# Anvil™

## ANVIL-1 Tree Pruner

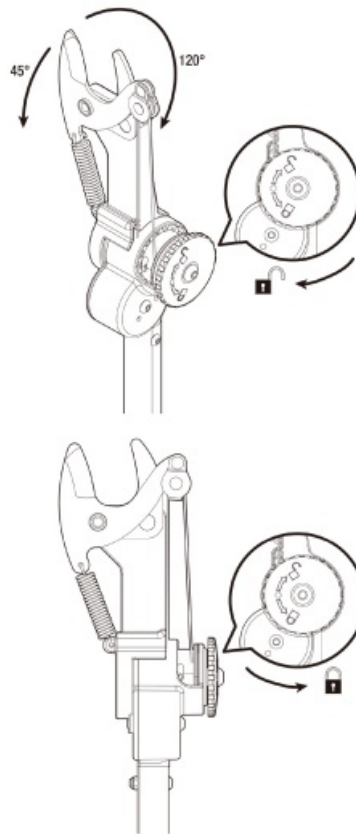

## Operation

### 1. SETTING THE CUTTING ANGLE

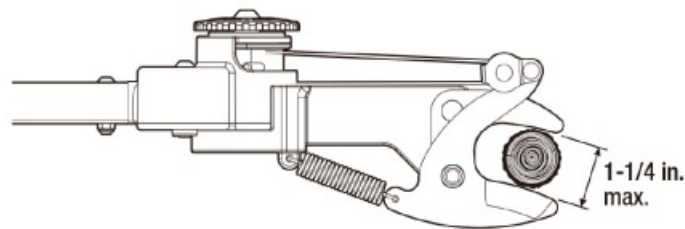

**NOTE:** Please ensure that the rotating disk is in the locked D position before starting work.

- Turn the rotating disk clockwise to the unlocked position.
- Choose one of the eleven available cutting angles.
- Turn the rotating disk counter-clockwise to the locked position.

## USING THE PRUNER

**NOTE:** Do not cut branches with diameters greater than 1-1/4 in.

- Position the pruner so the branch is between the pruner blades.
- Pull the middle grip downward to cut branches that are lower and closer to you.
- Pull the end grip downward to cut branches that are higher and farther away from you.

## Safety Information

- Keep children out of the work area.
- Do not stand directly under the branch being cut.
- Wear safety goggles, boots, and helmet for protection from falling branches.
- Keep proper footing and balance at all times.
- Keep the product out of the reach of children.
- Do not use the product if it is damaged or if any parts are loose.
- Store the product out of the reach of children.

## WARNING

- When using the pruner, basic safety precautions should always be followed to reduce the risk of personal injury.
- Keep sharp blades away from fingers and body. Contact with the blades can result in serious personal injury.
- Do not use the product near high voltage lines or power cords.

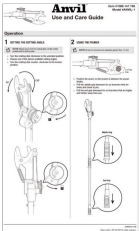

## Care and Cleaning

- Carefully clean and lubricate the blades after each use.
- Store the pruner in a dry location.
