- **Charging Time**: Up to 2 hours
- **App Compatibility:**
  - **iOS**: Requires iOS 13.0 and above
  - **Android**: Requires Android 6.0 and above

Product Usage Instructions

1. **Charging the Watch:**
   - The smartwatch must be charged before initial use.
   - Connect and charge the watch using a 5V/2A adapter.
   - Refer to the image below for proper connection.
2. **Turning the Watch On/Off:**
   - To turn the watch on/off, long-press the side button for 3-5 seconds.
   - The screen can be woken up by lifting your wrist.
3. **Connecting to the App:**
   1. Download the Apex Wear app from either the App Store (iOS) or Google Play Store (Android).
   2. Alternatively, scan the QR Code available on the watch to download the app.
   3. Connect the device with the Apex Wear app.
   4. Select "Apex Fit PLUS Smart Watch" on the app's home screen and click "pair" to connect.
   5. To use all features seamlessly, grant access to connection and necessary system prompts.
   6. Ensure Bluetooth and GPS are enabled on your phone.
   7. In your phone's settings, find Bluetooth and turn it on. Also, enable Location Service under Privacy settings.
   8. Disable battery optimization for optimal performance.
4. **Navigating Through the Functions:**
   - Swipe from right to left on the watch to access the main menu.
   - **Workout**: Choose a sports mode and tap to start the activity. Press the side button to pause or stop. Activities shorter than 3 minutes will not be recorded. Sync your smartwatch with the app for detailed analysis.
   - **Record**: View all your workout records.
   - **Heart Rate Monitor**: Click on the icon to start measurements. View the data on the app as well.
   - **Phone**: To use BT Calling, pair the watch with the Apex Wear app. Connect the watch with your phone's Bluetooth either through the app or phone settings. Enable Bluetooth calling on the watch if desired.

PLUS SMARTWATCH

Thank you for choosing the Apex Fit PLUS Smart Watch as your fitness transformation companion. Allow this manual to guide you through the functioning of your smartwatch. Please read it thoroughly before using your smartwatch. Keep this manual for later use as well.

PACKAGE CONTAINS:

- Apex Fit PLUS Smart Watch x1
- USB Magnetic Charging Cable x1
- User Manual x1
- Quick Start Guide x1

CHARGING THE WATCH

The smartwatch must be charged before initial use. It takes up to 2 hours to be fully charged. Connect and charge the watch with the image below as a reference, using a 5V/2A adapter.

TURNING THE WATCH ON/OFF

To turn the watch on/off, long-press the side button for 3-5 seconds. You can wake the screen by lifting your wrist.

CONNECTING TO THE APP

1. Download the Apex Wear app on your phone. Available on both App Store (iOS 13.0 and above) and Google Play Store (Android 6.0 and above) OR Scan [QR CODE] (Also available on the watch)
2. Connect the device with the Apex Wear app.

3. Select Apex Fit PLUS Smart Watch on the home screen of the app and click pair to connect.
4. To use all features of your Apex Fit PLUS Smart Watch seamlessly, tap on the es' to the connection and grant access system prompt.
5. Turn on your phone's Bluetooth and GPS on. Go to phone settings, find Bluetooth, and turn on / find Privacy -> Location Service and turn on.
6. Disable battery optimization.

Note: To ensure connectivity throughout your journey, make sure the app is allowed to run in the background of your phone at all times. iPhones will not prompt any information unless you complete Bluetooth pairing with the Apex Fit PLUS Smart Watch.

SYNCING YOUR SMARTWATCH TO THE APP

Data Synchronization:

- Open the app on your phone.
- Make sure your smartwatch is connected; refer to
- CONNECTING TO THE APP" section of this manual.
- Synchronization will start automatically once you enter the app interface.

Note:
Synchronize data at least once every day to avoid data loss in the watch.

NAVIGATING THROUGH THE FUNCTIONS SWIPE FROM RIGHT TO LEFT TO ACCESS THE MAIN MENU

Workout

Choose from multiple sports modes like outdoor run, outdoor walk, indoor walk, outdoor cycle, indoor run, hike, exercise, indoor cycle, elliptical, yoga, climbing, trail run, and rowing. Tap on any sports mode to start the activity. Press the side button to pause or stop the activity. If the activity is less than 3 minutes, it will not be recorded. Sync your smartwatch to the app to get a detailed analysis.

Record

It shows all your workout records.

Heart Rate Monitor

Wear the watch on your wrist, then click on the icon to start measurements. You can also view the data on the app.

Note:

Measurements are for reference only and not for medical purposes.

Phone

- To use the BT Calling feature, open the Apex
- Wear the app and pair the watch.
- Once paired you will get the pop-up on the app home screen to connect with the Phone's Bluetooth.
- Click on "pair" to connect with the phone's Bluetooth.

Alternatively, you can go to the phone's Bluetooth settings and pair " Apex Fit PLUS Smart Watch ' to start the calling feature on your watch. You can also enable the Bluetooth calling feature from the watch.

Note: Enable call alerts from your phone settings to answer calls on your watch. When the APP is enabled, the contact book can be authorized to obtain the contacts, and the contacts can be synchronized to the watch in the contact list function in the APP. Up to 20 contacts can be saved in the contact list. The latest call details are displayed in the Recent Call feature. When the watch is connected to the APP, you can use the dial function on the watch to dial any number.

Stress monitoring

Click this option to start the stress monitoring. Make sure you wear your watch on your wrist properly to get accurate results. Analysis of the measurement is:
- **Relax**: 1-29
- **Normal**: 30-59
- **Medium**: 60-79
- **High**: 80-100

Note: Measurements are for reference only and not for medical purposes.

MAINTENANCE

Regularly clean your wrist and the strap of the smartwatch, especially after sweating during exercise or being exposed to substances such as soap or detergent, which may get stuck on the other end of the product. Do not wash the strap with a household cleanser. Please use soapless detergent, rinse thoroughly, and wipe with a piece of soft towel or napkin. For spots or stains that are not easy to remove, scrub the area with rubbing alcohol and then follow the above procedure.

FAQ
Search for the app to connect keeps failing

1. Keep the Apex Wear app updated to the latest version.

2. Close all the programs on the watch -> Stop and restart Bluetooth and GPS-> Connect again.

3. Check and enable notification functions of your phone and keep the phone and watch in close contact.

Note: Make sure your phone system meets Android 7.0 and above and iOS 13.0 and above. My Apex Fit PLUS Smart Watch is receiving no alerts, texts, or phone calls

Make sure smart reminders on the app are on and synced to the Apex Fit PLUS Smart Watch. Also, make sure the notification center of the phone is displaying messages. Only then will your smartwatch also display those notifications. Make sure the app is running in the background and the battery optimization feature on the phone is disabled.

My Bluetooth keeps getting disconnected

1. Make sure there is not more than 30 (9.1 m) distance between Bluetooth on the phone & the watch.

2. There is no obstacle between the watch and the phone.

3. Make sure the app is running in the background. Which functions of the Apex Fit PLUS Smart Watch need Bluetooth to work?

Call and text Notifications, Find My Phone, Music control, Camera control, Weather forecast, Cloud, and custom watch faces need Bluetooth connectivity to work. Will it be okay to take a bath wearing the Apex Fit PLUS Smart Watch? The IP68 water resistance will only work under the following conditions;

1. Maximum depth of water: 39″ (1m)

2. Maximum time for exposure to water: 30 minutes

The watch Isn't suitable for hot baths, hot springs, saunas, snorkeling, diving, water skiing, and other wading or deep-water activities with high-speed water flow.

SAFETY & PRODUCT INFORMATION

Battery

- Do not disassemble, bore, or damage the battery.
- Do not disassemble the built-in batteries of non-replaceable battery devices.
- Do not use sharp objects to remove the battery

Health Warning

- If you are wearing a pacemaker or other implanted electronic devices, please consult your doctor before using the heart rate monitor of the watch.
- The optical heart rate sensor will glow green. If you suffer from epilepsy or are sensitive to blinking light sources, please consult your physician before wearing this device.
- The device tracks your daily activities through sensors. This data is intended to tell you about your daily activities such as steps, sleep, distance, heart rate, and calories, but may not be completely accurate.

The device accessories, heart rate sensor, oxygen level monitor, and other relevant data are designed for fitness and not for medical purposes. They do not apply to the diagnosis, monitoring, treatment, or prevention of any diseases or symptoms. The heart rate and blood pressure data are for reference only. We're not responsible for any deviation in data. Avoid wearing the watch too tightly. Make sure you keep your skin dry – the area that comes in contact with the watch. If symptoms such as redness or swelling appear on your skin, immediately stop using the watch and consult the doctor.

Things to keep in mind

- Sync data every day to avoid data loss.
- Water Resistance will not work for seawater, acidic and alkaline solutions, chemical reagents & other corrosive liquids. The damage or defects caused by misuse or improper use are not covered by the warranty.
- Sports modes support up to 6 hours of exercise at a time.
- Avoid wearing the watch too tight in daily use. Keep the parts of the skin touching the watch dry.
- Keep your arm still while measuring data for accurate measurement.

Disclaimer: This product is an electronic monitoring product and is not intended as a medical reference. We reserve the right to modify or improve any of the functions described in this manual without any prior notice. At the same time, we hold the right to continuously update the product content.

CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN INCORRECT SUBSTITUTE. DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

Old electrical appliances must not be disposed of together with the residual waste, but have to be disposed of separately. The disposal at the communal collecting point via private persons is free. The owner of old appliances is responsible for bringing the appliances to these collection points or similar collection points. With this little personal effort, you contribute to recycling valuable raw materials and treatment of toxic substances.

IC WARNING
This device contains license-exempt transmitter(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

1. his device may not cause interference.

2. This device must accept any interference, including interference that may cause undesired operation of the device.

This equipment complies with the ISED radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RF exposure statement

This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and

2. this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used by the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
