Anlapus ASP-3004B1-B BNC Video/Power Extension Cables

Product Information

Specifications:

- **Product Name:** BNC Video/Power Extension Cables
- **Compatibility:** Suitable for BNC video and power connections
- **Length:** Various lengths are available (refer to product options)
- **Material:** High-quality insulated wiring
- **Colour:** Black
- **Connector Type:** BNC Male to BNC Female

Product Usage Instructions

1. Unboxing:

Carefully unpack the BNC Video/Power Extension Cables from the packaging.

2. Connection:

Connect the male end of the cable to the video/power source, and the female end to the receiving device.

3. Cable Management:

Ensure the cables are neatly arranged and do not obstruct any movement or access to other devices.

4. Testing:

Test the connection by powering on the devices and checking for video signal transmission.

5. Maintenance:

Regularly inspect the cables for any signs of wear or damage. Clean them with a soft, dry cloth if needed.

Frequently Asked Questions (FAQ):

• **Q: Can these cables be used for outdoor installations?**

A: It is recommended to use these cables for indoor installations due to their construction and insulation.

• **Q: Are these cables compatible with all BNC devices?**

A: Yes, these cables are designed to be compatible with most BNC devices that require video and power connections.
