	On indicates audio boost is on (earpiece of handset will be louder).
	Flashes when phonebook is being accessed.
	Flashes when redial list is being accessed.

Hearing Aid Compatibility:

- Special feature which helps to eliminate background noise and interference when you use this telephone with a hearing aid.

2. PRECAUTIONS

The signal quality will depend on the location and environment of the base and handset.

Position your Big Tel 1580 / 1582 / 1583 away from sources of excessive heat (radiators, direct sunlight, etc.) and protect it from vibrations and dust. Never allow your telephone to come into contact with water or other liquids, or with aerosols. To reduce the risk of interference and optimize reception, take particular care not to install the base in the immediate vicinity of windows, large metal objects, reinforced concrete, televisions, music centres, halogen lamps or heating devices, fluorescent lighting, burglar alarms, microwave ovens, computers, etc.

This telephone requires an electrical power supply in order to function. To clean your Big Tel 1580 / 1582 / 1583 use an antistatic cloth lightly moistened with water.

3. INSTALLING YOUR PHONE

3.1. Connecting the Base Station

1. Plug one end of the telephone line cord into the telephone jack on base bottom.
2. Plug the small end of power adapter into a power jack on base bottom.
3. Plug the large end of power adapter into a wall power outlet.
4. Plug the other end of the telephone line cord in to the telephone jack or micro-filter.

5. Always use the cables provided in the box.
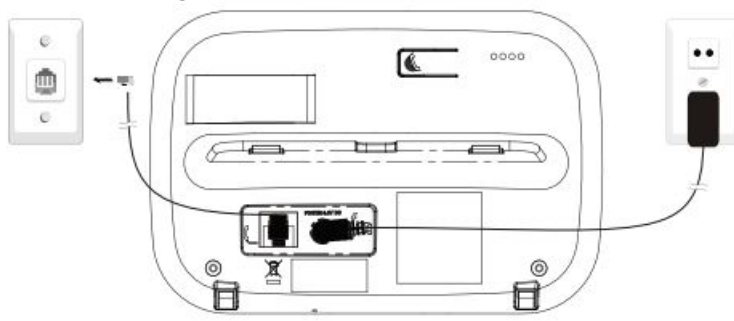

If you have broadband service, a micro-filter(not included) is required.

3.2. Installing and Charging the Batteries

1. Slide down to open the battery compartment cover.
2. Place the 2 batteries as indicated. Pay extra attention to direction of Respect polarity.
3. Slide the battery compartment cover back.
4. Put the handset on the base and charge for 8 hours before using the handset for the first time. The handset will give a beep when it is properly placed on the base or charger.

Notes:

1. Use only NiMH rechargeable batteries.
2. If the handset will not be used for a long time, disconnect and remove the batteries to prevent possible leakage.
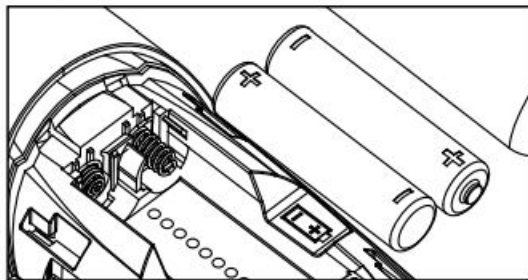

3.3. Connecting the Charger(s) (for Duo/Trio models)

Plug the power adapter into a 230Vac, 50Hz mains socket.
After first time power up (base unit is connected to AC mains), welcome mode (country) will appear on the screen:
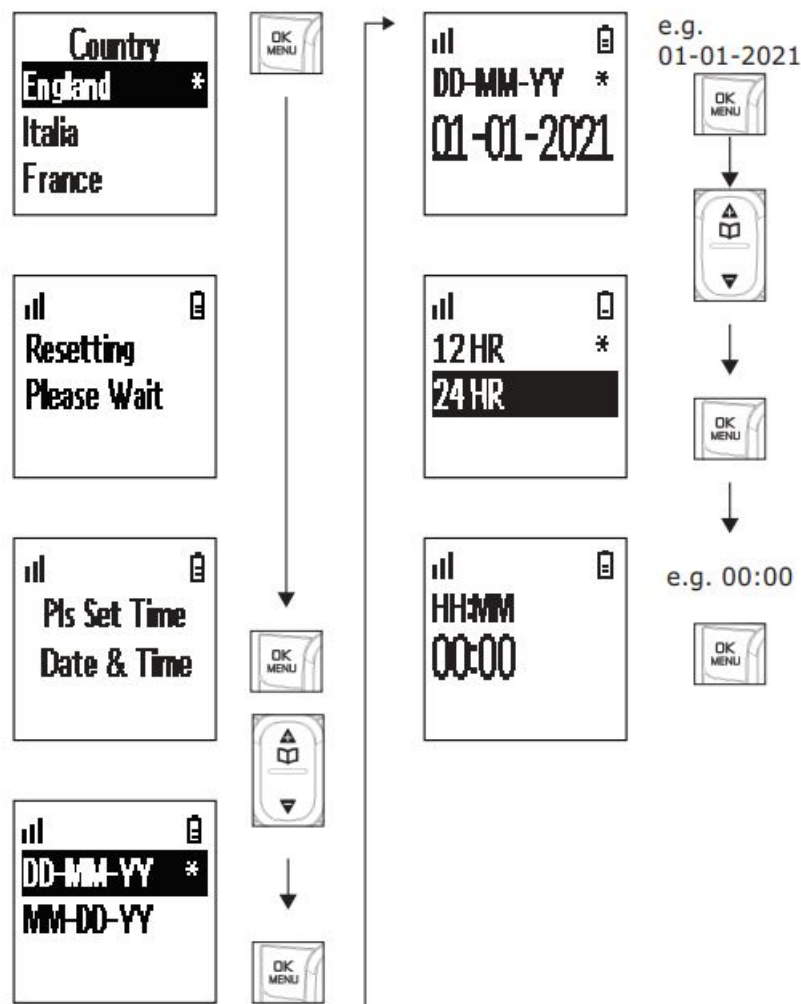

Note: For Duo or Trio versions, all you have to do is configure a single handset, the other handset (s) will be automatically set identically.

Change language (Handset)

1. Press OK MENU on the handset in idle mode.

2. Press ▲ or ▼ to select "**HS Settings**"(1), then press OK MENU .

4. USING YOUR PHONE

4.1. Make a Call

4.1.1. Preparatory Dialing

Enter the phone number and press 📞 to dial the number. Press ⌫ to clear the entry.

4.1.2. Direct Dialing

Press 📞 to take the line and enter the phone number.

4.1.3. Dial from Direct Memory Keys

In idle or off hook mode, Press M1, M2 or M3 to dial the stored number.
Press and hold to dial the direct memory number. You have to store number to the related key first. See section 8.3 for reference.

4.1.4. Call from the Redial List

Press and * hold to access the redial list and press ▲/▼ to select the desired redial number.

Press 📞 to dial out to the selected redial number.

4.1.5. Adjust Earpiece and Handsfree Volume

There are 5 levels (Volume 1 to Volume 5) to choose from for each of earpiece and handsfree volume.

During a call: Press ▲/▼ to select volume 1-5. The current setting is shown. When you end the call, the setting will remain at the last selected level. The current volume is displayed on the screen. When you end the call, the new volume setting sound remains valid for subsequent calls.
For the sound level of the handset, if this is not loud enough, press , the audio boost will be activated (+15dB). To turn off audio boost, press again the key .

5. PRIVATE PHONEBOOK

Your phone can store up to 100 private phonebook entries with names and numbers. Each phonebook entry can have a maximum of 24 digits for the phone number and 12 characters for the name. You can also select different ringtones for your phonebook entries. Phonebook entries are stored alphabetically by name.

5.1. Add a New Phonebook Entry

In idle:
1.	Press 📱 to access the phonebook. OR
	Press OK/MENU and 📱 / ▼ to select **Phonebook** main menu item and then press OK/MENU to access the phonebook.
2.	Press OK/MENU to select **Add New**.
3.	Press OK/MENU to enter the name.
4.	Press OK/MENU to enter the number.
5.	Press OK/MENU and 📱 / ▼ to select the desired ringtone for your phonebook entry.
6.	Press OK/MENU to confirm the melody.
7.	Press 📱 / ▼ to select VIP X or VIP √.
8.	Press OK/MENU to confirm to save it as normal contact list (VIP X) or save it in VIP list (VIP √).

Note: ! appears in the end of name of VIP entry.

5.2. Call from the Phonebook

In idle:

In idle:
1.	Press 📱 to access the phonebook. OR
	Press OK/MENU and 📱 / ▼ to select **Phonebook** main menu item and then press OK/MENU to access the phonebook.
2.	Press 📞 to dial out to the selected phonebook entry. Phonebook is stored in base unit which is shared with duo, trio handsets.

6. CALLER DISPLAY (NETWORK DEPENDENT)*

This feature* is available if you have subscribed the Caller Line Identification service with your telephone service provider. Your phone can store up to 50 received calls with date/time information in the Call List. The number will be shown on the LCD when the phone is ringing. If the caller number is disabled to send caller information, "Withheld" will display. If the caller number is not provided, "Out of Area" will display. In standby, if three unanswered calls are received, "3 New Calls" will be displayed.

6.1. View the Call List

All received calls are saved in Call List with the latest call putting at the top of the list. When the call list is full, the oldest call will be replaced by a new call. The unanswered call which has not been read is marked with 📞 .

1. Press and hold **#** key. OR
    Press $\frac{OK}{MENU}$ and $\frac{\triangle}{\square}$ / $\blacktriangledown$ to select **Call list**, press .
2. Press $\frac{\triangle}{\square}$ / $\blacktriangledown$ to select the desired entry.

6.2. Call from the Call List

In idle:
1. Press and hold **#** key. OR
    Press and $\frac{\triangle}{\square}$ / $\blacktriangledown$ to select Call list, press $\frac{OK}{MENU}$.
2. Press 📞 to dial out to the selected phonebook entry.

7. REDIAL THE LAST NUMBER

You can redial up to 10 of the last numbers called.
In idle mode, press and hold ✱ key to access the redial list.
1. Press $\frac{\triangle}{\square}$ / $\blacktriangledown$ to browse the redial list.
2. Press 📞 to dial the selected redial number.

8. PHONE SETTING

8.1. Set the Ringer Melody for Internal/External Calls

1. Press $\frac{OK}{MENU}$ and $\frac{\triangle}{\square}$ / $\blacktriangledown$ to select **HS Settings**.
2. Press $\frac{OK}{MENU}$ and $\frac{\triangle}{\square}$ / $\blacktriangledown$ to select **Ring Setup**.
3. Press $\frac{OK}{MENU}$ and $\frac{\triangle}{\square}$ / $\blacktriangledown$ to select **Int Ring** or **Ext Ring**.
4. Press $\frac{OK}{MENU}$ and $\frac{\triangle}{\square}$ / $\blacktriangledown$ to select the desired ringer melody from the melody list.
Note: The respective ringer melody will be played while browsing the melody list.
5. Press $\frac{OK}{MENU}$ to confirm.

8.2. Set the Ringer Volume

1. Press OK/MENU and ▲/▼ to select **HS Settings**.
2. Press OK/MENU and ▲/▼ to select **Ring Setup**.
3. Press OK/MENU and ▲/▼ to select **Ring Volume**.
4. Press OK/MENU and ▲/▼ to select the desired ringer volume (a total of 6 ringer volume levels including OFF).

Note: The respective ringer volume will be played during your selection. If OFF is selected, 🔔 icon will display.

5. Press OK/MENU to confirm.

8.3. Set the Speed Dial

1. Press OK/MENU and ▲ or ▼ to select **Direct Mem**.
2. Press , and then press the memory key **M1 / M2 / M3 / 1 / 2 / 3** .

For **M1/M2/M3**:
1. Press OK/MENU to input name.
2. Press OK/MENU to enter number.
3. Press OK/MENU to browse the melody list, and then press to confirm the melody,
4. Press ▲ or ▼ to select **VIP X** or **VIP √**.
5. Press OK/MENU to confirm to save it as normal contact list (VIP X) or save it in VIP list (VIP √).

For 1 / 2 / 3 :
1. Press OK/MENU to input number, and then press to confirm.

8.4. Set handset Settings

1. In standby mode, press the menu key .
2. Select HS Settings and press .

- **Display:** Select Contrast and set the desired contrast or
- select Rename HS and change the name for the handset if necessary.
- **Date & Time:** Select Date & Time and set Date Format, Time Format and Set Time/Date.
- **Tone Setup:** Select Tone Setup and set on or off in Key Tone, Battery Tone or Out of Range.
- **Language:** Select the setting for the on-screen language.
- **Automatic answer:** If this function is activated, an incoming call is accepted directly when removing the handset from the base station, you do not need to press any button.
- **Reset phone:** Select Default, you can reset the system to its factory default state. Enter the PIN (default "0000") and confirm the security question with .
- **Equalizer:** This function allows you to modify the sound quality of the handset. During the call, press the menu key
- Select Normal, Bass or Treble and press to save the setting.

8.5. Set Base

1. In standby mode, press the menu key .
2. Select BS Settings and press .

- Dial mode: Select Tone or Pulse. The normal dialing procedure for analog connections is "Tone" (tone dialing). When operating with certain older telephone systems the dialing procedure should be changed to "Pulse" (decadic pulse dialing).
- Delete HS: Enter the PIN of the base station and select the handset you want to delete. Confirm the security question with .
- Flash duration: Choose 100 ms, 270 ms or 600 ms. In order to use the network performance characteristics, a certain flash signal with a certain length is required.
- Change PIN: Select Change PIN?, and enter Old PIN, press , and then enter New PIN, press to confirm.
- Eco Mode: Select On or Off and press .

9. ANSWERING MACHINE

Your phone includes a telephone answering machine that records unanswered calls when it is on. The LED message counter (two digits seven segment display) on the base will show the number of the messages when the answering machine is on. The answering machine can store up to 59 messages within the maximum recording time of approximately 30 minutes. As well as recording incoming messages, you can record memos for other users of your phone. If the answering machine memory is full, the Handset will display Memory Full and the handset name alternatively in standby, or display Memory Full and the date/time information in standby.

9.1. Turn On/Off the Answering Machine

You can turn on or off the answering machine through the base or handset. When the answering machine is set to On, calls will be answered after the set answer delay and the caller can then leave you a message. When the answering machine is set to Off, calls will be answered after 12 rings and the answer only message will be played to your callers. They will not be able to leave you a message.
Through the Base:

1. Press ⏻ on the base station.
   - If answering machine is set to **On**, 🔳 displays on the handset LCD and the 7-seg LED on the base station will display the number of incoming messages.
   - If answering machine is set to **Off**, 🔳 will disappear from the handset LCD and the 7-seg LED on the base station will display - -.

Through the Handset:
1. Press ᴹᴱⁿᵁ^(OK) and △/▽ to select **Ans. Machine**.
2. Press ᴹᴱⁿᵁ^(OK) and △/▽ to select **Tam On/Off**.
3. Press ᴹᴱⁿᵁ^(OK) and △/▽ to select **On** or **Off**.
4. Press ᴹᴱⁿᵁ^(OK) to confirm.
   - If answering machine is set to **On**, 🔳 displays on the handset LCD and the 7-seg LED on the base station will display the number of incoming messages.
   - If answering machine is set to **Off**, 🔳 will disappear from the handset LCD and the 7-seg LED on the base station will display - -.

9.2. Listen to the Messages in the Answering Machine

When new messages are recorded on the answering machine, flashes on the handset display and the message counter on base flashes with the number of new messages in the answering machine until all the new messages are played. Old messages will be played after all new messages are played completely.

Listen new messages through the Base:

1. Press ▶■ on the base station.
2. The new messages are played from the loudspeaker on the base station in the sequence they are recorded.
3. Press ⛫ or ▼ on the base station to increase or decrease the volume during message playback respectively.

Note: If there are no new messages, "00" will display steadily in the message counter on the base. Press ▶■ will have no effect and an alert tone is emitted.

Listen new messages through the Handset:

1. Press $\underset{\text{MENU}}{\text{OK}}$ and $\underset{\square}{\blacktriangle}$ / $\blacktriangledown$ to select **Ans. Machine**.
2. Press $\underset{\text{MENU}}{\text{OK}}$ and $\underset{\square}{\blacktriangle}$ / $\blacktriangledown$ to select **Msg Playback**.
3. Press $\underset{\text{MENU}}{\text{OK}}$ to start message playback and the screen displays the date and time information of the message received.

For 1580 / 1582 / 1583, listen messages through the handset earpiece. For 1580 / 1582 / 1583, listen messages through the handset speaker by default or earpiece by pressing $\diagdown_{\blacktriangleleft}$ to toggle between handset speakerphone and earpiece for listening the messages.

Note: $\maltese$ is placed at the centre of the bottom of the LCD to indicate that it is a new message.

If this message has been read or listened, the $\maltese$ will disappear and will be reflected next time when you listen to this message again.

Note: If there are no new & old messages, "00" will display steadily in the message counter on the base.

Press $\underset{\text{MENU}}{\text{OK}}$ to display "00--00 00--00" and return back to **Ans. Machine** menu.

4. During message playback, press $\underset{\square}{\blacktriangle}$ or $\blacktriangledown$ to increase or decrease the message playback volume respectively.

Note: After new message is played, the new message will be saved as an old message automatically unless it is deleted.

5. Press $\underset{\text{MENU}}{\text{OK}}$ to select **Stop, Forward, Previous, Delete** to perform the following functions during message playback.

Stop: Stop the current message playback and return to the **Ans. Machine** menu.

Forward: Skip to play the next message. The date and time information of the next message ill display if there is next message.

Previous: Skip to repeat playing the current message from the beginning. The date and time information of the current message will display.

Delete: Delete the current message and the next message will be played.

Note: Alternatively, you can use the following shortcut keys to control different operation during message playback.

Press 5 to stop message playback.

Press 4 to skip to repeat playing the current message from the beginning.

Press 4 to twice to skip backward to the previous message.

Press 6 to skip to play next message.

Press 2 to delete the current message playback.

6. Press $\underset{\text{MENU}}{\text{OK}}$ to confirm.

9.3. Delete All Messages in the Answering Machine Delete all messages through the Base:

In idle:

1. Press and hold on the base station.
2. All the old messages will be deleted.

   Note: New messages will not be deleted. If there are no more messages in the answering machine, "00" will display on the base station.

Delete all messages through the Handset:

1. Press and $\underset{\square}{\blacktriangle}$ / $\blacktriangledown$ to select Ans. Machine.

2. Press and ![up/book] /▼ to select Delete All.

3. Press to confirm.

4. Press to delete all old messages.

Note: If there are no more messages in the answering machine, Empty will display and return back to Ans. Machine menu.

9.4. Record Memo

You can record your memo message for another user. When you record a memo, the message counter will increase by one and the message can be played back in the same way as answering machine messages. Memo recording can still function even when the answering machine is turned off.

1. Press ok/menu and ![up/book] /▼ to select Ans. Machine.

2. Press ok/menu and ![up/book] /▼ to select Memo.

3. Press ok/menu to start memo recording and Recording is displayed.

4. Press to stop memo recording and save the memo.

   OR

5. Press ![phone] C to stop memo recording without saving and return back to Ans. Machine menu.

9.5. Answering Machine Settings

You can use the Tam Settings menu through the handset to change the settings of your answering machine.

9.5.1. Set the Answer Mode

1. Press OK/MENU and ▲/▼ to select **Ans. Machine**.
2. Press OK/MENU and ▲/▼ to select **Tam Settings**.
3. Press OK/MENU and ▲/▼ to select **Answer Mode**.
4. Press OK/MENU and ▲/▼ to select **Ans & Rec** or **Answer Only**.
5. Press OK/MENU to confirm.

9.5.2. Set the Outgoing Message Language

1. Press OK/MENU and ▲/▼ to select **Ans. Machine**.
2. Press OK/MENU and ▲/▼ to select **Tam Settings**.
3. Press OK/MENU and ▲/▼ to select **Tam Language**.
4. Press OK/MENU and ▲/▼ your desired OGM language.
5. Press OK/MENU to confirm.

9.5.3. Record Your Own Outgoing Message (OGM)

You can record your own OGM for **Ans & Rec** mode or **Answer Only** mode. When you record your own OGM, it will be used when the answering machine answers the call. If your personalized OGM is deleted, the pre-set OGM will be restored automatically.

1. Press **OK/MENU** and △ / ▽ to select **Ans. Machine**.
2. Press **OK/MENU** and △ / ▽ to select **Tam Settings**.
3. Press **OK/MENU** and △ / ▽ to select **OGM Settings**.
4. Press **OK/MENU** and △ / ▽ to select **Ans & Rec** or **Answer Only**.
5. Press **OK/MENU** and △ / ▽ to select **Record Mess**.
6. Press **OK/MENU** to start recording your personalized OGM and "**Recording**" is displayed on the screen.
7. Press **OK/MENU** to stop and save your personalized OGM.
    Your newly saved OGM will playback automatically. Alternatively, press 📞 to return to previous screen without saving the personalized OGM.

9.5.4. Playback and Delete the Outgoing Message (OGM)

You can playback your own personalized OGM or the pre-set OGM for Ans & Rec mode or Answer Only mode and choose to delete your personalized OGM during playback and record a new one whenever you want. Please note that pre-set OGM cannot be deleted.

9.5.4.1. Playback the OGM

1. Press **OK/MENU** and △ / ▽ to select **Ans. Machine**.
2. Press **OK/MENU** and △ / ▽ to select **Tam Settings**.
3. Press **OK/MENU** and △ / ▽ to select **OGM Settings**.
4. Press **OK/MENU** and △ / ▽ to select **Ans & Rec** or **Answer Only**.
5. Press **OK/MENU** and △ / ▽ to select **Playback**.
6. Press **OK/MENU** to playback your personalized OGM (if you have recorded a personalized OGM before) and "**Playing OGM**" is displayed on the screen.
7. Press **OK/MENU** to stop the OGM playback and return to the previous menu.

Note: If a personalized OGM is not recorded before, the pre-set OGM will be played.

9.5.4.2. Delete the personalized OGM

1. Repeat Steps 1 to 6 in Section 9.5.4.1

2. Press 📞 to delete your personalized OGM and return to previous menu and the pre-set OGM is restored automatically.

Note: If pre-set OGM is playing, you are not allowed to delete the pre-set OGM and thus 📞 will not display. Only will display.

9.5.5. Set the Answer Delay

You can set the number of rings before the answering machine answers and starts playing your OGM. You can set the answering machine to answer after two to ten rings.

1. Press **OK/MENU** and ▲/▼ to to select **Ans. Machine**.
2. Press **OK/MENU** and ▲/▼ to to select **Tam Settings**.
3. Press **OK/MENU** and ▲/▼ to to select **Answer Delay**
   (Available options: **2 Rings**, **4 Rings**, **6 Rings**, **8 Rings** or **10 Rings**).
4. Press **OK/MENU** and ▲/▼ to to select **Ans & Rec** or **Answer Only**.
5. Press **OK/MENU** and ▲/▼ to to select your desired answer delay.
6. Press **OK/MENU** to confirm.

10. REGISTRATION

Your handset and base station is pre-registered.
Up to 4 handsets can be registered to a single base station.
If for some reason, the handset is not registered to the base station 📶 flashes even when the handset is near the base station).

1. Press and hold 📞 on the base station for about five seconds, the base station is entered into registration mode.
2. Press **OK/MENU** and ▲/▼ to select Registration.
3. Press **OK/MENU** and select the destination base you would like to register to.
4. Press **OK/MENU** and you are requested to enter the 4-digit system PIN. Enter the 4-digit system PIN (default PIN is 0000).
5. Press **OK/MENU** to confirm.

If the handset registration is successful, you will hear a confirmation tone and the 📶 will stop flashing.
If the handset registration is unsuccessful, the 📶 will still flash.

11. CALL BLOCK

This telephone is built-in with Smart Call Block feature*. This feature will help you avoid nuisance calls by only allowing some numbers to make your phone ring. Default setting of Smart Call Block in this telephone is OFF but you can enable it via your phone settings, as explained in the following paragraphs. *This feature requires a subscription of Caller Line Identification service from your telephone service provider.

CALL BLOCK OVERVIEW

Einstellung	Explanations
Off	Call Block function (Block all call with numbers) is Disabled. This is the default mode.
On	Call Block function is set to Manual. Numbers registered in the black list will not go through and the phone will ring silently. Numbers can be added to the list while the phone is ringing and / or after a call(to enable, see part 11.1).
Contacts	In this automatic mode, any number not registered to your phonebook will be automatically be blocked and not cause your phone to ring. All calls from contacts registered to your phonebook will proceed normally. When this mode is chosen, Contacts OK is displayed on LCD in idle mode unless you have unread messages/missed calls (to enable, see part 11.2.2).
VIPS	In this second automatic mode, only calls from contacts registered as VIP in your phonebook will go through and cause your phone to ring. Any other number will not ring. When this mode is chosen, VIPS OK is displayed on the LCD in idle mode unless you have unread messages / missed calls (to enable, see part 11.2.1).
Anonymous	This extra feature allows you to block call that do not have a number attached to them (ie private calls, international calls, etc). This option can be enabled on top of any of the previous four (to enable, see part 11.3).

11.1. Manual call block mode

Manual call block is the easiest option when starting out. When you chose ON in the call block settings, all calling numbers registered in your blacklist will be blocked. You can add/remove numbers from that list at any time.

How to block an incoming call:
When the phone is ringing and before answering, press . It will terminate the call and offer you the option to register the number to the blacklist in one click.
Then to confirm the registration of this number in the blacklist, press . IMPORTANT: if you don't confirm, the number will not be added to the blacklist and the next call will go through normally.

11.1.1. Enable MANUAL mode
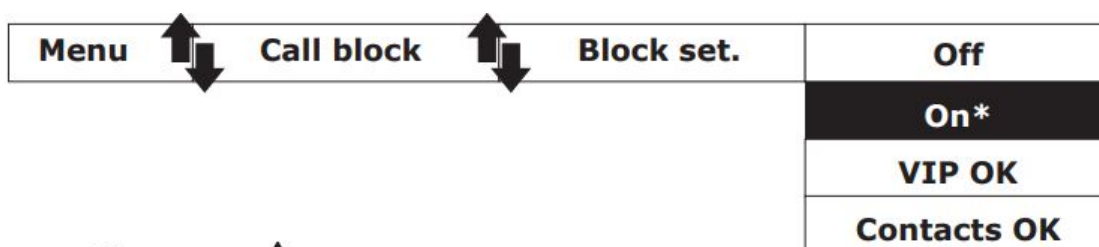

Menu		Call block		Block set.	Off
					On*
					VIP OK
					Contacts OK

1. Press $^{OK}_{MENU}$, press ⬆ or ▼ to select **Call Block**.
2. Press $^{OK}_{MENU}$, press ⬆ or ▼ to select **Block set**.
3. Press $^{OK}_{MENU}$, press ⬆ or ▼ to select **ON** (manual mode). Or

In idle mode, press 🛡 to access Block set. directly. After you enable this option, the call block icon 🛡 will be displayed on the LCD.

Operating Temperature	From 5°C to 40°C

* Values may vary according to environment.
** Depending on initial battery charge.

13. TROUBLESHOOTING

If you have difficulty with your phone, please try the suggestions listed below. As a general rule, if a problem occurs, remove the batteries from all the handsets in your installation for about 1 minute, then disconnect and reconnect the power supply to the base and reinstall the handset batteries.

Problem	Cause	Solutions
No dialing tone when pressing 📞 key	a. The connection cord of the base station is not plugged in. b. The adapter cord is not plugged in correctly in the base station. c. The line is busy, as another handset is used.	a. Check the connections. Unplug and plug back in the mains. Check that the telephone line cord has been plugged into the base station and the phone socket. b. Check the base station plug and the 220V plug (remove and plug-in). c. Use the original connection cord.
Out Of Range is displayed.	a. Base station out of range. b. Base station not connected to mains.	a. Reduce the range. b. Connect base station to mains.
The call does not work.	Service not activated or wrong operator or wrong setting	Check your Subscription with network.
No display.	Empty battery	Recharge battery
Answering Machine		
The unit does not record new messages.	The answering machine may be turned off.	Turn on the answering machine.
The caller cannot leave a message.	a. The answering machine may be turned off. b. Message memory may be full.	a. Turn on the answering machine. b. Erase unnecessary messages.
Problem	**Cause**	**Solutions**
I cannot operate the answering machine remotely.	a. You may be entering the wrong remote access code. b. You may be pressing the dial keys too quickly. c. The answering machine may be turned off. d. You may be using a pulse telephone.	a. If you forget the remote access code, reset to the default settings. b. Press each key firmly. c. Turn on the answering machine. d. Try again using a touch tone phone.
While recording an outgoing message or listening to messages, the unit rings and recording stops.	Probably a call is being received.	Answer the incoming call and try again to record your outgoing message later.

14. SAFETY

This telephone is not designed for Emergency calls when the main power fails. Do not use your telephone to notify a gas leak or other potential explosion hazard. Do not open your device or its power supply to avoid risk of electrical shock. Do not attempt to open the batteries, as they contain hazardous chemical substances. Your telephone must be located in a dry place away from hot, humide and direct sunlight condition. To avoid radio signal interference, place the phone at least 1 meter away from other electrical appliances or other phones.

15. ENVIRONMENT

This symbol means that your inoperative electronic appliance must be collected separately and not mixed with the household waste. The European Union has implemented a specific collection and recycling system for which producers are responsible.

Help us protect the environment in which we live!
