## ANSMANN USB-C 3.0 Charging Cables

## Product Information

The product is a USB charging cable manufactured by ANSMANN AG, designed for charging various devices.

## Specifications

- Manufacturer: ANSMANN AG
- Product Type: USB Charging Cable
- Compatibility: Various devices with USB ports
- Length: Standard length
- Color: Standard color

## Product Usage Instructions

### Safety Instructions

Read and follow all safety instructions and warnings provided with the product to ensure safe usage.

### Charging Devices

1. Connect one end of the USB cable to the device you want to charge.
2. Plug the other end of the cable into a compatible power source.
3. Ensure a secure connection on both ends before initiating the charging process.

### Storage and Maintenance

When not in use, store the USB cable in a safe and dry place to prevent damage. Avoid bending or twisting the cable excessively.

## SAFETY INSTRUCTIONS

Please read and keep all safety instructions and warnings carefully. They contain important instructions for using the product.

- Regular inspection: Check the cable regularly for visible damage such as cracks or worn areas. A damaged cable can lead to short circuits or overheating.
- Avoid overloading: Only use the cable for devices that do not exceed the specified current requirement. Overloading can damage the cable and the appliance.
- Safe connection: Insert the cable carefully into the connections and do not pull it out by force to avoid damage. When pulling the cable out of the connections, always pull on the plug and not on the cable itself.
- Avoid damage: Protect leads and cables from damage and crushing.
- Keep clean and dry: Avoid contact with water or other liquids to prevent short circuits.
- Correct storage: Wind the cable loosely and avoid tight knots or sharp bends to prolong its service life.

## WARNINGS

- Do not modify: Do not modify or repair the cable yourself. Improper repairs can lead to electrical hazards.
- Keep children and pets away: Keep the cord out of the reach of children and pets to prevent accidental damage or injury.
- Do not place under heavy objects: Avoid placing the cable under heavy objects to prevent damage to the

insulation.

- Do not use in damp environments: Do not use the cable in damp or wet environments to minimise the risk of electric shock.

**Damage:** Never use a damaged charger.

### **Optimal charging solution**

The practical ANSMANN data and charging cable offers the optimal solution for charging and synchronizing your data with up to 5Gbps.

### **Robust and durable**

With the highly flexible cable made of PVC-free TPE plastic and the robust aluminum housing with injected strain relief, the ANSMANN cable combines two properties that make this cable extremely resistant to high loads.

### **Perfect fit**

- The plug connections are manufactured according to the USB standard and thus ensure an optimal connection.
- Data is transferred without interference and end devices are charged optimally.

### **Compatibility**

Compatible with all common devices that have a Type-C USB port: smartphones, tablets, game consoles, cameras, GPS devices, power banks, Bluetooth speakers, e-readers, Samsung, HTC, Motorola, Nokia, LG, Sony, PS4, Xbox, Nintendo, GoPro etc.

### **Our guarantee promise**

We always strive for a high level of customer satisfaction, which is why ANSMANN offers a guarantee of up to 5 years on selected product groups. If you have any questions about an ANSMANN product after the guarantee period, please contact our friendly service technician, who will be happy to provide you with competent assistance.

### **FAQs**

#### **Q: Can I use this cable with all devices?**

A: The USB charging cable is compatible with various devices that have USB ports. However, ensure compatibility with your specific device before use.

#### **Q: How long is the warranty for this product?**

A: The warranty information can be found in the product packaging or by contacting ANSMANN AG's customer support.
