleshooting

- **Squeaking Noises:** If the bed squeaks, check all bolts and screws and tighten them. Ensure the slats are properly seated.
- **Instability:** If the bed feels unstable, verify that all connections are secure and that the anti-tip kit is correctly installed and anchored. Ensure the bed is on a flat, level surface.
- **Missing Parts:** If any parts are missing or damaged upon arrival, do not proceed with assembly. Contact Bellemave customer support immediately for assistance.
