AnubisGX White RGB Mouse Pad

Launch Date: January 1, 2016

Price: \$19.99

Introduction

The AnubisGX White RGB Mouse Pad is a great example of how good looks, functionality, and speed can work together. This extra-large, 31.5 x 11.8-inch pad was made with gamers and professionals in mind. It has 14 customizable RGB lighting modes, including both static and moving choices, so you can make your workspace your own. The micro-textured surface makes it easy to follow along, and the long-lasting, waterproof fabric keeps spills from happening. The non-slip rubber base keeps it stable, and the USB-powered setup makes it easy to just plug it in and use it. This mouse pad is the best thing for gamers because it comes with extras like a microfibre towel and an ESC keycap.

Manufacturer Part Number: AnubisGX

• Material Type: Fabric

• Size: Extended

Package Includes

- 1 x AnubisGX White RGB Mouse Pad
- 1 x USB Cable (6.5 ft) for power
- 1 x User Manual

Features

1. Bright RGB lighting

The AnubisGX White RGB Mouse Pad has 14 lighting modes that you can change to make your game or work setup better. As well as basic colors and effects, you can pick from Red, Green, Royal Blue, Purple, Light Blue, White, Pink, and Yellow. There are also special modes like breathing, gradient light, rotation, double rotation, and spin. Because it has a memory function, the last mode you chose is remembered, making it easy to use when you turn it on again.

2. The best soft waterproof surface

This mouse pad is made of micro-textured, soft, waterproof fabric and is made for long game sessions. It has the best accuracy, responsiveness, and tracking, so you can move the mouse smoothly and accurately. The waterproof design protects against spills and makes the mouse pad easy to clean, so it will look great and work well for years to come.

3. Easy to Use and Focused on the User

The Plug-and-Play setup and one-button operation of the AnubisGX White RGB Mouse Pad make it very simple to use. The button is at the top, which is handy because it keeps the USB line out of the way. You can charge your phone or power small gadgets through an extra USB port while using the mouse pad. This keeps your desk clean and organized. With the ON/OFF memory return, you don't have to switch between modes every time you turn it on.

4. Very smooth surface for accurate game play

The AnubisGX mouse pad's surface is made with quality woven microfibers and is designed to be flat so that you can play games with great accuracy. This makes sure that every movement of the mouse is translated correctly, which is great for gamers who need exact tracking. The surface ensures minimal resistance for smooth gliding whether you're using high-DPI or low-DPI settings.

5. It's waterproof, not just resistant to water

The AnubisGX White RGB Mouse Pad is fully waterproof, which is different from most gaming mouse pads that are only water-resistant. This gives it extra protection against spills and makes it very simple to clean. You won't have to worry about liquid damage, and the microfiber towel and cleaning brush that come with the mouse pad will keep it clean and work for longer.

6. 14 the best lighting modes

With 14 RGB modes, you can change your settings to fit your mood or the way you play. The LED fiber is made to give you a bright, smooth light experience that makes your desk more interesting, whether you're working on a project or playing games all night. One of the color choices is to show steady red, green, blue, and other colors in a variety of changing patterns.

7. Some extra accessories

You get more than just a mouse pad when you buy the AnubisGX White RGB Mouse Pad. Among them are:

 A high-quality AnubisGX White double-shot ABS ESC keycap for mechanical keyboards that makes your setup a little better.

- · A 20 cm microfiber towel with a logo that makes cleaning easy.
- · Less complicated steps to help you set up your mouse pad quickly.
- Also, 3% of the profits from each sale go to the SemperFi Fund, a charity that helps soldiers who have been hurt and their families.

8. Bright LED Lighting for People Who Love Gaming

The AnubisGX White RGB Mouse Pad is designed to go with your game battle station. It has bright, smooth LED lighting that makes your experience better. Because the LED lights are so good, the colors are bright and rich, making your game space come to life.

Extras that go with the whole gaming setup

- 1. 6-foot braided cable (now available in gray/white, as asked by users for a cleaner look) makes it easy to join and lasts a long time.
- 2. A cleaning brush with two ends to keep the surface clean.
- 3. ESC keycap to make your mechanical keyboard look better.

Usage

- **Setup:** Connect the included USB cable to the mouse pad and a power source.
- Lighting Control: Use the built-in button to toggle between 14 RGB modes.

- Gaming/Work: Place your keyboard and mouse on the pad for an uninterrupted, smooth experience.
- Wireless Accessories: Use the spacious surface to charge compatible devices or organize desk items.

Care and Maintenance

- Cleaning: Wipe the surface with a damp cloth and mild soap to remove dust and stains. Avoid harsh chemicals.
- Storage: Roll the mouse pad gently when not in use. Do not fold or crease.
- **Environment**: Keep away from direct sunlight and high humidity to prevent material degradation.
- Regular Checks: Inspect the USB cable for wear and replace if necessary.

Troubleshooting

Issue: RGB Lighting Not Working

• Solution:

- 1. Ensure the USB cable is securely connected to a power source.
- 2. Test with a different USB port or cable.
- 3. Restart the device by unplugging and reconnecting.

Issue: Mouse Pad Slipping on Desk

· Solution:

- 1. Clean the desk and rubber base to remove dust or grease.
- 2. Ensure the desk surface is flat and even.

Issue: Surface Not Tracking Properly

· Solution:

- 1. Clean the surface to remove any debris.
- 2. Use a compatible mouse with high DPI for optimal performance.

Pros and Cons

Pros	Cons
Stunning RGB lighting options	May be too large for small desks
High-quality, durable materials	Price may be higher than basic models
Waterproof and easy to clean	Limited color options compared to others
