- **Configuration Requirements:** 2.4GHZ Intel Core2 Duo Processor or higher, 2GB of RAM or higher, USB2.0 port (USB3.0 is required for 4K products)

## Product Usage Instructions

1. Connect the Stream Webcam to your computer, TV Box, or other compatible devices using the USB2.0 port.
2. If using a USB3.0 port, make sure it is available for 4K products.
3. Ensure that your operating system meets the compatibility requirements mentioned above.
4. Install any necessary drivers or software provided by the manufacturer.
5. Open your preferred video streaming or communication application (e.g., ZOOM, Skype, FaceTime, Hangouts, etc.).
6. Adjust the webcam's angle and position to capture the desired view.
7. If needed, adjust the beauty light settings to achieve the desired level of brightness.
8. You can now start streaming or engaging in video calls with the Stream Webcam.

**Note:** For specific instructions on using the webcam with different applications or operating systems, refer to the respective user manuals or documentation provided by the application/OS developers.
