- Do not overreach, keep proper footing and balance at all times.

## MAINTENANCE

- Always keep the camera lens clean.
- Should any other components not mentioned need to be replaced,
- please contact our customer service agents.

## TROUBLESHOOTING

Troubleshooting (APP)	Troubleshooting (Camera)
Does not respond when camera connected to the phone.	Camera is hot
1. Please confirm whether the phone has the OTG function on. (Android) 2. Please confirm whether the plug is securely in place. Try to plug and unplug it several times.	It is usual for the camera to heat up, especially when the LED light is at its highest brightness, but it does not affect normal use or service life.
Not displaying pictures	Image blur
Check whether the camera light is on, if it is off, or if the interface is not in good contact, please re—plug it.	The best imaging focal length of the product is: 3cm-10cm, please adjust the distance from the object you are looking at, or clean the front of the camera with a clean alcohol cloth.
Automatically open other APP	The image appears to be stuck or paused.
Reason: This APP has been set to open USB device by default before. Solution 1: Go to Settings — application information—select this APP, find the default option—click Clear default.	Sometimes the app can get stuck if the mobile device battery is low. Keep it above 20%.

## WARRANTY

**30-Day Guarantee:** We will give you a full refund if you are not satisfied with the product.

**One-Year Warranty:** We offer a limited warranty that commences from the date of purchase of the product.
