PRODUCT OVERVIEW

FEATURES

- **Dimmable Function:** The Aooshine S6-16 lamp has a dimmable feature that lets you change the brightness to suit your tastes and create the ideal atmosphere in any space.
- **LED Light Source:** It makes use of LED technology, which is long-lasting and energy-efficient, offering brilliant, consistent lighting with less power usage.
- **Black and Linen Design:** The black and linen combination creates a chic, contemporary appearance that goes well with a variety of interior design motifs.
- **Square design:** The lamp's square design gives it a sleek, contemporary appearance and makes it simple to place on workstations and side tables or in confined areas.
- **Plastic Material:** The lamp's sturdy plastic construction guarantees endurance while maintaining its portability and light weight.
- **Power Source:** The Aooshine S6-16 is powered by a corded electric source, which offers a steady and dependable power source for ongoing operation.
- The majority of home electrical systems in areas with 120V outlets can use this lamp because it is made for standard voltage (120V).
- **Compact Size:** Measuring 12.8 inches in height, the lamp is sufficiently tiny to fit on desks, bedside tables, and

other confined areas while still producing enough light.

- **Minimalist Design:** Its straightforward, tidy, and minimalist style makes it adaptable to a variety of settings, including offices, living rooms, bedrooms, and dorm rooms.
- **Lightweight Design:** The Aooshine S6-16 weighs only 1.3 pounds, making it easy to move and position as needed with little effort.
- **Perfect for Indoor usage:** | Because this lamp is made only for indoor usage, it looks fantastic in offices, living rooms, bedrooms, and other indoor spaces.
- **Energy Efficient:** The lamp is an economical and environmentally beneficial lighting solution since it uses LED technology, which uses less energy than conventional incandescent bulbs.
- **Easy Control:** The lamp has a simple dimmable switch that makes it simple to change the lighting without having to worry about complex settings.
- **Elegant Linen Shade:** The lamp's linen shade casts a gentle, filtered light that is comfortable for the eyes and perfect for reading or setting a warm mood.
- **Reasonably priced:** The Aooshine S6-16 is a fantastic choice for customers on a tight budget because it provides both style and utility without going over budget.

Make your small space shine with the magic of a small table lamp (bulb not included).

SETUP GUIDE

- **Unpack the Lamp:** Make sure that the base, shade, and power cord are all included when you carefully unpack the Aooshine S6-16 lamp.
- **Install the Shade:** Make sure the linen shade is correctly aligned and fastened to the lamp base. For the best lighting, make sure it is positioned correctly.
- **Put the Bulb in:** Even though the lamp has an LED light source, make sure the LED bulb is inserted into the socket correctly. Since it's already incorporated, there's no need to replace the bulb.
- **Place the Lamp on a sturdy Surface:** To make sure the lamp is safe and won't topple over, place it on a flat, sturdy surface like a desk, side table, or nightstand.
- **Connect the Power Cord:** Make sure the cord is plugged into an electrical outlet securely, free of any sharp bends or tangling that can harm the wiring.
- **Adjust the Position:** Put the lamp where it will shine the best, such as next to a bed, in a reading nook, or on a desk for task illumination.
- **Test the Lamp:** To make sure the dimmable feature is functioning, turn the lamp on and test it. To suit your tastes, change the brightness.
- **Verify the Light Output:** Examine the light output to make sure the LED bulb illuminates the surrounding area

sufficiently.

- **Position for Desired Light Effect:** To get the ideal light effect for reading, working, or ambient lighting, move the lamp according to your needs.
- **Handle the Power wire:** To keep the extra power wire from becoming a trip hazard, tuck it under or around the base if needed.
- Make sure the light base is steady and not swaying by securing it. To prevent it from toppling over, position it on a level surface.
- **Use in Dry Areas:** To prevent any possible electrical risks or component damage, use the light in a dry, secure indoor location.
- **Modify the Light Settings:** You can use the dimmable option to change the light's brightness for task lighting or to make it more calming in the evening.
- **Test in Different Rooms Settings:** To determine where the lamp works best and creates the ideal atmosphere, try putting it in various spaces, such as the living room, bedroom, or office.
- **Use with Care:** To keep the lamp in good shape, handle it carefully when assembling it and refrain from using excessive force when changing the base or shade.

CARE & MAINTENANCE

- **Dust Frequently:** To avoid the accumulation of dust and grime, wipe down the lamp's base and linen shade on a frequent basis using a gentle cloth.
- **Use a Damp Cloth to Clean:** To prevent causing damage to the fabric shade, softly moisten a cloth and use it to gently wipe the surface. Before applying it once more, let it dry fully.
- **Avoid Harsh Cleaning Products:** To prevent damaging the linen shade or plastic base of the lamp, avoid using abrasive cleaning agents or harsh chemicals.
- **Turn Off When Not in Use:** To conserve energy and extend the life of the lightbulb, always turn off the lamp when not in use.
- **Check for free Components:** Make sure the lamp shade and other parts are securely fastened to avoid their falling free over time.
- **Examine the Power Cord:** Check the power cord on a regular basis for any obvious damage or wear. To prevent electrical dangers, replace the cord right away if it is frayed.
- **LED Bulb Replacement If Necessary:** Verify that the LED bulb is not damaged if it flickers or does not illuminate. If you require a replacement, get in touch with the manufacturer.
- **Prevent Overheating:** To avoid overheating, make sure the lamp is positioned in an area with adequate ventilation. If the light gets too hot while being used for a long time, turn it off.
- **put in a Dry Area:** To avoid exposing the lamp to moisture or humidity that could harm it, put it in a dry location when not in use for prolonged periods of time.
- **Examine the Dimming Feature:** Make sure there is no buildup or obstruction surrounding the dimming control switch, and give it a thorough cleaning if the dimming feature starts to become less responsive.
- **Avoid Water Contact:** To prevent damage, keep the lamp away from water and excessive moisture as it is not waterproof.
- **Keep Out of Direct Sunlight:** To stop the fabric from gradually fading or discoloring, keep the lamp out of direct sunlight.
- **Secure the Lamp in Place:** To avoid needless wear or the possibility of component damage, make sure the lamp is firmly in place and refrain from moving it about a lot.

- **Check for Stability:** If you observe any swaying or instability, move the lamp or make sure the base is securely fixed.
- **Replace Damaged Parts Immediately:** To guarantee the lamp's continuous safety and effectiveness, replace any damaged parts as soon as possible, including the shade, bulb, and power cable

TROUBLESHOOTING

Issue	Troubleshooting Steps
Lamp does not turn on	Check if the power source is properly connected and the lamp switch is on.
The lamp is flickering	Inspect the bulb for loose connections or replace it with a new LED bulb.
Lamp brightness is too low	Ensure the dimmer switch is set to a higher brightness and check the LED bulb.
The lamp turns off unexpectedly	Verify the power cord connection and ensure the socket is functioning properly.
The lamp is too bright	Adjust the dimmer switch to reduce brightness levels.
The plastic shade is scratched	Clean the lamp gently with a soft cloth or replace the shade if damaged.
The lamp gets too hot	Allow the lamp to cool before handling, especially after long usage.
The lamp is making a buzzing noise	Check for loose parts or faulty wiring and contact customer service if needed.
The LED light is not working	Replace the LED bulb or check the socket for damage.
Lamp does not work with a dimming function	Ensure the dimmer switch is functioning properly, or try resetting the lamp.
The lamp's cord is too short	Use an extension cord or move the lamp closer to the power outlet.
The lamp is unstable or wobbly	Ensure the base is securely attached to the lamp and adjust if necessary.
The lamp is not dimming properly	Check the dimmer mechanism and test the bulb.
There is a delay when turning the lamp on/off	Check for any obstructions in the switch or try pressing it firmly.
The lamp shade is misaligned	Adjust the shade to ensure it sits properly and tightly.

PROS & CONS

PROS:

1. Dimmable LED lighting allows customizable brightness levels.
2. Sleek and modern design that complements various interior styles.
3. Compact size (12.8 inches) makes it perfect for small spaces.
4. Energy-efficient LED bulb reduces electricity consumption.
5. Affordable price point for an elegant, functional table lamp.

CONS:

1. The corded power source limits placement flexibility.
2. May not provide enough light for larger rooms.
3. Plastic material may not be as premium-feeling as other materials.
4. No USB ports for device charging.
5. Indoor use only, limiting its versatility in outdoor settings.

WARRANTY

The Aooshine S6-16 Small Table Lamp comes with a 1-year limited warranty covering defects in materials or workmanship under normal use. The warranty does not cover damages caused by misuse, accidents, or unauthorized repairs. If the lamp stops working within the warranty period, customers can receive a replacement or repair by contacting Aooshine's customer service with proof of purchase.
