Important safety instruction

Please read the instructions carefully before first use and keep for future reference.
Please pay attention to all warnings on the product.
Do not place or install this product in a place that is subject to direct sunlight or other sources of heat.
Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
To reduce the risk of fire and shock, do not expose this product to rain or moisture.
Do not place any sources of naked flame on the product, such as lighted candles.
Do not place any liquid containing objects on the product to avoid liquid spillage into the product.
Do not use or install this product near water, for example, near a bathtub, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool.
Do not clean with abrasive cleaning agents.
Do not block any ventilation openings. Do not install near any heat sources such as radiators, heat registers, stoves, or other products (including amplifiers) that produce heat.
Only allow adequate spacing between the product and other equipment to ensure good ventilation.
Only use attachments/accessories specified by the manufacturer.
Unplug this product during lightning storms or when unused for extended periods of time.
Refer all servicing to qualified service personnel. Servicing is required when the product has been damaged in any way, such as power-supply cord or plug is damaged, liquid has spilled onto or objects have fallen into the product, the product has been exposed to rain or moisture, does not operate normally, or has been dropped.
Do not dispose of this product improperly. Improper disposal may be harmful to the environment and human health.
Do not use the product for other purposes than those described in this manual.
Do not use the product if it is damaged. Do not attempt to disassemble, repair or modify the product.
Do not place the product in an unstable location. Ensure that the product is placed on a level surface.
Do not place the product in a location that is subject to vibration.
Do not place the product in a location that is subject to extreme temperatures (cold or heat), dust or humidity.
Do not place the product in a location that is subject to high humidity, such as a bathroom, a laundry room or a sauna.
Do not place the product in a location that is subject to high temperature, such as a heater or a stove.
Do not place the product in a location that is subject to high dust levels.
Do not place the product in a location that is subject to high humidity.
Do not place the product in a location that is subject to high temperature
