Haulvean ID08

Haulvean Smartwatch ID08 User Manual

Model: ID08

1. Introduction

Thank you for choosing the Haulvean Smartwatch ID08. This device is designed to enhance your daily life with features like integrated GPS, long-lasting battery, comprehensive health monitoring, and Bluetooth calling. This manual provides essential information for setting up, operating, and maintaining your smartwatch to ensure optimal performance and longevity.

2. What's in the Box

Please check the package contents upon unboxing:

- Haulvean Smartwatch ID08 x 1
- Silicone Straps x 2 (different colors)
- Magnetic Charging Cable x 1
- User Manual x 1

3. Device Overview

Familiarize yourself with the main components of your smartwatch:

- **1.7-inch HD Display:** Touch-sensitive screen for navigation and information display.
- **Power Button:** Typically located on the side, used to turn the watch on/off, wake/sleep the screen, and return to the main watch face.
- **Sport Button:** Quick access to sports modes.
- **Back Button:** Used to go back to the previous screen.
- **Sensors:** Located on the back for heart rate, SpO2, and sleep tracking.
- **Charging Ports:** Magnetic contacts on the back for charging.

4. Setup

4.1. Charging the Smartwatch

Before first use, fully charge your smartwatch.

1. Connect the magnetic charging cable to a USB power adapter (not included) or a computer USB port.
2. Align the magnetic end of the cable with the charging contacts on the back of the smartwatch. It will snap into place.
3. The watch display will show a charging indicator. A full charge typically takes about 3 hours.

4.2. App Installation (FitCloudPro)

To unlock all features and synchronize data, download the companion app:

1. Scan the QR code in the manual or on the watch screen (if available) or search for **"FitCloudPro"** in the Apple App Store (for iOS) or Google Play Store (for Android).
2. Download and install the app on your smartphone.
3. Follow the on-screen instructions to create an account and set up your profile.

4.3. Pairing the Smartwatch with Your Phone

Ensure your phone's Bluetooth is enabled.

1. Open the **FitCloudPro** app on your smartphone.
2. Navigate to the "Device" or "Add Device" section within the app.
3. The app will search for nearby devices. Select **"ID08"** from the list of found devices.
4. Confirm the pairing request on both your phone and the smartwatch if prompted.
5. For Bluetooth calling functionality, you may need to pair the watch separately in your phone's Bluetooth settings (look for "ID08_CALL" or similar).

Image: A visual guide demonstrating the pairing process for both iOS and Android devices.

5. Operating Instructions

5.1. Basic Navigation

- **Swipe Up/Down:** Scroll through menus or notifications.
- **Swipe Left/Right:** Access quick functions or different data screens (e.g., heart rate, weather).
- **Tap:** Select an item or open an application.
- **Press Power Button:** Return to the main watch face or wake/sleep the screen.

5.2. Making and Receiving Calls

Once paired for Bluetooth calls:

- **Making Calls:** Access the dial pad or contact list on the watch to initiate a call.
- **Receiving Calls:** When a call comes in, the watch will display the caller ID. Tap the green icon to answer or the red icon to reject.

Image: The smartwatch displaying its Bluetooth call interface, AI voice assistant, and various app notifications.

5.3. Sports Modes

The smartwatch supports over 100 sports modes. Select your activity to track metrics like steps, distance, calories burned, and heart rate.

- Press the Sport button or navigate to the Sports menu.
- Select your desired activity (e.g., running, cycling, hiking).
- The watch will start recording your activity.
- End the activity by following the on-screen prompts.

Image: The smartwatch interface showing a selection of its 100+ sports modes, with activity tracking metrics.

5.4. Health Monitoring

The watch continuously monitors your health data:

- **Heart Rate:** Real-time heart rate tracking.
- **Blood Oxygen (SpO2):** Measures blood oxygen saturation levels.
- **Sleep Tracking:** Monitors sleep stages (deep, light, awake time) and provides sleep quality analysis.

View detailed historical data in the FitCloudPro app.

Image: The smartwatch showing various health metrics like blood oxygen, heart rate, and sleep patterns.

5.5. GPS Functionality

The integrated GPS tracks your outdoor activities and routes accurately. View your routes and activity maps in the FitCloudPro app after synchronization.

5.6. LED Flashlight

Activate the built-in LED flashlight for convenience in low-light conditions. This feature is useful for outdoor activities or finding items in the dark.

5.7. Smart Notifications

Receive notifications for calls, messages, and app alerts directly on your wrist. Configure which app notifications you want to receive through the FitCloudPro app.

5.8. AI Voice Assistant

Interact with your phone's voice assistant (Siri, Google Assistant) directly from your smartwatch for hands-free control.

5.9. Custom Watch Faces

Personalize your smartwatch with over 100 available watch faces. You can also upload your own photos as watch faces via the FitCloudPro app.

Image: A collage showing diverse watch face options and other integrated features like camera control, stopwatch, and music playback.

5.10. Other Features

- **Music Control:** Play, pause, skip tracks on your phone.
- **Camera Control:** Remotely trigger your phone's camera shutter.
- **Alarm Clock:** Set alarms directly from the watch.
- **Calculator:** Basic arithmetic functions.
- **Weather:** View current weather conditions and forecast.
- **Find Phone:** Locate your paired smartphone.
- **Sedentary Reminder:** Get alerts to move after periods of inactivity.

6. Maintenance

6.1. Cleaning

- Wipe the watch and straps regularly with a soft, dry, lint-free cloth.
- For stubborn dirt, use a slightly damp cloth and then dry thoroughly.
- Avoid using harsh chemicals, abrasive cleaners, or solvents.

6.2. Water Resistance (IP68)

The Haulvean Smartwatch ID08 is IP68 waterproof, meaning it can withstand dust, splashes, and submersion up to 1.5 meters for 30 minutes. It is suitable for daily use, hand washing, and light rain. However, it is not recommended for hot showers, sauna, diving, or high-pressure water activities, as steam and high water pressure can compromise the seals.

6.3. Battery Care

- Avoid extreme temperatures (hot or cold) as they can affect battery life.

- Do not leave the watch fully discharged for extended periods.
- Use only the provided magnetic charging cable.

7. Troubleshooting

- **Watch won't turn on:** Ensure it is fully charged. Connect to the charger for at least 30 minutes.
- **Cannot pair with phone:**
  - Ensure Bluetooth is enabled on your phone.
  - Make sure the watch is within range of your phone.
  - Restart both your phone and the smartwatch.
  - Clear Bluetooth cache on your phone (Android).
  - Forget the device in your phone's Bluetooth settings and try pairing again.
- **Notifications not received:**
  - Ensure the watch is connected to the app.
  - Check notification permissions for the FitCloudPro app in your phone settings.
  - Enable app notifications within the FitCloudPro app settings.
  - Ensure your phone's Do Not Disturb mode is off.
- **Inaccurate health data:**
  - Ensure the watch is worn snugly on your wrist, not too tight or too loose.
  - Keep the sensor area clean.
  - Note that smartwatches are not medical devices and data is for reference only.
- **Short battery life:**
  - Reduce screen brightness.
  - Disable continuous heart rate monitoring if not needed.
  - Limit frequent screen wake-ups.
  - Ensure the watch is fully charged.

8. Specifications

Model	ID08
Display	1.7-inch HD, 360x360 Resolution
