Jula AB reserves the right to make changes to the product. Jula AB claims copyright on this documentation. It is not allowed to modify or alter this documentation in any way and the manual shall be printed and used as it is in relation to the product. For the latest version of operating instructions, refer to the Jula website.

SAFETY INSTRUCTIONS

- Only intended for indoor use.
- Disconnect the power supply before installation.
- Check that the rated voltage corresponds to the mains supply voltage.
- Do not connect the light to the mains while it is still in the pack.
- Check that all electrical and connection cables comply with the applicable regulations and that they are connected in accordance with the instructions.
- Never overload the mains. This can result in fire or a risk of electric shock.
- Keep out of the reach of children.
- Do not store the light in a damp or very cold/hot place to avoid damaging the electronics.
- The electronics in the light are sensitive to knocks and blows. Avoid dropping it.
- Never attempt to replace damaged power cords yourself.
- The light source should only be replaced by an authorised service centre or other qualified personnel.
- The product is not dimmable.
- Pay attention so that no concealed wires are damaged in connection with installation

WARNING!

New installations and extensions to existing systems must always be carried out by an authorised electrician. If you have the necessary experience and knowledge (otherwise contact an electrician), you can replace power switches and wall sockets, fit plugs, extension cords and light sockets. Incorrect installation can result in fatal injury and the risk of fire.

Symbols

	Read the instructions.
	Only intended for indoor use.

	Risk of electric shock.
	Actuator replaceable by qualified personnel.
	Light source replaceable by qualified personnel.
	Approved as per applicable directives.
	Recycle discarded product in accordance with local regulations.

TECHNICAL DATA

Rated voltage	230 V ~ 50 Hz
Output	23 W
Luminous flu	2200 lm
Colour temperature	2700 K
Colour rendering inde	80
Life span	25000 h
Off/On	25000 times
Energy class	E
Dimmable	No
Protection rating	IP20
Diffusion angle	120°
Size	L 600 x W 160 x H 50 mm

INSTALLATION

See figures for installation instructions:

FIG. 1-7
