1.2 System Overview

The D1D9 PG-103 is a wireless security system designed for easy DIY installation. It features 4G and WiFi connectivity for reliable alerts and remote control via a smartphone app. The system is expandable and suitable for various applications, including homes, offices, and vacation properties.

2. Setup and Installation

The D1D9 PG-103 system is designed for quick and easy DIY installation without professional assistance.

Image 2.1: Examples of DIY installation in different home areas.

2.1 Main Panel Placement

- Choose a central location in your home or office, away from direct sunlight and moisture.
- Ensure the panel is within WiFi range and has good cellular signal if using a SIM card.
- Mount the panel at a convenient height for access and visibility.

2.2 Power Connection

Connect the provided power adapter to the host panel and plug it into a standard electrical outlet. The system has a built-in backup battery for power outages.

2.3 SIM Card Installation (Optional)

For 4G cellular backup and SMS notifications, insert a compatible 4G SIM card into the designated slot on the host panel. Ensure the SIM card is activated and has sufficient credit/data.

2.4 App Download and Setup
