Garvee 14,000 BTU Portable Air Conditioner Instruction Manual

Model: hje370799Nfh10p9Phw4SglePR4j

1. Product Overview

The Garvee portable air conditioner, Model hje370799Nfh10p9Phw4SglePR4j, provides 14,000 BTU of cooling capacity, suitable for large rooms. It features a modern white design with an integrated control panel. This unit offers energy-efficient cooling for both residential and office environments, ensuring reliable performance and ease of use.

2. Setup and Installation

This portable air conditioner is designed for easy setup. It is lightweight and includes handles and caster wheels for convenient movement. The installation process is straightforward, with all necessary accessories such as exhaust hoses and window kits provided for a quick and secure setup.

2.1 Window Kit Installation

The unit includes a window kit compatible with both sliding and hung window types. Ensure the window opening is within the specified dimensions for proper exhaust ventilation.

Image: This image illustrates suitable window types for installation, including sliding windows and hung windows. It shows the exhaust hose connected to the window kit, demonstrating how to vent the unit. Dimensions for window opening are provided as 26.57"-49.21" for both types, and 4.92" for the hung window exhaust opening.

2.2 Room Size Recommendation

To ensure effective cooling, select a room size appropriate for the unit's BTU capacity. The 14,000 BTU capacity is designed for larger spaces.

Image: This image provides a guide for choosing the appropriate BTU capacity based on room size. For a 14,000 BTU unit, the minimum recommended room size is 225 sq ft and the maximum is 300 sq ft. The table also includes recommendations for 8K, 10K, and 12K BTU units. It notes that BTU capacity meets ASHRAE standards and advises considering room occupancy, sunlight, insulation, and consulting a professional.

3. Operating Instructions

The Garvee portable air conditioner offers multiple functions for indoor comfort, including cooling, dehumidifying, and fan modes. The unit features user-friendly controls and an intuitive interface for adjusting settings. Energy-saving modes and timers are also available for enhanced convenience.

3.1 Cooling Performance

The 14,000 BTU capacity effectively cools large spaces, maintaining a comfortable temperature range.

Image: This image shows the portable air conditioner operating in a bedroom, highlighting its 14,000 BTU cooling capacity. It indicates efficient cooling for large spaces, with a temperature range of 61°F-88°F, coverage up to 300 sq ft, and an airflow of 360m³/h.

3.2 Operating Modes

Select from three primary operating modes: Cool, Dry, and Fan, to suit your comfort needs.

- **Cool Mode:** Provides cooling within a temperature range of 61°F to 88°F.
- **Dry Mode:** Functions as a dehumidifier, removing up to 90 Pints/Day (1.8 Liters/Hour) of moisture.

- **Fan Mode:** Circulates air with High and Low-speed settings.

Image: This image details the three operating modes of the air conditioner: Cool, Dry, and Fan. The Cool mode operates between 61°F-88°F. The Dry mode removes 90 Pints/Day or 1.8 Liters/Hour of moisture. The Fan mode offers two speeds: High and Low.

3.3 Control Panel and Remote Control

Adjust settings using the integrated touch control panel or the included remote control. Functions include Timer, Fan Speed, Temperature adjustment, Mode selection, and Power On/Off. The remote also features a Sleep mode.

Image: This image displays the unit's touch control panel and the included remote control. The control panel features buttons for Timer, Fan Speed, Temperature Up/Down, Mode (Cool, Dry, Fan), and Power On/Off. The remote control provides similar functions, including Sleep mode.

3.4 Quiet Operation and Sleep Mode

The unit operates at a low noise level of 52 dB, featuring an advanced noise isolation system. The dedicated Sleep Mode further reduces operational noise for undisturbed rest.

Image: This image illustrates the quiet operation of the air conditioner, showing a person sleeping peacefully. The unit operates at 52 dB and features an 'Advanced Noise Isolation System' for quiet cooling and a dedicated Sleep Mode.

4. Maintenance

Regular maintenance ensures optimal performance and air quality. The unit features easy-to-clean filters.

4.1 Filter Cleaning

The air filters should be cleaned regularly, typically every two weeks, or more frequently depending on usage and air quality. To clean:

1. Turn off and unplug the unit.
2. Locate and remove the air filters.
3. Wash the filters with warm, soapy water. Rinse thoroughly.
4. Allow filters to air dry completely before reinserting them into the unit.

Do not operate the unit without the filters installed or if they are wet.

4.2 Draining Water

During dehumidification or in high humidity environments, the unit may collect water. Refer to the full user manual for specific instructions on how to drain the collected water from the unit.

5. Troubleshooting

If you encounter issues with your Garvee portable air conditioner, refer to the following common troubleshooting steps:

- **Unit does not turn on:** Check if the power cord is securely plugged into a working outlet. Ensure the circuit breaker has not tripped. Verify the unit is not in standby mode.
- **Unit is not cooling effectively:** Ensure all windows and doors are closed. Check if the exhaust hose is properly installed and not blocked. Clean the air filters. Verify the selected temperature setting is lower than the room temperature. Ensure the unit is appropriately sized for the room.
- **Water leakage:** Check if the unit is on a level surface. Ensure the drain plug is securely closed, unless continuous draining is set up. If the water tank is full, it may need to be emptied.
- **Unusual noise:** Ensure the unit is on a stable, level surface. Check for any obstructions in the air intake or exhaust vents. Clean the air filters.

For persistent issues, contact customer support.

6. Specifications

Brand	Garvee
Model Number	hje370799Nfh10p9Phw4SglePR4j
Cooling Power	14,000 British Thermal Units
Capacity	1.17 Tons
Special Feature	Dehumidifier
Product Dimensions (D x W x H)	11.22" x 13.19" x 27.48"
Color	White
Voltage	115V
Noise Level	52 Decibels
Item Weight	60.1 Pounds
Annual Energy Consumption	935 Watts
Wattage	935
Included Components	Remote
Controller Type	Remote Control

7. Warranty and Support

7.1 Warranty Information

This product is covered by a 30-day manufacturer's warranty. Please retain your proof of purchase for warranty claims.

7.2 Customer Support

For further assistance, technical support, or warranty inquiries, please contact Garvee customer service. Refer to the product packaging or the official Garvee website for contact details.
