Mounting Options

Adjustable Angle Mounting Bracket

ACC-0794 The ACC-0794 adjustable angle bracket is designed for fast, easy mounting and allows you to choose your mounting angle (10° or 15°).

15° Quick Mount Wall Bracket

ACC-0793 Quickly and easily mount the device to a wall or another flush surface at a 15° backward tilt. The bracket includes kiosk mounting hardware. A locking mechanism is also included with this bracket.

Important!!! Power Options

The Firebird can utilize two power sources: An external DC power supply or Power-over-Ethernet.

Internal Power-over-Ethernet Supply

The unit can be powered via category 5 networking cable when used with an 802.3af compatible power injector or switch. Both network traffic and power can be sent via the same category 5 wire.

External Power Supply, 5VDC, 4A

WARNING: Using power supplies that are not supplied by AML for use with the Firebird unit can cause damages to the unit and WILL void all warranties. (AML Part: PWR-7150)

StoreScan

AML's StoreScan price-checking software is a simple, yet powerful application that allows retailers of all types and sizes to offer the convenience of price verification to their customers. Eliminate the frustration of missing or incorrect pricing by offering easy, self-service functionality using any of the AML Kiosks. Checking the price of a product has never been easier.

Support & Repair Services

AML Technical Support Team

AML technical phone support is toll-free and pain-free. Speak with a US-based AML employee trained to answer your question and do everything possible to resolve any issues that might arise. 877-842-3990 Mon-Fri 8:00 to 5:00 CST. If your Firebird Kiosk is in need of repairs, you may request an RMA number (Return Material Authorization) by calling 877-842-3990, between 8:00 am and 5:00 pm, (CST) Monday-Fri day. You may also request an RMA number online at: <https://www.amltd.com/RMA-Request>

Warranty

Extended Warranty Plus, 3-year, Firebird

Sanitizing Your Device

The best way to clean and sanitize your AML mobile computer or kiosk is to use a diluted solution of three-parts water and one-part rubbing alcohol. Rubbing alcohol is a diluted form of isopropyl alcohol. It typically contains 70% isopropyl alcohol with the balance consisting of other denaturants. Do not use full-strength isopropyl alcohol. Apply the solution to a soft cloth first, and then wipe all surfaces of the device.
