SAFETY INSTRUCTIONS

Carefully read the instructions before use!

- Save these instructions for future reference.
- Check that all connections are properly made before switching on the product.
- If the product does not work, check that the circuit is supplied with voltage.
- Keep children at a safe distance from the product when it is in use.
- If the permitted maximum voltage is exceeded this can damage the product, or reduce its useful life.
- If the permitted maximum temperature is exceeded this can damage the product, or reduce its useful life.

SYMBOLS

	Read the instructions.
	Safety class II.
	Approved in accordance with the relevant directives.
	Recycle discarded products in accordance with local regulations.

TECHNICAL DATA

Rated voltage, transformer in	230 V ~ 50 Hz
Rated voltage, transformer out	12 VDC
Output	4 x 1.3 W
No. of LEDs	4 x 18
Color temperature	3500 K
Luminous flux	400 lm
LED strip, size	300 x 10.5 x 2.5 mm
Operating temperature	-20 to 40°C
Storage temperature	-20 to 45°C

USE

1. Check that all connections are properly made before switching on the product.
2. If the product does not work, check that the circuit is supplied with voltage.
3. Make sure that the arrow on the contact (magnified in the figure) is turned to the plus side (+) on the LED strip.

FIG. 1

REMOVAL

1. Plug in the black plug with 4 pins. FIG. 2
2. Test the light source by connecting to 12 VDC. FIG. 3
