400-800-1600-3200-6400-12800

FCC Caution
This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and

2. this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FAQ

Q: How can I switch between DPI levels on the Pulsar X2H v3 Wireless Mouse?
A: Press the DPI switch to cycle through the DPI levels ranging from 400 to 12800.

Q: What do the different RGB colors indicate in terms of DPI /levels?
A: The RGB colors correspond to different DPI levels – Light Blue (400), Blue (800), Green (1600), Yellow (3200), Orange (6400), Pink (12800).

Q: How do I know if the mouse is in RF mode?
A: Check the indicator light; if it shows a connection, the mouse is in RF mode.
