OMOTON B0GR51TF1L

OMOTON Wireless Bluetooth Rechargeable Keyboard and Mouse for Mac User Manual

Model: B0GR51TF1L

1. Introduction

Thank you for choosing the OMOTON Wireless Bluetooth Rechargeable Keyboard and Mouse set. This product is designed to enhance your productivity and comfort with Mac devices. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure you get the most out of your new device.

2. Package Contents

- OMOTON Wireless Bluetooth Keyboard
- OMOTON Wireless Bluetooth Mouse
- USB Charging Cable (Type-C)
- User Manual (this document)

3. Product Overview

Familiarize yourself with the components and features of your OMOTON keyboard and mouse.

3.1 Keyboard Features

Image: Top view of the OMOTON keyboard showing its full-size layout, ultra-thin profile, ON/OFF switch, and Type-C charging port. Dimensions are indicated as 434.5mm/17.1in length and 121mm/4.8in width.

- **Multi-Device Connectivity:** Three Bluetooth channels (BT1, BT2, BT3) allow connection to up to three devices simultaneously.
- **Scissor-Switch Keys:** Provides a comfortable, quiet, and responsive typing experience.
- **Ergonomic Design:** Features a 12-degree tilt angle to reduce wrist strain during extended use.
- **Rechargeable Battery:** Built-in rechargeable battery with a USB-C charging port.
- **Mac OS Layout:** Specifically designed for Mac OS with Italian QWERTY layout.

Image: A close-up view of a key on the OMOTON keyboard, revealing the scissor-switch mechanism underneath, highlighting its design for soft touch and comfortable response.

Image: Side profile of the OMOTON keyboard illustrating its 12-degree ergonomic tilt, designed for comfortable typing.

3.2 Mouse Features

Image: The OMOTON wireless mouse highlighting its three adjustable DPI levels (800/1200/1600) and its silent click feature, with an illustration of a sleeping child in the background to emphasize quiet operation.

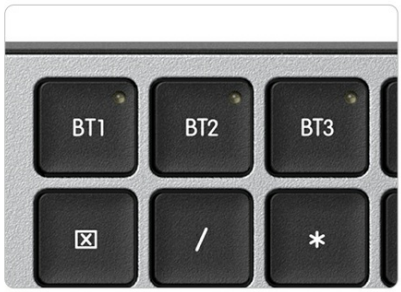
- **Adjustable DPI:** Three DPI levels (800/1200/1600) for precise cursor control.
- **Silent Click:** Designed for quiet operation, suitable for various environments.
- **Rechargeable Battery:** Built-in rechargeable battery.
- **Wide Compatibility:** Compatible with Mac/iOS/Windows/Android systems.

4. Setup and Pairing

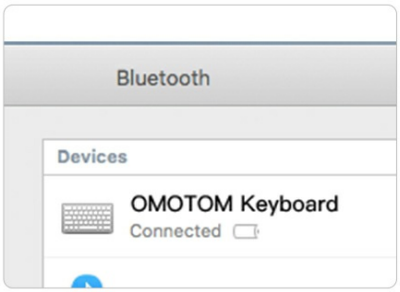
Follow these steps to connect your OMOTON keyboard and mouse to your device.

4.1 Keyboard Pairing

1. Portare l'interruttore della tastiera su ON.



2. Premere il pulsante “Connect” per 3~5s, l'indicatore rosso si accenderà per attivare la modalità di accoppiamento.



3. Confermare che il dispositivo è disponibile per il Bluetooth, quindi trovare il dispositivo: BT5.0 Mouse, la connessione è completa.

Suggerimento: questo prodotto dispone di 3 canali Bluetooth indipendenti. Premere brevemente il tasto del codice di accoppiamento per passare al canale Bluetooth 1/2/3.

Image: A visual guide showing the three steps for keyboard pairing: 1. Turning on the keyboard, 2. Long-pressing a Bluetooth channel button (BT1/BT2/BT3) to enter pairing mode, and 3. Selecting "OMOTON Keyboard" from the device's Bluetooth settings.

1. **Turn On the Keyboard:** Locate the ON/OFF switch on the top edge of the keyboard and slide it to the "ON" position.
2. **Enter Pairing Mode:** Press and hold one of the Bluetooth channel buttons (BT1, BT2, or BT3) for 3-5 seconds. The corresponding indicator light will flash, indicating the keyboard is in pairing mode.
3. **Connect to Your Device:**
   - On your Mac device, go to **System Settings** (or **System Preferences**) > **Bluetooth**.
   - Ensure Bluetooth is turned on.
   - Look for "OMOTON Keyboard" in the list of available devices and click **Connect**.
   - Once connected, the indicator light on the keyboard will stop flashing.

Note: *This keyboard has 3 independent Bluetooth channels. You can pair it with up to three devices. Repeat the steps above for each device, selecting a different BT channel (BT1, BT2, or BT3).*

4.2 Mouse Pairing

1. **Turn On the Mouse:** Locate the ON/OFF switch on the bottom of the mouse and slide it to the "ON" position.
2. **Enter Pairing Mode:** Press and hold the Bluetooth pairing button on the back of the mouse for 3 seconds. The indicator light (usually blue) will flash.
3. **Connect to Your Device:**
   - On your device, go to **Bluetooth settings**.
   - Ensure Bluetooth is turned on.
   - Look for "BT5.0 Mouse" (or similar) in the list of available devices and click **Connect**.
   - Once connected, the indicator light on the mouse will turn off.

5. Operating Instructions

5.1 Switching Between Paired Devices (Keyboard)

Image: The OMOTON keyboard shown connected wirelessly to a MacBook, an iMac, and an iPad, illustrating its multi-device support feature with BT1, BT2, and BT3 buttons highlighted.

To switch between devices you have already paired:

- Press **Fn + BT1** to switch to the device paired with channel 1.
- Press **Fn + BT2** to switch to the device paired with channel 2.
- Press **Fn + BT3** to switch to the device paired with channel 3.

5.2 Adjusting Mouse DPI

The mouse has three adjustable DPI settings (800/1200/1600). To change the DPI, press the DPI button located below the scroll wheel. Each press will cycle through the available DPI settings.

5.3 Charging the Keyboard and Mouse

Image: The OMOTON keyboard connected to a USB-C charging cable, illustrating the recharging process. An icon indicates 150 hours of operation after a full charge.

- Both the keyboard and mouse have built-in rechargeable batteries.
- Use the included USB charging cable to connect the device to a USB power source (e.g., computer USB port, USB wall adapter).
- The charging indicator light will illuminate during charging and typically turn off or change color when fully charged.
- A full charge usually takes 2-3 hours.
- The keyboard can provide approximately 150 hours of operation on a full charge.

6. Maintenance

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the keyboard and mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution (avoid harsh chemicals).
- **Storage:** When not in use for extended periods, turn off both the keyboard and mouse to conserve battery life. Store them in a cool, dry place.
- **Avoid Liquids:** Do not expose the devices to liquids, as this can cause damage.
- **Avoid Extreme Temperatures:** Do not expose the devices to extreme heat or cold.

7. Troubleshooting

Problem	Solution
Keyboard/Mouse does not connect.	• Ensure the device is turned ON. • Ensure Bluetooth is enabled on your computer/device. • Make sure the device is in pairing mode (indicator light flashing). • Forget the device from your computer's Bluetooth settings and try pairing again. • Ensure the device is charged. • Move the device closer to your computer.
Keyboard/Mouse disconnects frequently.	• Ensure the device is fully charged. • Reduce interference by moving away from other wireless devices (Wi-Fi routers, other Bluetooth devices). • Update your computer's Bluetooth drivers. • If the keyboard goes into sleep mode, press any key to wake it up. There might be a slight delay (a few seconds) for reconnection.
Keys are not responding or typing incorrectly.	• Ensure the keyboard is connected to the correct device channel (BT1/BT2/BT3). • Recharge the keyboard. • Restart your computer. • If specific keys are not working, check for physical obstructions.
Mouse cursor is erratic or not moving smoothly.	• Check the battery level and recharge if necessary. • Clean the optical sensor on the bottom of the mouse. • Try using the mouse on a different surface. • Adjust the DPI setting.

8. Specifications
