## Connection Set Up User Guide

For ASUS Aura Sync, MSI Mystic Light Sync, and GIGABYTE RGB Fusion Motherboards

1. Connect (A) to the motherboard's PWM socket
2. Connect (B) to the motherboard's Addressable RGB socket
  - For Non-Addressable RGB Motherboards
  - Connect (A) to the motherboard's PWM socket

Connect the 2-pin reset switch connector (D) with your hub.

### Connect (C) to the PSU's SATA connector

- Use the RGB fan connectors (E) to connect the Addressable
- RGB fans with your hub.

1 120mm

I/O

- Hold the LED control button for 3 sec to switch between the motherboard and button control
- Hold the LED control button for 6 secs to turn off the LED and press it once to turn it back on

#### Note:

- Specifications may vary depending on your region Contact your local retailer for more information.
- To learn more about how to connect your ARGB, please visit the product page at [APNX.com](https://www.apnx.com).
