15. Headphone jack

Note: Please insert the TF card before use, otherwise the machine will not work normally!
Please choose a high-speed transfer TF card of CLASS10 and above to ensure the fluency of music appreciation.

Function Description

Charging and file transfer

1. Please use a standard 5V IA power adapter or connect to a USB charging port of the computer for charging;

2. File data types such as music, e—books, etc. They can be transferred by the following methods

   a: Through the memory card reader provided by us, use the computer to connect the card reader to transfer files to the TF card;

   b: When the MP3 is turned on, it's connected to the computer through the data cable for data transmission. The transmission speed of this method is slow;

During the charging process, the charger and player will heat up to a certain extent, which is normal.

Update playlist

1. If the MP3 playlist is not automatically updated after a new music file is added, you can insert the TF card into the card reader and then connect with the computer to recover the TF card, and it will be updated automatically. (The previous music operation record will not be cleared by this action)

2. If new music files are added and the MP3 playlist is not automatically updated, please select "Update Playlist" in "Music" or "Settings". (This process will clear the previous music operation records, such as "favorites", "bookmarks", etc.)

3. The update speed will slow down when the TF card file is large, please be patient.

AB repetition:

- long—press the ' key to set point A, and then press the " > key to set point B when playing music/recording, the machine will automatically repeat between A and B. Press " > " again to cancel AB repeat.

FREQUENTLY ASKED QUESTIONS

- Q: The player cannot be turned on?
  A: Please check whether the battery is exhausted. You can connect it to a computer or a charger and try to turn it on again.
- Q: No sound can be heard in the headset?
  A: Please check if the volume is set to zero. Please check if the earphone is correctly inserted into the earphone jack.
- Q: Severe noise?

A: Please check whether the plug of the earphone is clean. Dirt can cause noise. Please check whether the music file is damaged, you can try to play other music files to confirm. If the file is damaged, it may cause severe noise or skipping of sound.

- Q: FM signal reception is weak?
  A: Please adjust the direction and position of the player, and extend the headphone cable. Please check if there is interference from electronic equipment nearby

- Q: Do you support displaying lyrics?
  A: Yes, but you need to download the file in "LRC' format and check the song time corresponding to the lyrics. The song name and lyrics must be the same.

- Q: Why are there garbled characters in lyrics or e—books?
  A: The encoding format may be wrong. Please select "UTF-8′ encoding format when saving lyrics or e-books
