Product Information:

- **Model Number:** SRNI-F-E27-X
- **Manufacturer:** JULA AB
- **Address:** Box 363, SE-532 24 SKARA, SWEDEN
- **Product Features:** SMART, WIFI

Compliance with Standards and Directives:

- Directive/Regulation RED 2014/53/EU
- Eco design Directive 2009/125/EC Lightsource Regulation (EU) 2019/2020 + (EU)2021/341
- RoHS 2011/65/EU + 2015/863
- Harmonised standard EN 300 328 V2.2.2, EN 301 489-1 V2.2.3, EN 50665:2017, EN 61547:2009, EN 61000-3-3:2013+A1, EN 62493:2015, EN 301 489-17 V3.2.4, EN 50663:2017, EN IEC55015:2019+A11, EN IEC 61000-3-2:2019+A1, EN 62560:2012+A1+A11, IEC TR 62778:2014, EN 62311:2008, EN 50581:2012

Product Usage Instructions

Important Safety Instructions:

- Read the user instructions carefully before use.
- Not suitable for use in damp rooms.
- Recycle discarded product in accordance with local regulations.

Technical Specifications

- **Nominal Voltage**: 230 V~50 Hz
- **Power:** 3.8 W
- **Frequency:** 2.4 GHz
- **Socket:** E27
- **Color Rendering Index** (CRI): 80
- **Color Temperature:** 1800 K
- **Color Tone:** Extra warm white
- **Power Consumption:** 17 W
- **Luminous Flux**: 15,000 h

Description
This is a SMART product that can be connected to existing WiFi and controlled via the Smart Life app or a voice assistant. It does not require a separate hub/router. In the app, you can control all SMART products and use features such as timer scheduling, schedule planning, and automated events.

System Requirements
To use the product, you need:

- A smartphone or tablet with the Smart Life app installed.
- An existing WiFi network.

Installation and App Setup:

1. Scan the QR code to download the Smart Life app from App Store or Google Play. Alternatively, search for it in the respective app store.
2. Launch the app and register or log in to your account.
3. Follow the on-screen instructions to connect the product to your WiFi network.
   Note: For iOS devices, you can also use your Apple ID for login.

Symbols:

- Read the instructions.
- The product is dimmable.

- **Colour rendering index** CRI 80
- **Colour temperature** 1800 K
- **Colour tone Extra** warm white
- **Equivalent x W incandescent bulb** 17 W
- **Luminous flux 160** lm 360°
- **Life span** 15,000 h

DESCRIPTION

This is a SMART product that can be connected to existing WiFi and controlled via the app Smart Life, or with a voice assistant. Does not require a separate hub/router. You can control all SMART products in the app and use functions such as timer control, scheduling and automatised events.

SYSTEM REQUIREMENTS

Check that the smartphone is connected to the 2.4 GHz WiFi network and switch on the light. WiFi router. iPhone, iPad (IOS 11.0 or higher) or Android (5.0 or higher). Compatible with Google Assistant, Amazon Alexa etc.

USE

INSTALL APP

1. Scan the QR code to download the Smart Life app. Or search at App Store or Google Play.

2. Start the app to register or log-in to your account.

Registration
Register with mobile phone number or email address. *Country settings follow the mobile telephone system, but it is possible to change country number/settings manually before registering is completed (cannot be changed after registering).

Login
If you already have an account, click on ”Log in with an existing account” under ”Create a new account”, enter the mobile phone number or email address used to register and enter the password to log in, after which the operative system iOS can use Apple ID to log in.

CONNECT PRODUCT

1. Press the “Add device” and select light source (Wi-Fi) to make adjustments for new device.
2. Screw the light source in a lamp. The light source flashes rapidly. If the light source does not flash rapidly, switch on and switch off the light source five times and then switch on again, after which the light source flashes rapidly.
3. Press “Confirm” in the app to confirm.
4. Connect to the WiFi network and enter the password.
5. Press “Next” in the app to continue.
6. Connection starts. The text on the bottom of the screen gradually goes green. The connection is completed when all 3 points are green.
7. The light source can now be remote controlled wherever you are.

   NOTE:

   Do not disconnect the power supply to the light source when it is switched on and connected to WiFi – only use the app to switch on and off the light source.
