IRONCK HK-ZHZXST-08

IRONCK 30-Inch Natural Bathroom Vanity with Ceramic Sink

Model: HK-ZHZXST-08

1. Introduction

This manual provides detailed instructions for the assembly, installation, operation, and maintenance of your new IRONCK 30-inch Natural Bathroom Vanity with Ceramic Sink. Please read all instructions carefully before beginning assembly and retain this manual for future reference. Proper installation and care will ensure the longevity and optimal performance of your vanity.

2. Safety Information

- Always wear appropriate safety gear, such as gloves and eye protection, during assembly.
- Ensure all parts are present and undamaged before assembly. Do not proceed if any parts are missing or broken.
- Keep small parts away from children and pets to prevent choking hazards.
- Do not overtighten screws during assembly, as this may damage the material.
- For plumbing connections, it is recommended to consult a qualified plumber to prevent leaks and ensure proper installation.
- The vanity is designed for a maximum countertop load of 200 lbs and each drawer for 30 lbs. Do not exceed these weight limits.
- Ensure the vanity is placed on a level surface to prevent tipping.

3. Package Contents

Before starting assembly, verify that all components listed below are present in your package. Refer to the included parts list for specific hardware quantities.

This image illustrates the components included with your vanity and those that are not.

Included Components:

- Ceramic Sink
- Countertop (integrated with sink)
- Cabinet Frame with Doors and Drawer
- Side Storage Unit
- Assembly Hardware (screws, hinges, drawer slides, handles)

Items Not Included (Required for full installation):

- Faucet
- Drain Assembly
- P-trap and Water Supply Lines
- Mirror

4. Setup and Assembly

Follow these steps for the proper assembly and installation of your bathroom vanity. It is recommended to have two people for assembly.

4.1 Unpacking and Preparation

1. Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify all parts against the parts list provided in your hardware package.
3. Ensure you have the necessary tools: Phillips head screwdriver, adjustable wrench, level, silicone sealant (for sink/countertop).

4.2 Cabinet Assembly

Assemble the main cabinet frame according to the detailed diagrams in your separate assembly guide. Attach hinges to doors and install drawer slides to the drawer and cabinet frame.

4.3 Flexible Side Storage Installation

The side storage unit can be installed on either the left or right side of the main cabinet to suit your bathroom layout.

The side storage unit offers flexible placement on either the left or right side of the main cabinet.

1. Determine your preferred side for the storage unit.
2. Align the side storage unit with the main cabinet and secure it using the provided connectors and screws.

4.4 Ceramic Sink and Countertop Placement

The ceramic sink is integrated into the countertop. Carefully place the countertop onto the assembled cabinet. Apply a bead of silicone sealant around the edges where the countertop meets the cabinet for a secure, moisture-resistant seal.

The premium ceramic sink features pre-drilled 5.5-inch center-set faucet holes and an anti-overflow design.

4.5 Plumbing Connections

1. Install your chosen faucet into the pre-drilled holes on the ceramic sink.
2. Connect the drain assembly to the sink and the P-trap.
3. Connect the hot and cold water supply lines to the faucet and your home's water supply.
4. Turn on the water supply and check for any leaks. Tighten connections as needed.

5. Operating and Usage

Your IRONCK bathroom vanity is designed for practical and comfortable use in your bathroom.

5.1 Ample Storage Space

The vanity offers multiple storage options to keep your bathroom organized:

Various storage compartments including a side cabinet, deep drawer, and main cabinet for bathroom essentials.

- **Main Storage Cabinet:** Located beneath the sink, this area is ideal for larger items and plumbing access.
- **Spacious Drawer:** A smooth-gliding drawer provides convenient access for smaller toiletries and accessories.
- **Flexible Side Storage:** Features 3-tier open shelves and a tall hidden cabinet, perfect for organizing towels, toilet paper, and cleaning tools.

5.2 Ceramic Sink

The integrated ceramic sink provides a generous washing area. The anti-overflow hole design helps prevent water spillage in case of a clogged drain.

5.3 Comfort Height Design

With a height of 34 inches, the vanity is designed to reduce back strain and make daily tasks more comfortable for most users.

The 34-inch height promotes a comfortable user experience.

6. Maintenance

Regular cleaning and proper care will help maintain the appearance and functionality of your vanity.

6.1 Ceramic Sink Care

- Clean the ceramic sink regularly with a soft cloth and mild, non-abrasive cleaner.
- Avoid using harsh chemicals, abrasive pads, or acidic cleaners, as these can damage the ceramic surface.
- Rinse thoroughly after cleaning and wipe dry to prevent water spots.

6.2 Engineered Wood Cabinet Care

- Wipe the cabinet surfaces with a soft, damp cloth. Dry immediately to prevent moisture damage.
- Avoid prolonged exposure to water or high humidity. Although the cabinet has a moisture-resistant finish, excessive moisture can cause damage.

- Do not use abrasive cleaners, solvents, or polishes containing silicone, as these can harm the finish.
- For spills, wipe them up immediately.

7. Troubleshooting

Here are some common issues and their potential solutions:

- **Leaking Faucet/Drain:** Check all plumbing connections for tightness. Ensure thread sealant or plumber's tape was used where appropriate. If leaks persist, consult a plumber.
- **Drawer Sticking/Not Closing Smoothly:** Check if the drawer slides are properly aligned and free of obstructions. Ensure all screws on the slides are securely fastened.
- **Cabinet Doors Not Aligning:** Adjust the hinges on the cabinet doors. Most hinges allow for minor adjustments in multiple directions to achieve proper alignment.
- **Water Spots on Ceramic:** Use a mild descaling solution or a mixture of vinegar and water to remove hard water spots. Rinse thoroughly.
- **Vanity Wobbles:** Ensure the vanity is on a level surface. Use shims if necessary to stabilize the unit.

8. Specifications

Detailed specifications for the IRONCK 30-inch Natural Bathroom Vanity:

L x W x H

30″ x 18.3″ x 34″

Product Size

- Including ceramic Basin
